Science Fiction Serials Roy Kinnard,2015-08-13 Destination Moon George Pal s 1950 Technicolor epic is generally cited as the first noteworthy science fiction film Usually ignored or casually dismissed in genre histories are the serials the low budget chapterplays exhibited as Saturday matinee fare and targeted almost exclusively at children Lacking stars and top notch writers or directors the serials went largely unnoticed and unacknowledged by either critics or by the film industry Yet serials were financially important to the Hollywood studios and were often free to exploit risky or outlandish subjects that producers of distinguished movies would not touch Influential serials such as The Phantom Empire 1935 and Flash Gordon 1936 finally brought science fiction themes to the big screen Those serials and 29 others are exhaustively covered in this work which provides complete cast and credit information along with plot descriptions and historical commentary for each serial Video distributors if available are also listed *Planetary Delusion ...The Falling Away* Steve Barrett,2020-06-17 Planetary Delusion The Falling Away By Steve Barrett Using the Authorized Bible Steve Barrett explores the topic of the true age and shape of the earth Barrett argues that the heliocentric lie has been the foundation for many deceiving theologies This planetary delusion has been a vehement force of indoctrination that could be the most deceptive way to introduce an intergalactic savior with malicious intent Planetary Delusion The Falling Away describes the prevalence of end times deception and illustrates the importance of the biblical description of earth and how it may be related to the falling away While primarily an eschatological study it was written with both the Christian and non believer in mind Readers willing to have an open mind will be provoked to study the Bible and dig deeper to discover the truth for themselves Great Movie Serials Cb Jim Harmon,Donald F. Glut,2013-10-28 First published in 1973 Movie Serials Their Sound and Fury invites you to

Glassy,2012-12-01 This book showcases stunningly realistic and wonderfully posed models and dioramas depicting various characters and scenes from science fiction and horror cinema The models and dioramas are presented in chronological order starting with the silent films from 1910 to 1927 then the classic films from the 1930s and 1940s including Universal Studios Dracula Frankenstein and Wolf Man franchises Next are the many radiation induced mutants and invaders from outer space of the 1950s followed by offerings from the 1960s 1970s 1980s and 1990s Hammer Films are included as well as the Mummy movies and Universal s Gillman series A detailed explanation of the nitty gritty of model and diorama building is presented and particular details unique to each piece are shown in close ups and discussed The figures are of unprecedented artistry *Movies, Modernism, and the Science Fiction Pulps* J. P. Telotte,2019-07-11 This book examines the impact that the new art of film had on another new form science fiction especially as it was embodied in the various pulp magazines where the genre first began to establish its identity and key themes It argues that a film consciousness helped shape even define 20th century science fiction

Black and White Cinema Wheeler Winston Dixon,2015-11-06 From the glossy monochrome of the classic Hollywood romance to the gritty greyscale of the gangster picture to film noir s moody interplay of light and shadow black and white cinematography has been used to create a remarkably wide array of tones Yet today with black and white film stock nearly impossible to find these cinematographic techniques are virtually extinct and filmgoers appreciation of them is similarly waning Black and White Cinema is the first study to consider the use of black and white as an art form in its own right providing a comprehensive and global overview of the era when it flourished from the 1900s to the 1960s Acclaimed film scholar Wheeler Winston Dixon introduces us to the masters of this art discussing the signature styles and technical innovations of award winning cinematographers like James Wong Howe Gregg Toland Freddie Francis and Sven Nykvist Giving us a unique glimpse behind the scenes Dixon also reveals the creative teams from lighting technicians to matte painters whose work profoundly shaped the look of black and white cinema More than just a study of film history this book is a rallying cry meant to inspire a love for the artistry of black and white film so that we might work to preserve this important part of our cinematic heritage Lavishly illustrated with more than forty on the set stills Black and White Cinema provides a vivid and illuminating look at a creatively vital era

REFLECTIONS OF A "B"-MOVIE JUNKIE Jim Driscoll,2008-12-30 Reflections Of A B Movie Junkie is a tribute to the old B Movies of the Saturday Matinees of yesteryear Actually it is more of a homage to them or at least 6 genres of those film types that were so prevalent back in primarily the 40 s and 50 s Their research and discussion however in some instances dates all the way back to the beginning of the talkies of motion picture content and can extend in the other direction into the early 70s These 6 genres include the popular B Western The Comedy Teams The Jungle Adventures Sci Fi Fantasy Horror and the Serial or Chapter Plays so popular with the week end Matinee crowds back then These film types filled up our Saturday afternoons and

evenings with exciting adventure curious wonder spine tingling horror and non stop action Often filmed on a shoe string budget and in a limited time frame many of these classics came to be looked upon by many fans as being so truly bad that they were good in a bad sort of way They are thus categorized reviewed and discussed for the most part in a lovingly personal style especially when compared to the film types we are subjected to in today s market They had their place in film history and that time is long since gone But for some of us they have never been equaled which for others may indeed be a good thing

Television Series of the 1950s Vincent Terrace,2016-05-16 Often regarded as the first golden era of television the 1950s was a decade when many classic programs from I Love Lucy and Gunsmoke to The Honeymooners and Perry Mason among others made their debuts Even after these shows departed the airwaves they lived on in syndication entertaining several generations of viewers Devoted and casual fans alike can probably remember basic facts about these shows like the names of Lucy and Ricky s neighbors or the town where Marshall Matt Dillon kept the law But more elusive facts like the location of the most successful defense attorney in Los Angeles Suite 904 of the Brent Building might be harder to recall In Television Series of the 1950s Essential Facts and Quirky Details Vincent Terrace presents readers with a cornucopia of information about 100 programs from the decade Did you know for example that the middle initial of Dobie Gillis friend Maynard G Krebs stood for Walter Or that Ralph Kramden s electric bill came to only 39 cents a month Or that on I Love Lucy Ricky originally performed at Manhattan s Tropicana Club These are but a few of the hundreds of fun and intriguing trivia facts contained within this volume Shows from all four networks ABC CBS NBC and DuMont as well as select syndicated programs are represented here This is not a book of opinions or essays about specific television programs but a treasure trove of the facts associated with each of these programs Readers will discover a wealth of fascinating information that for the most part cannot be found anywhere else In some cases the factual data detailed herein is the only such documentation that exists currently on bygone shows of the era Television Series of the 1950s is the ideal reference for fans of this decade and anyone looking to stump even the most knowledgeable trivia expert

The Comic Galaxy of Mystery Science Theater 3000 Chris Morgan,2015-01-09 One of the most original shows in the history of television Mystery Science Theater 3000 is a beloved cult hit built on the back of another cult phenomenon the bad movie The show s premise involved a man and some robots watching cheesy movies and cracking jokes Over its 197 episodes MST3K developed a passionate fan base that took it from a local UHF show in Hopkins Minnesota to a major motion picture This is the story of MST3K from the beginning to the end Twelve of the episodes are covered giving an in depth look at the show its ethos and its comedic style The films screened in these episodes are discussed critically as are the episodes themselves
