Regulatory Effectiveness Jon Stern, John Cubbin, The authors review a number of studies on the effectiveness of utility regulatory agency and governance arrangements for the electricity industry particularly for developing countries They discuss governance criteria and their measurement both legal frameworks and surveys of regulatory practice They also discuss the results from econometric studies of effectiveness for regulatory agencies in the electricity and telecommunications industries and compare these with the results from econometric studies of independent central banks and their governance The authors conclude with a discussion of policy implications and of priorities for information collection to improve understanding of these issues World Bank web site

A Look at Zambia's Road Financing Strategies: The Impact of Incongruent Policies and Budgets Yohane Tembo, 2015-01-01 There are various reasons why the road asset in Zambia has been deteriorating over the past five decades since independence Much effort to restore the road asset to its original value and keep it maintained in a good and safe condition was initiated in mid 1990s with the launch of the Road Sector Investment Plan Phase I which was immediately followed by the launch of a Phase II to run from 2003 to 2013 It is my appreciation that many diagnostic studies into road financing strategies which could have led to inefficient road asset management in Zambia have been undertaken and various solutions tendered The author takes cognizance that resource mobilization for road construction and maintenance and subsequent allocation to respective road programs can often be problematic for an emerging country like Zambia It has the potential to lead to inefficiencies in road asset management as has evidently been demonstrated in the declining road asset value over time The political as well as the economic landscape plays a vital role in resource mobilization and allocation strategies as much as the institutional and the legal framework do The failure to clear the backlog of maintenance which normally results largely from deferment of scheduled maintenance due to insufficient annual budgetary allocation to the road sector maintenance programs has led to the significant deterioration in road network condition Exorbitant road construction costs have posed additional challenges to the fiscus thereby constraining both the quantity and quality of road infrastructure that could be constructed and maintained at any given time Recent policy drives have been

categorical in their preference of new road construction aimed at linking Zambia over road maintenance which plays a pivotal role in road asset management This creates a perception that policy pronouncements are at variance to policy documents which promote sustainable economic development through efficient road investments and could be seen as being paradoxical in that the actual financing strategies are skewed towards road construction a recipe of comfort for the next election challenge due to increased visibility on the ground rather than to maintenance as an astute and effective way of managing the road asset The difficult of establishing congruence between government pronouncements and actual road business strategies in the implementing agencies has over the

Globalization and International Organizations Edward Kwakwa,2017-05-15 The last few years have witnessed several significant developments in respect of international organizations most of which are best encapsulated in the word change In particular international organizations have moved from their traditional role of facilitator of the activities of their members to that of director of their own activities As a result there is increased scrutiny over issues relating to the governance control accountability and the privileges and immunities of international organizations These subjects are all the focus of this book Edward Kwakwa has collected together the best published work by leading authorities in the field on subjects of crucial importance and relevance to international

organizations particularly in the context of today's ever increasing globalization This book is of interest to scholars and students of law as well as government and non government practitioners and international civil servants Macprudential Stress Tests and Policies: Searching for Robust and Implementable Frameworks Ron Anderson,Jon Danielsson,Chikako Baba,Mr.Udaibir S Das,Mr.Heedon Kang,Miguel A. Segoviano Basurto,2018-09-11 Macroprudential stress testing MaPST is becoming firmly embedded in the post crisis policy frameworks of financial sectors around the world MaPSTs can offer quantitative forward looking assessments of the resilience of financial systems as a whole to particularly adverse shocks Therefore they are well suited to support the surveillance of macrofinancial vulnerabilities and to inform the use of macroprudential policy instruments This report summarizes the findings of a joint research effort by MCM and the Systemic Risk Centre which aimed at i presenting state of the art approaches on MaPST including modeling and implementation challenges ii providing a roadmap for future research and iii discussing the potential uses of MaPST to support policy

R&D Decisions Alice Belcher,John Hassard,Stephen Procter,2002-09-11 R D Decisions Strategy Policy and Innovations explores how research and development decisions affect all of us They are linked inextricably to the performance of firms and of economics as a whole Their importance means that they are of concern to a large number of practitioners policy makers and researchers This book demonstrates the range of issues and perspectives which R D can encompass and at the same time brings out the elements which unite them The papers in this book are organized into three main sections Strategy and Organization explores the importance of R D and of the structures and strategies of individual organizations The emerging core competence paradigm is especially noted Policy and Performance looks at what new thinking on R D more generally implies for government policy and the performance of industries regions and economies Disclosure and the Market examines issues raised by changing regulations on the disclosure of R D expenditure *Macroprudential Regulatory Policies: The New Road To Financial Stability?* Douglas D Evanoff,George G Kaufman,Stijn Claessens,Laura E Kodres,2011-11-02 This book is a collection of papers presented in the conference held at the Federal Reserve Bank of Chicago in September 2010 that examines the role of macroprudential regulation in the financial industry Shocked by the experience of the last few years many argue that the more traditional microprudential regulatory tools are inadequate to create a safe and stable financial system The microprudential paradigm relies on the presumption that the financial system as a whole can be made safe by ensuring individual financial institutions are made safe This ignores interconnections and externalities whereby the actions of one financial institution or events in financial markets can lead to spillover effects that adversely affect general market conditions other financial institutions and ultimately the economy as a whole Instead it is argued there is a need for both microprudential approaches to regulate individual institutions and macroprudential approaches to manage the overall financial system risks Conference participants discussed macroprudential regulation and related issues including What are the theoretical motivations for macroprudential regulation How would it interact with other regulatory and macroeconomic

policies especially monetary policy What would be the specific macroprudential tools Who should have control over the macroprudential tools How should a macroprudential regulator be structured Where should it be housed How can macroprudential policies be structured across national borders What role if any can market discipline play in supporting macroprudential objectives Concentrating on public policy issues the conference featured keynote addresses by influential past and present public policy figures including Paul Volcker Chairman of the US President's Economic Recovery Advisory Board and former Chairman of the Federal Reserve System Tommaso Padoa-Schioppa Chairman Promontory Financial Group Europe and Former Chairman of the Basel Committee on Banking Supervision Jaime Caruana General Manager of the Bank for International Settlements and Former Chairman of the Basel Committee on Banking Supervision and Charles Taylor Director of the Pew Charitable Trust Financial Reform Project and Former Executive Director of the Group of Thirty

2024 Review Of The Fund's Transparency Policy And Open Archives Policy—Background Paper 3 On Key Concepts And Supportive Analysis International Monetary Fund. Strategy, Policy, & Review Department, 2024-11-25 On November 15 2024 the IMF's Executive Board concluded the Review of the IMF's Transparency Policy and Open Archives Policy and approved a number of reforms As an international institution making important documents available to the public on timely basis enhances the IMF's credibility accountability and effectiveness and is critical to fulfill its mandate of promoting global economic and financial stability While transparency at the IMF is achieved through a range of policies and practices the Transparency Policy and the Open Archives Policy form the core elements of the IMF's transparency framework The Fund has come a long way since the inception of these policies in the early nineties Most Board documents are now published published more quickly and under more consistent and evenhanded application of modification rules The information available in the Fund's archives has increased and is more easily accessible to the public While experience suggests that these policies are effective in delivering on their objectives the landscape in which the Fund operates has evolved since these policies were last reviewed in 2013 In a more interconnected and shock prone world the pace with which policymakers need to make decisions has accelerated and the expectations of stakeholders on the availability and timeliness of the Fund's

analysis and policy advice has grown Against this backdrop the 2024 Review of the IMF s Transparency Policy and Open Archives Policy focuses on targeted reforms to i support faster publication of board documents and communications of Board s decisions ii strengthen the rules and processes to modify Board documents prior to publication and iii allow faster release of some documents in the Fund s archives accessible to the public The reforms further clarify the scope and objectives of these policies their implementation processes and how to strengthen knowledge sharing The review was supported by data analysis as well as surveys and consultations with key stakeholders including Executive Directors country authorities IMF missions chiefs and civil society organizations as detailed in the three background papers accompanying this 2024 review
