Gr. 708 in the Saltykov-Schedrin State Public Library, Leningrad** Dionysius of Fournas, Paul Hetherington, 1974 **Approaches to Byzantine Architecture and its Decoration** Mark J. Johnson, Amy Papalexandrou, 2016-12-05 The fourteen essays in this collection demonstrate a wide variety of approaches to the study of Byzantine architecture and its decoration a reflection of both newer trends and traditional scholarship in the field The variety is also a reflection of Professor Curcic's wide interests which he shares with his students These include the analysis of recent archaeological discoveries recovery of lost monuments through archival research and onsite examination of material remains reconsidering traditional typological approaches often ignored in current scholarship fresh interpretations of architectural features and designs contextualization of monuments within the landscape tracing historiographic trends and mining neglected written sources for motives of patronage The papers also range broadly in terms of chronology and geography from the Early Christian through the post Byzantine period and from Italy to Armenia Three papers examine Early Christian monuments and of these two expand the inquiry into their architectural afterlives Others discuss later monuments in Byzantine territory and monuments in territories related to Byzantium such as Serbia Armenia and Norman Italy No Orthodox church being complete without interior decoration two papers discuss issues connected to frescoes in late medieval Balkan churches Finally one study investigates the continued influence of Byzantine palace architecture long after the fall of Constantinople **Popes and Church Reform in the 11th Century** H.E.J. Cowdrey, 2024-10-28 The essays in this volume centre upon the epoch making papacy of Gregory VII 1073 85 and complement the author's major study of the pope They look at the formation and expression of Gregory's ideas notably in relation to simony and clerical chastity and emphasise his religious motivation attention is also given to the impact of his pontificate on the Anglo Norman lands and Scandinavia The book further includes extended discussion of the contrasting figure of Lanfranc Archbishop of Canterbury 1070 89 and of the complex question of the interaction between him and Pope Gregory The Shroud of Turin Giulio Fanti, Pierandrea Malfi, 2019-12-06 The Shroud of Turin is the most important and studied relic in the world The many scientific studies on the relic until today have failed to provide conclusive answers about the identity of the enveloped man and the dynamics

regarding the image impressed therein This book not only addresses these issues in a scientific and objective manner but also leads the reader through new search paths In the second edition besides including some of the most recent findings on the Shroud the authors follow the many tips and comments received from readers The Shroud s dating by means of alternative methods has not been free from controversies some of which have even implied the non authenticity of the Shroud s samples tested So the authors duly expand Chapter 7 to include the proof of the origin of the samples used in the recent scientific research and also address the provenance and the path of the original sample Furthermore a new section contains a personal interview with the authors that is the result of the interesting and praiseworthy work of a Bavarian high school student Although there are many books on the subject none contains such a formidable quantity of scientific news and reports Unique in its genre this book is a powerful tool for those who want to study the Turin Shroud deeply

Eliezer-Zusman of Brody Zvi Orgad,2022-06-08 Eliezer Zusman of Brody The Early Modern Synagogue Painter and His World discusses Jewish cultural and artistic migration from Eastern Europe to German lands in the first half of the eighteenth century Focusing on Eliezer Zusman of Brody who painted synagogues in the Franconia area hitherto neglected biographical aspects and work methods of religious artisans in Eastern and Central Europe during the early modern period are revealed What begins as a study of synagogue paintings in Franconia presents an unexpectedly intensive glimpse into the lives and sacred products of painters at the periphery of Jewish Ashkenazi existence *The A to Z of the Orthodox Church* Michael Prokurat,Michael D. Peterson,Alexander Golitzin,2010 Of the three major branches of Christianity Orthodoxy is the least known and most misunderstood The A to Z of the Orthodox Church provides students researchers and specialists with a desk encyclopedia of the theology and theologians saints sinners places and events of the Eastern Church Two millennia of the religion are surveyed in over five hundred concise entries concentrating primarily on the last 150 years Includes an overview of the early Church through the Byzantine and Russian Empires into the present multinational Orthodox presence in the ecumenical movement Many of the general entries cannot be found elsewhere in English and the comprehensive compilation of biographies of 19th and 20th century Orthodox theologians American Russian Greek and many other nationalities is published here for the first time This book includes a detailed 4 000 year chronology illustrations extensive bibliography and an appendix listing the current canonical patriarchs and autocephalous churches *Icons in Time, Persons in Eternity* C.A. Tsakiridou,2016-05-13 Icons in Time Persons in Eternity presents a critical interdisciplinary examination of contemporary theological and philosophical studies of the Christian image and redefines this within the Orthodox tradition by exploring the ontological and aesthetic implications of Orthodox ascetic and mystical theology It finds Modernist interest in the aesthetic peculiarity of icons significant and essential for re evaluating their relationship to non representational art Drawing on classical Greek art criticism Byzantine ekphraseis and hymnography and the theologies of St Maximus the Confessor St Symeon the New Theologian and St Gregory Palamas the author argues that the ancient Greek concept of enargeia best

conveys the expression of theophany and theosis in art The qualities that define enargeia inherent liveliness expressive autonomy and self subsisting form are identified in exemplary Greek and Russian icons and considered in the context of the hesychastic theology that lies at the heart of Orthodox Christianity An Orthodox aesthetics is thus outlined that recognizes the transcendent being of art and is open to dialogue with diverse pictorial and iconographic traditions An examination of Chinese Zen art theory and a comparison of icons with paintings by Wassily Kandinsky Pablo Picasso Mark Rothko and Marc Chagall and by Japanese artists influenced by Zen Buddhism reveal intriguing points of convergence and difference The reader will find in these pages reasons to reconcile Modernism with the Christian image and Orthodox tradition with creative form in art

Coming of Age in Byzantium Despoina Ariantzi, 2017-12-18 The various phases of life and their manifestations in theory and social reality constitute a well established area of research in the fields of western medieval studies and ancient history In this respect the Byzantine East has been widely neglected This volume will focus on the Byzantine experience of adolescence which may be defined as the biological transition from childhood to adulthood as well as the social and psychological experience of leaving the care of parents guardians and family groups and the gradual integration into adult society The contributions gathered therein treat seven subtopics that correspond to crucial questions in the current research on adolescence the legal status of adolescents the mechanisms of transition from childhood to adolescence the socialisation and gradual integration into adult society adolescents in Byzantine art psychological aspects of adolescence from medieval to modern times illnesses of adolescents adolescents in the western medieval world The focus is on the Middle and Late Byzantine Period where historical hagiographical legal and medical sources offer rich material for an investigation of these aspects The book contributes to a better understanding of all these questions and to show future trajectories for research

Icons in the Western Church Jeana Visel, 2016 Within the Eastern tradition of Christianity the eikon or religious image has long held a place of honor In the greater part of Western Christianity however discomfort with images in worship both statues and panel icons has been a relatively common current particularly since the Reformation In the Roman Catholic Church after years of using religious statues the Second Vatican Council's call for noble simplicity in many cases led to a stripping of images that in some ways helped refocus attention on the eucharistic celebration itself but also led to a starkness that has left many Roman Catholics unsure of how to interact with the saints or with religious images at all Today Western interest in panel icons has been rising yet we lack standards of quality or catechesis on what to do with them This book makes the case that icons should have a role to play in the Western Church that goes beyond mere decoration Citing theological and ecumenical reasons Visel argues that with regard to use of icons the post Vatican II Roman Catholic Church needs to give greater respect to the Eastern tradition While Roman Catholics may never interact with icons in quite the same way that Eastern Christians do we do need to come to terms with what icons are and how we should encounter them

The Sign of the Cross Daniel Rancour-Laferrriere, 2017-09-08 This book presents a unique effort to

create a new understanding of the Christian sign of the cross At its core it traces the conscious and unconscious influence of this visual symbol through time What began as the crucifixion of a Jewish troublemaker in Roman occupied Judea in the first century eventually gave rise to a broad spectrum of readings of the instrument used to accomplish such a punishment a cross The author argues that Jesus was a provocative grandiose masochist whose suffering and death initially signified redemption for believers This idea gradually morphed into a Christian sense of freedom to persecute and wage war against non believers however as can be seen in the Crusades wars of the cross Many believers even construed the murder of their savior as a crime perpetrated by the Jews and this paranoid notion culminated in the mass murder of European Jews under the sign of the Nazi hooked cross Hakenkreuz Rancour Laferriere s book is expertly written and argued it will be readable to a large audience because it touches on many areas of controversy interest and scholarship The work is critical but not unfair it employs psychoanalysis art history the study of the symbol of the cross in works of art religion and religious texts and world history generally The interweaving of these various themes is what gives this work its ability to draw in readers and will ultimately be what keeps the reader interested through the conclusion

Byzantium in Eastern European Visual Culture in the Late Middle Ages, 2020-08-03 Byzantium in Eastern European Visual Culture in the Late Middle Ages edited by Maria Alessia Rossi and Alice Isabella Sullivan engages with issues of cultural contact and patronage as well as the transformation and appropriation of Byzantine artistic theological and political models alongside local traditions across Eastern Europe The regions of the Balkan Peninsula the Carpathian Mountains and early modern Russia have been treated in scholarship within limited frameworks or excluded altogether from art historical conversations This volume encourages different readings of the artistic landscapes of Eastern Europe during the late medieval period highlighting the cultural and artistic productions of individual centers These ought to be considered individually and as part of larger networks thus revealing their shared heritage and indebtedness to artistic and cultural models adopted from elsewhere and especially from Byzantium See inside the book *Images of the Byzantine World* Angeliki Lymberopoulou, 2016-12-05 The main themes of this volume are the identification of visions messages and meanings in various facets of Byzantine culture and the possible differences in the perception of these visions messages and meanings as seen by their original audience and by modern scholars The volume addresses the methodological question of how far interpretations should go whether there is a tendency to read too much into too little or whether not enough attention is paid to apparent minutiae that may have been important in their historical context As the essays span a wide chronological era they also present a means of assessing the relative degrees of continuity and change in Byzantine visions messages and meanings over time Thus as highlighted in the concluding section the book discusses the validity of existing notions regarding the fluidity of Byzantine culture when continuity was a matter of a rigid adherence to traditional values and when a manifestation of the ability to adapt old conventions to new circumstances and it shows that in some respects Byzantine cultural history may have been less

fragmented than is usually assumed Similarly by reflecting not just on new interpretations but also on the process of interpreting itself the contributors demonstrate how research within Byzantine studies has evolved over the past thirty years from a set of narrowly defined individual disciplines into a broader exploration of interconnected cultural phenomena

Mary, the Apostles, and the Last Judgment Stanislava Kuzmova, Andrea-Bianka Znorovszky, 2020-12-31 This volume presents a timely contribution to the growing body of scholarship on the apocryphal writings and their reception in the Middle Ages especially in connection with visual representation It aims to bridge what often remains disconnected the visual art and the written text the early Christian roots and medieval reception the East and the West as well as methodologies of various disciplines The studies in this volume firstly investigate issues related to the Virgin Mary and through them also the status function and identity of women Mary and the female element thus represent significant models and or background figures in fields pertaining to theology religious studies textual studies manuscript studies and art history in a trans disciplinary perspective Secondly the studies focus on the apostles and the Last Judgment their visual representations and the use of apocryphal sources The volume is divided in two parts according to two major topics Part I dealing with Mary in the Apocrypha and Part II focusing on the Apostles and the Last Judgment Byzantine Constantinople: Monuments, Topography and Everyday Life Nevra Necipoglu, 2021-10-01 This volume deals with the history topography and monuments of Constantinople the capital of the Byzantine Empire and one of the greatest urban centers ever known throughout Late Antiquity and the Middle Ages It contains 21 papers that emanate from an international workshop which was held at Istanbul in 1999 Divided into eight sections the collection addresses a variety of interconnected topics ranging from topography to ritual and ideology archaeology religious and secular architecture patronage commercial life social organization women s roles communities urban development and planning Partly drawing on new archaeological and textual evidence partly directing new questions to or reinterpreting previously available sources the papers presented here fill important gaps in our knowledge of Constantinople and enhance our conception of the city as both a physical and social entity
