Hodgkinson's exploits including rescuing mariners whose ship was sunk by a U boat attacking U boats surviving a crash of his aircraft and the resulting 12 hours in the Atlantic dodging flak during the battle for Crete and dogfighting a German patrol bomber over the Bay of Biscay Seapower Wing Commander Vic Hodgkinson DFC served throughout the Second World War as a pilot in the Royal Australian Air Force His war began in 1939 when he traveled to the UK to become one of the founding members of 10 Squadron RAAF With its training complete the squadron took delivery of its first Short Sunderland flying boats In early 1940 the squadron was loaned to the RAF by the Australian Government Flying from Mount Batten Plymouth Pembroke Dock Wales and Oban Scotland Vic Hodgkinson along with the rest of the squadron played a vital part in the early stages of the Battle of the Atlantic as part of the RAF's Coastal Command During that time he was involved in numerous air sea rescues This included picking up twenty one survivors of a U boat attack and of returning the compliment with depth charge attacks on German submarines Vic himself became a survivor when returning from a fifteen hour patrol in fog his Sunderland crashed into the Irish Sea near Bardsey Island off the North Wales coast while returning to Pembroke Dock Six of his eleven crew were killed it was a gruelling twelve hours before the survivors were finally rescued In May 1941 Vic and his crew were dispatched to the Mediterranean but became stranded in Egypt after their Sunderland was damaged while awaiting spare parts Vic volunteered to serve with a RAF flying boat squadron based in Alexandria He found himself flying through heavy enemy fire to make contact with Allied troops fighting for their lives in Crete After this they were once again back in the Atlantic flying patrols across the Bay of Biscay During one such sortie Vic's crew became embroiled in a battle of the giants with a Focke Wulf Fw 200 Condor It was an engagement that ended badly for the faster and heavily armed enemy aircraft In 1942 Hodgkinson was sent back to Australia going on to serve with both 20 Squadron RAAF and 40 Squadron RAAF It was in this period that he also flew the Consolidated Catalina Martin Mariner and other flying boats including Dornier Do 24s that had been impressed into RAAF service after the fall of the Dutch East Indies His missions included dropping supplies to remote areas minelaying reporting on Japanese ship movements and engaging in the bombing of enemy positions This is Vic's remarkable story told here in his own words for the first time

*My Flying Boat War* Wing Commander 'Vic' Hodgkinson DFC, R, 2025-01-01 Wing Commander Vic Hodgkinson DFC served as a pilot in the Royal Australian Air Force throughout WWII Starting in 1939 he was a founding member of 10 Squadron RAAF operating Short Sunderland flying boats Loaned to the RAF in early 1940 the squadron played a crucial role in the Battle of the Atlantic conducting air sea rescues and attacks on German submarines During this time Vic participated in numerous air sea rescues including saving twenty one survivors of a U boat attack He also conducted depth charge attacks on German submarines Vic's resilience was tested when his Sunderland crashed into the Irish Sea near Bardsey Island in fog resulting in the loss of six of his eleven crew members and a

gruelling twelve hour wait for rescue Later he flew missions in the Mediterranean enduring heavy enemy fire to support Allied troops in Crete Returning to the Atlantic his crew successfully engaged a Focke Wulf Fw 200 Condor In 1942 Vic returned to Australia serving with 20 and 40 Squadrons RAAF flying various aircraft including the Catalina and Dornier Do 24 His missions ranged from supply drops and minelaying to bombing and reconnaissance This is Vic s remarkable story told in his own words for the first time [Aircraft of The Royal Australian Air Force](#) Air Force History Branch,2021-06-01 Aircraft of The Royal Australian Air Force tells the story of the RAAF s first one hundred years by describing the acquisition operation and service record of the multitude of aircraft types flown by the RAAF The 176 aircraft types include the flimsy wood and canvas aircraft typical of World War I through the technological advances during and after World War II to modern fifth generation complex aircraft like the F 35 Lightning II Even before its formation Sir Richard Williams the Father of the RAAF had decided to employ an alpha numeric numbering system to identify and account for each aircraft in service This system started with A1 A2 A3 etc as each type of aircraft came into service Each individual aircraft within each series was identified as A1 1 A1 2 and so on and the aircraft serial became known colloquially as the A number With some exceptions over the century since the A number system started aircraft entered RAAF service in broadly the sequence of the A numbers and so this book is intended to assist in charting the 100 year history of the RAAF by listing aircraft operated in A number sequence rather than by listing them by role such as Fighter Bomber Maritime Trainer Transport etc or alphabetically by name or by manufacturer The inclusion of a comprehensive Index and the Quick Reference Guide to aircraft by role is intended to facilitate the location of the entry for any specific type of aircraft for those who may not already know its A number Aircraft of The Royal Australian Air Force is a must have for all those who have served in the RAAF those with a passion for military aviation and aircraft in general and the broader members of the public wishing to gain an appreciation of the Royal Australian Air Force in its centenary year [The World Air Power Guide](#) David Wragg,2011-02-23 Compiled by the author of Janes Air Forces of the World this book is a must for aviation experts In one volume the reader will find the composition and details of all air elements of a staggering 169 nations air forces and where they exist army air naval air and such paramilitary organizations as the US Coast Guard Service By definition such a book must be regularly updated and David Wragg has researched his subject right up to the minute This latest book supersedes the authors early book in the Jane series **Cold War Warriors** Ian Pearson,2021-09-01 Cold War Warriors tells the little known story of the operations by the Royal Australian Air Force s P 3 Orions during the latter years of the Cold War The aircraft s largely low profile missions usually flown far from their base were often shrouded by confidentiality Now access to declassified documents has allowed this story to be told From the lead up to their delivery in 1968 to the end of the Cold War in 1991 from the intrigues associated with the procurement of the aircraft and subsequent upgrades to perilous moments experienced by the aircraft and their crews while conducting operations and from triumphs to tragedies Cold War Warriors documents the P 3 s service

in the RAAF in the context of the unfolding domestic and international events that shaped the aircraft's evolving missions. As well as being a story of the RAAF Orions and their growing capabilities, *Cold War Warriors* is also the story of the crews who flew the aircraft. Using their words, *Cold War Warriors* faithfully describes a number of incidents both on the ground and in the air to provide a sense of the enormous breadth of service the P-3 Orion has provided to the Royal Australian Air Force to Australia and to our allies.

**Sub Hunters** Anthony Cooper, 2021-01-29. Excellent photographs from the Australian War Memorial collection. Dramatic air battles over a turbulent sea, hundreds of miles from land and without hope of rescue. Striking U-boat kills as concrete proof of operational successes. Beautifully illustrated with many rare and unpublished photographs. Of interest to aviation and military historians, modellers, gamers and flight simulator enthusiasts. 1943 was the turning point in the Battle of the Atlantic when forces, technologies and tactics turned against Germany's U-boats. The victory not only secured Britain's trans-Atlantic lifeline to the United States but also enabled the vast build-up in military forces in Britain necessary to launch D-Day in 1944. The Allied battle to defeat the U-boat menace was a combined effort by the naval and air forces of several Allied nations and this is the story of one part during the decisive mid-war period. Nos 10 and 461 Squadrons of the Royal Australian Air Force flew Sunderland flying boats from bases in Wales and Devon as part of RAF Coastal Command; these two squadrons flew long-range daylight missions over the eastern Atlantic, patrolling Britain's southwest approaches. They hunted and killed U-boats transiting between their mid-Atlantic hunting grounds and their bases in Bordeaux and fought furious air battles over the Bay of Biscay against Luftwaffe Ju-88 long-range fighters, tasked specifically with shooting them down. These two Australian squadrons established a combat record.

*Walks, Tracks and Trails of Queensland's Tropics* Derrick Stone, 2016-03-01. Queensland's tropics provide numerous environments for enjoyable walking: lush rainforests, cloud-shrouded mountains, extinct volcanoes, savanna woodlands and magnificent beaches on the coast and Great Barrier Reef islands. This book brings together more than 150 of the best walks, tracks or trails in Queensland's tropics, located within the coastal strip between Rockhampton and Cooktown. Walks vary from short boardwalk strolls in the lowland rainforests of Daintree National Park to 4-6 day hiking and camping trips on Hinchinbrook Island. Other routes follow old gold miners' and forestry tracks or coaching routes or feature historical sites, rivers, lagoons, geological and geographical formations or much earlier Aboriginal communication tracks where Dreamtime stories add a further dimension. Man-made environments of abandoned gold towns, heritage riverfronts, Art Deco streetscapes and Second World War installations also feature. Most routes are best completed during the Dry season, May to October, and walked by moderately fit individuals. Most do not require specialist navigation or bushcraft skills. *Walks, Tracks and Trails of Queensland's Tropics* highlights the best the region has to offer. Easy-to-interpret maps are included to help you navigate and the book's size makes it convenient to carry in the backpack.
