Two volume set that presents an introduction to American short fiction from the 19th century to the present **You've Got to be Carefully Taught** Jerome Klinkowitz, 2001 For his 40th published book Klinkowitz English U of Northern Iowa details what he calls his own wasteful mis education the snake pit of academic politics and the joy of teaching after he found a peaceful niche in Introduction to Literature He does not provide an index c Book News Inc **The Encyclopedia of Twentieth-Century Fiction, 3 Volume Set** Brian W. also considers subjects that though they cannot be represented nevertheless exercise constraints on a writer's intention to structure. In recent decades two of these pressing themes have been gender as seen here in the works of Grace Paley and war the Vietnam conflict itself as well as the struggles of two generations to come to terms with it. Structuring the void left when content collapses these writers have as Klinkowitz demonstrates developed an entirely new style of fiction one that necessarily privileges space over time and self-invention over representation.
