British Wood-engraved Book Illustration, 1904-1940 Joanna Selborne, 1998 Twentieth century British wood engraved book illustration up to the beginning of the Second World War was among the most versatile and inventive of the graphic arts In a climate of typographical renaissance various wood engravers made a significant impact on the appearance of the printed page transforming good books into works of art and influencing modern standards of book production This book reveals the methods by which these pioneering artists broke with nineteenth century illustrative practices The author surveys the subject in relation to the cultural and historical background and within the context of mainstream developments in the visual arts placing emphasis on the working relationship of illustrators with both private presses and commercial publishers Detailed study of unpublished material including art school records publishers and print societies archives and artists correspondence throws new light on the work and practices of the more innovative wood engravers *Historical Dictionary of the Russian Civil Wars, 1916-1926* Jonathan D. Smele, 2015-11-19 This book is a detailed reference of the twentieth century struggles that were waged across and beyond the decaying Russian Empire at the end of the First World War as tsarism and democratic alternatives to it collapsed and the world's first Communist state the Union of Soviet Socialist Republics was born At the same time it is a necessary corrective to studies that have viewed events of the time as a unitary Russian Civil War that sprang from the Russian Revolution of 1917 Instead it contributes to the ongoing process of integrating the civil wars into a continuum of crises that wracked the Russian Empire and its would be successor states across a prolonged period The *Historical Dictionary of the Russian Civil Wars 1916-1926* covers the history of this period through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has almost 2 000 cross referenced entries on individuals political and governmental institutions and political parties and military formations and concepts as well as religion art film propaganda uniforms and weaponry This book is an excellent access point for students researchers and anyone wanting to know more about the Russian Civil War The New Cambridge Bibliography of English Literature: Volume 4, 1900-1950 George Watson, I. R. Willison, 1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries *Design & Applied Arts Index*, 1996 Opening the Scrolls Godfrey Anstruther, 1987 **Selective Check Lists of Press Books** Will Ransom, 1945 *Selective Check Lists of Press Books: Ashlar press. Cartographies W. David Soud, 2016-07-01 Recent critical studies of late modernism have explored the changing sense of both history and artistic possibility that emerged in the years surrounding World War II. However, relatively little attention has been devoted to the impact of poets' theological deliberations on their visions of history and their poetic strategies. *Divine Cartographies: God, History, and Poiesis in W. B. Yeats, David Jones, and T. S. Eliot* triangulates key texts as attempts to map theologically driven visions of the relation between history and eternity. W. David Soud considers several poems of Yeats's final and most fruitful engagement with Indic traditions, Jones's *The Anathemata*, and Eliot's *Four Quartets*. For these three poets, working at the height of their powers, that project was inseparable from reflection on the relation between the individual self and God; it was also bound up with questions of theodicy, subjectivity, and the task of the poet in the midst of historical trauma. Drawing on the fields of Indology, theology, and history of religions, as well as literary criticism, Soud explores in depth and detail how in these texts theology is poetics.
