Alcohol/safety Public Information Materials Catalog #8 Ann C. Grimm,1984 **Soul Rubs** Rouzier Dorcé Jr.,2024-10-28 Soul Rubs will make a lasting impression on the reader The author Rouzier Dorce does more than merely preach the sacred virtues of faith forgiveness charity hope gratitude or peace Rather he extols those principles through effective and poignant storytelling Rouzier s life experiences are told through those who impacted that journey The stories in Soul Rubs provide clear examples of virtues with God s awesome presence They speak of a boy who served angel duty when his grandfather passed away while resting on his chest They tell the story of a mother who taught the merits of charity hope and faith through example They also speak through these tales to the rich heritage of Haitian culture and of a people who continue to live hope fueled lives Amid times of aridity and disenchantment Soul Rubs exudes the true spirit of hope and faith and restores a commitment to those theological virtues **Shopping Our Way to Safety** Andrew Szasz,2007-11-15 Not long ago people did not worry about the food they ate They did not worry about the water they drank or the air they breathed It never occurred to them that eating drinking water satisfying basic mundane bodily needs might be a dangerous thing to do Parents thought it was good for their kids to go outside get some sun That s all changed now from the Introduction Many Americans today rightly fear that they are constantly exposed to dangerous toxins in their immediate environment tap water is contaminated with chemicals foods contain pesticide residues hormones and antibiotics even the air we breathe outside and indoors carries invisible poisons Yet we have responded not by pushing for governmental regulation but instead by

shopping What accounts for this swift and dramatic response And what are its unintended consequences Andrew Szasz examines this phenomenon in *Shopping Our Way to Safety* Within a couple of decades he reveals bottled water and water filters organic food green household cleaners and personal hygiene products and natural bedding and clothing have gone from being marginal niche commodities to becoming mass consumer items Szasz sees these fatalistic individual responses to collective environmental threats as an inverted form of quarantine aiming to shut the healthy individual in and the threatening world out Sharply critiquing these products effectiveness as well as the unforeseen political consequences of relying on them to keep us safe from harm Szasz argues that when consumers believe that they are indeed buying a defense from environmental hazards they feel less urgency to actually do something to fix them To achieve real protection real security he concludes we must give up the illusion of individual solutions and together seek substantive reform Andrew Szasz is professor and chair of the department of sociology at the University of California at Santa Cruz and author of the award winning *EcoPopulism* Minnesota 1994
