Saigon Dreaming:

Dreaming of Money in Ho Chi Minh City Allison J. Truitt, 2013-08-30 The expanding use of money in contemporary Vietnam has been propelled by the rise of new markets digital telecommunications and an ideological emphasis on money's autonomy from the state People in Vietnam use the metaphor of open doors to describe their everyday experiences of market liberalization and to designate the end of Vietnam's postwar social isolation and return to a consumer oriented environment Dreaming of Money in Ho Chi Minh City examines how money is redefining social identities moral economies and economic citizenship in Vietnam It shows how people use money as a standard of value to measure social and moral worth how money is used to create new hierarchies of privilege and to limit freedom and how both domestic and global monetary politics affect the cultural politics of identity in Vietnam Drawing on interviews with shopkeepers bankers vendors and foreign investors Allison Truitt explores the function of money in everyday life From counterfeit currencies to streetside lotteries from gold shops to crowded temples she relates money's restructuring to performances of identity By locating money in domains often relegated to the margins of the economy households religion and gender she demonstrates how money is shaping ordinary people's sense of belonging and citizenship in Vietnam

Asian American Dreams Helen Zia, 2001-05-15 about the transformation of Asian Americans into a self identified racial group that is influencing every aspect of American society Jacket **Saigon** Anastasia Edwards, 2003 Saigon has a long and unique history having been a Cambodian city a French city and an American city as well as a Vietnamese city **Shattered Dreams** Phil Spencer, 2013 There is a war that goes on inside each and every one of us who struggles with alcohol or drugs The battlefield is our soul and minds moreover when it kicks into full gear it destroys what ever it comes in contact with It is not a respecter of persons nor does it care what your stature in life is That war will drag you down to the pits of hell and the sad reality is that you may not know it until the very end It will take your wife and children your job and home it will put you under a bridge or sleeping on a heating grate with no food for days on end But those are not the worst things that can happen to you Your internal war will make you feel lost and alone taking every shred of self respect until there is nothing left inside except contempt for your very existence There will be an emptiness unlike anything you have ever known and the will to live will be taken from you But there is hope and you can have victory over that which wants to kill you This book has the answers you seek Anderson's Travel Companion Compiled by Sarah Anderson, 2016-12-05 A selection of the best in travel writing with both fiction and non fiction presented together this companion is for all those who like travelling like to think about travelling and who take an interest in their destination It covers guidebooks as well as books about food history art and

Vientiane Marc Askew, Colin Long, William Logan, 2006-12-07 Providing insights into this neglected Southeast Asian city this interesting book interprets Vientiane's landscape physical as well as imagined as a reflection of key aspects of Lao geo political history the nature of Lao urbanism and its critical relation to constructions of Lao identity in the contemporary period It is argued that the patterns of change seen through Vientiane's past embody the key political and economic processes and transformations impacting on the people of Laos The Lao urban past has rarely been an object of attention by scholars Laos in fact is continually portrayed as a rural backwater marginal to the dynamic trends affecting most of the Southeast Asian mainland In contrast to these persistent and static portrayals of Laos as a tiny landlocked backwater with no significant urban present or past the authors aim to document explain and evaluate the significance of the Lao urban landscape Focusing on the theme of Vientiane's marginality in its various forms the book interprets this apparent marginality as an historically produced phenomenon resulting from geo politics dating from the pre colonial period and extending into the post colonial period Drawing on a wide range of research materials *Vientiane* is the first work of its kind on this ignored city
