Learn Portuguese - Level 1: Introduction to Portuguese Innovative Language Learning,PortuguesePod101.com,

Global Portuguese Luiz Paulo Moita-Lopes,2014-12-17 This book aims at deconstructing and problematizing linguistic ideologies related to Portuguese in late modernity and questioning the theoretical presuppositions which have led us to call Portuguese a language Such an endeavor is crucial when we know that Portuguese is a language which is increasingly internationalized used as the official language in four continents in ten countries and which has come to play a relevant role in the so called linguistic market on the basis of the geopolitical transformations in a multipolar world The book covers a wide range of social political and historical contexts in which Portuguese is used in Brazil Canada East Timor England Portugal Mozambique and Uruguay and considers diverse linguistic practices Through this critique contributors chart new

directions for research on language ideologies and language practices including research related to Portuguese and to other languages and consider ways of developing new conceptual compasses that are better attuned to the sociolinguistic realities of the late modern era in which people texts and languages are increasingly in movement through national borders and those of digital networks of communication
