Jr. Davis, 2012-12-06 Barrier islands represent a complex coastal system that includes a number of different sedimentary depositional environments nearshore zone beach dunes washover fans marshes tidal flats estuaries lagoons and tidal inlets

The morphodynamics of these fragile coastal systems provide a further complication to this coastal type. Although barrier islands comprise only 15% of the world's coastline, they have received a far greater proportion of attention from the scientific and engineering community and more recently from coastal managers and environmentalists. Modern barrier islands are arguably the most expensive and most vulnerable of all coastal environments. Pressure from developers for residential, industrial, and recreational development has caused most of our barriers to become significantly impacted by human activity, especially over the past few decades. These pressures have led to extensive preservation of natural barriers through efforts from all levels of government and also by private organizations. Governments have also formed coastal management programs that help to control any future development with the intent being to keep human activity compatible with barrier island morphodynamics. In order to devise appropriate coastal zone management programs, it is necessary to have a comprehensive understanding of the morphodynamics of barrier island systems. This volume provides comprehensive details on barrier island morphology, sediment distribution, and the process-response mechanisms that cause changes to both. These are the important aspects of barrier systems that can provide important input into the development and implementation of coastal management programs.

My Rubber Knife Life William Watson Purkey, 2019-05-23
My Rubber Knife Life By William Watson Purkey. The theme of *My Rubber Knife Life* is to share the author's adventures of a lifetime. His granddaughter Emily urged him to write his memoirs. She assured him that during his ninety years, he had led a very unusual life. As a child, Purkey created an imaginary world with a rubber knife and a scary Humpty Dumpty. When he was eleven years old, his mother fibbed about his age, and he became a United States Senate Page Boy. He was present on the floor of the House of Representatives when President Roosevelt declared war on the Empire of Japan. He had the pleasure of meeting Winston Churchill. In high school, he was voted most entertaining, although he had absolutely no talents. From high school, Purkey entered the United States Air Force and was trained as an Ordnance Disposal Specialist Bomb Disposal. He survived the Korean War with three battle stars. Following his military career, Purkey attended the University of Virginia, where he received his doctorate. After decades of work, he became a full professor at two major universities, the University of

Florida and the University of North Carolina at Greensboro While there he wrote books that received international attention Thanks to his books he received many invitations to speak He spoke to groups in 48 states in North Central and South America and four of the five continents He believes his life long commitment to the key concepts of imagination and flexibility will be of significant value to the reader of this book *Living at the Water's Edge* Barbara Garrity-Blake, Karen Willis Amspacher, 2017-02-23 The Outer Banks National Scenic Byway received its designation in 2009 an act that stands as a testament to the historical and cultural importance of the communities linked along the North Carolina coast from Whalebone Junction across to Hatteras and Ocracoke Island and down to the small villages of the Core Sound region This rich heritage guide introduces readers to the places and people that have made the route and the region a national treasure Welcoming visitors on a journey across sounds and inlets into villages and through two national seashores Barbara Garrity Blake and Karen Willis Amspacher share the stories of people who have shaped their lives out of saltwater and sand The book considers how the Outer Banks residents have stood their ground and maintained a vibrant way of life while adapting to constant change that is fundamental to life where water meets the land Heavily illustrated with color and black and white photographs *Living at the Water's Edge* will lead readers to the proverbial porch of the Outer Banks locals extending a warm welcome to visitors while encouraging them to understand what many never see or hear the stories feelings and meanings that offer a cultural dimension to the byway experience and deepen the visitor's understanding of life on the tideline

Other Voices, Other Towns Caleb Pirtle III, 2012-07-10 Other Voices Other Towns has in reality taken Caleb Pirtle III a lifetime to write During the thirty years he has been writing about travel across this great land he spent much of his time listening to those whose paths he crossed Pirtle collects people He collects their stories He is firmly convinced that everyone who has ever walked across the street has a great story to tell if only someone will take the time to listen Pirtle has recorded many of them in Other Voices Other Towns The sketches the anecdotes the tales they tell the memories they have stored their lessons of life make you feel better or make you want to cry Their stories are filled with disappointments and with
