Race And Politics Asian Americans Latinos And Whites In A Los Angeles Suburb:

Race and Politics Leland T. Saito, 2023-08-31 Located a mere fifteen minutes from Los Angeles the San Gabriel Valley is an incubator for California's new ethnic politics. Here Latinos and Asian Americans are the dominant groups. Politics are Latino dominated while a large infusion of Chinese immigrants and capital has made the San Gabriel Valley the center of the nation's largest Chinese ethnic economy. The white population meanwhile has dropped from an overwhelming majority in 1970 to a minority in 1990. Leland T. Saito presents an insider's view of the political, economic and cultural implications of this ethnic mix. He examines how diverse residents of the region have worked to overcome their initial antagonisms and develop new, more effective political alliances. Tracing grassroots political organization along racial and ethnic lines, *Race and Politics* focuses on the construction of new identities in general and the panethnic affiliation Asian American in particular. [Asian Americans and Politics](#) Gordon H. Chang, 2001 This volume is the first to take a broad ranging look at the engagement of Asian Americans with American politics. Its contributors come from a variety of disciplines: history, political science, sociology and urban studies and from the practical political realm. *The Politics of Asian Americans* Pei-te Lien, M. Margaret Conway, Janelle Wong, 2004-06 Through the perspectives of mass politics, this book challenges popular misconceptions about Asian Americans as politically apathetic, disloyal, fragmented, unsophisticated and inscrutable by showcasing results of the 2000-01 Multi-City Asian American Political Survey. [Asian American Politics](#) Andrew Aoki, Okiyoshi Takeda, 2008 An introduction to the study of Asian American participation in US politics. It covers historical and cultural context, political behaviour and attitudes, interest groups and parties, elected officials and public policies that have an important impact on Asian Americans. *The Transnational Politics of Asian Americans* Christian Collet, Pei-Te Lien, 2009-07-28 Asian Americans as a force for political change on both sides of the Pacific. **Korean Immigrants from Latin America** Jin Suk Bae, 2021-11-03 *Korean Immigrants from Latin America* explores the migration and resettlement experiences of Koreans from Latin America now residing in the New York metropolitan area. It uses interview data from 102 Korean secondary migrants from Latin America to explore the religious, familial, economic and educational dimensions of their migration and resettlement processes in the U.S. As Korean and Latino immigrants share increasingly close interactions with each other in various urban settings, these Korean remigrants can serve as links between Korean and Spanish speakers as well as liaisons among diverse groups. This book shows a surprising degree of diversity within the seemingly homogenous Korean population in the U.S. and demonstrates the unacknowledged linguistic and cultural differences among them. *Asian Pacific American Politics* Andrew Aoki, Pei-te Lien, 2020-06-29 *Asian Pacific American Politics* presents some of the most recent research on Asian American politics, including both quantitative and qualitative examinations of the role of Asian and Pacific Islander Americans in some of today's major political controversies. In the highly polarized politics of the United States in the early 21st century, non-Black racial minorities such as Asian Americans and Pacific Islander Americans will increasingly find themselves swept

into the epicenter of many of the divisive controversies This timely volume presents the latest scholarly research on some of these issues examining questions such as Asian American support for Black Lives Matter responses to racially charged attacks and the differences in the political socialization politicization and community based activism within and across sectors of the Asian American population In addition to examining political identity voting participation political mobilization transnational politics and partisan formation the volume also investigates important but little discussed issues such as the Native Hawaiian sovereignty movement political incorporation of Filipino Americans and the struggle to establish comfort women memorials in the United States Contributors also examine through dialogues how Asian Americans fit into the larger world of American racial politics the extent to which they are likely to build coalitions with other communities of color and the boundaries and contours of Asian American political theory Exploring and Expanding the Political World Pioneered by Don T Nakanishi Asian Pacific American Politics will be of great interest to scholars of race and ethnicity in American politics immigration and minority incorporation ethnic identity politics and political participation and democratic inclusion of Asians The chapters were originally published in Politics Groups and Identities

Immigrant Identity and the Politics of Citizenship John J Bukowczyk, 2016-06-01 The next volume in the Common Threads book series Immigrant Identity and the Politics of Citizenship assembles fourteen articles from the Journal of American Ethnic History The chapters discuss the divisions and hierarchies confronted by immigrants to the United States and how these immigrants shape and are shaped by the social and cultural worlds they enter Drawing on scholarship of ethnic groups from around the globe the articles illuminate the often fraught journey many migrants undertake from mistrusted Other to sometimes welcomed citizen Contributors James R Barrett Douglas C Baynton Vibha Bhalla Julio Cap Jr Robert Fleegler Gunl g Fur Hidetaka Hirota Karen Leonard Willow Lung Amam Raymond A Mohl Mark Overmyer Vel zquez Lara Putnam David Reimers David Roediger and Allison Varzally

Youth Gangs, Racism, and Schooling Kevin D. Lam, 2015-09-01 Winner of the American Educational Studies Association 2016 Critics Choice Book Award Youth Gangs Racism and Schooling examines the formation of Vietnamese American youth gangs in Southern California Lam addresses the particularities of racism violence and schooling in an era of anti youth legislation and frames gang members as post colonial subjects offering an alternative analysis toward humanization and decolonization

Racism without Racists Eduardo Bonilla-Silva, 2006-08-03 The first edition of this best selling book showed that alongside the subtle forms of discrimination typical of the post Civil Rights era new powerful ideology of color blind racism has emerged Bonilla Silva documented how beneath the rhetorical maze of contemporary racial discourse lies a full blown arsenal of arguments phrases and stories that whites use to account for and ultimately justify racial inequities In the new edition Bonilla Silva has added a chapter dealing with the future of racial stratification in America that goes beyond the white black dichotomy He argues that the U S is developing a more complex and apparently plural racial order that will mimic Latin American patterns of racial stratification Another new chapter addresses a variety of

questions from readers of the first edition And he has updated the book throughout with new information data and references where appropriate The book ends with a new Postscript What is to be Done For Real As in the highly acclaimed first edition Bonilla Silva continues to challenge color blind thinking *In Defense of Asian American Studies* Sucheng Chan,2005 In *Defense of Asian American Studies* offers fascinating tales from the trenches on the origins and evolution of the field of Asian American studies as told by one of its founders and most highly regarded scholars Wielding intellectual energy critical acumen and a sly sense of humor Sucheng Chan discusses her experiences on three campuses within the University of California system as Asian American studies was first developed in response to vehement student demand under the rubric of ethnic studies Chan speaks by turns as an advocate and an administrator striving to secure a place for Asian American studies as a teacher working to give Asian American students a voice and white students a perspective on race and racism and as a scholar and researcher still asking her own questions The essays span three decades and close with a piece on the new challenges facing Asian American studies Eloquenty documenting a field of endeavor in which scholarship and identity define and strengthen each other In *Defense of Asian American Studies* combines analysis personal experience and indispensable practical advice for those engaged in building and sustaining Asian American studies programs **Myth of the Model Minority** Rosalind S. Chou,Joe R. Feagin,2015-11-17 The second edition of this popular book adds important new research on how racial stereotyping is gendered and sexualized New interviews show that Asian American men feel emasculated in America s male hierarchy Women recount their experiences of being exoticized subtly and otherwise as sexual objects The new data reveal how race gender and sexuality intersect in the lives of Asian Americans The text retains all the features of the renowned first edition which offered the first in depth exploration of how Asian Americans experience and cope with everyday racism The book depicts the double consciousness of many Asian Americans experiencing racism but feeling the pressures to conform to popular images of their group as America s highly achieving model minority The Changs Next Door to the Dázies Wendy Cheng,2013-11-01 U S suburbs are typically imagined to be predominantly white communities but this is increasingly untrue in many parts of the country Examining a multiracial suburb that is decidedly nonwhite Wendy Cheng unpacks questions of how identity especially racial identity is shaped by place She offers an in depth portrait enriched by nearly seventy interviews of the San Gabriel Valley not far from downtown Los Angeles where approximately 60 percent of residents are Asian American and more than 30 percent are Latino At first glance the cities of the San Gabriel Valley look like stereotypical suburbs but almost no one who lives there is white The Changs Next Door to the D azes reveals how a distinct culture is being fashioned in and simultaneously reshaping an environment of strip malls multifamily housing and faux Mediterranean tract homes Informed by her interviews as well as extensive analysis of three episodic case studies Cheng argues that people s daily experiences in neighborhoods schools civic organizations and public space deeply influence their racial consciousness In the San Gabriel Valley racial ideologies are being reformulated by these

encounters Cheng views everyday landscapes as crucial terrains through which racial hierarchies are learned instantiated and transformed She terms the process regional racial formation through which locally accepted racial orders and hierarchies complicate and often challenge prevailing notions of race There is a place specific state of mind here Cheng finds Understanding the processes of racial formation in the San Gabriel Valley in the contemporary moment is important in itself but also has larger value as a model for considering the spatial dimensions of racial formation and the significant demographic shifts taking place across the national landscape

Race and Politics Leland T. Saito,1998-07 California s San Gabriel Valley has been called an incubator for ethnic politics Located a mere fifteen minutes from Los Angeles the valley is a brave new world of multiethnic complexity

Racist America Joe R. Feagin,2010-04-02 This second edition of Joe Feagin s *Racist America* is extensively revised and thoroughly updated with a special eye toward racism issues cropping up constantly in the Barack Obama era

Changing White Attitudes toward Black Political Leadership Zoltan L. Hajnal,2006-12-25 Despite the hopes of the civil rights movement researchers have found that the election of African Americans to office has not greatly improved the well being of the black community By shifting the focus to the white community this book shows that black representation can have a profound impact Utilizing national public opinion surveys data on voting patterns in large American cities and in depth studies of Los Angeles and Chicago Zoltan Hajnal demonstrates that under most black mayors there is real positive change in the white vote and in the racial attitudes of white residents This change occurs because black incumbency provides concrete information that disproves the fears and expectations of many white residents These findings not only highlight the importance of black representation they also demonstrate the critical role that information can play in racial politics to the point where black representation can profoundly alter white views and white votes

Cities, Politics, and Policy John P. Pelissero,2002-10-01 Just because Milwaukee isn t Manhattan doesn t mean that those urban centers face completely unique challenges Through effective comparative analysis of key issues in urban studies how city managers share power with mayors how spending policies affect economic development and how school politics impact education policy students can clearly see how scholars discern patterns and formulate conclusions to offer theoretical and practical insights from which all cities can benefit Pelissero brings together an impressive team of contributors to explore variation among cities through case studies and cross sectional analyses Each author synthesizes the field s seminal literature while explaining how urban leaders and their constituents grapple with everything from city council politics to conflict and cooperation among minority groups Authors identify both key trends and gaps in the scholarship and help set the research agenda for the years to come Lively case material will hook your students while the accessible presentation of empirical evidence make this reader the comprehensive and sophisticated text you demand
