Author Anna Dalos considers for the first time in publication Kodály's career beyond the classroom and provides a comprehensive assessment of his works as a composer. A noted collector of Hungarian folk music, Kodály adapted the traditional heritage musics in his own compositions, greatly influencing the work of his contemporary Béla Bartók. Highlighting Kodály's major music experiences, Dalos shows how his musical works were also inspired by Brahms, Wagner, Debussy, Palestrina, and Bach. Set against the backdrop of various oppressive regimes of twentieth-century Europe, this study of Kodály's career also explores decisive extramusical impulses such as his bitter experiences of World War I, Kodály's reception of classical antiquity, and his interpretation of the male and female roles in his music. Written by the leading Kodály expert, this impressive work of historical and musical insight provides a timely and much-needed English language treatment of the twentieth-century composer.

The Three Apostles of Russian Music Gregor Tassie, 2021-11-11. *The Three Apostles of Russian Music* looks at three figures in the Soviet avant-garde who led modernist music in the 1920s: Mosolov, Popov, and Roslavets. These remarkable musicians produced compositions like the sensational machine music *Foundry* by Mosolov. The first symphony by Popov attracted musicians in Europe and America but was banned after the premiere, while Roslavets discovered serialism before Schoenberg, opening up a new trend in modernism. This book is the first study in English of the work, lives, and legacies of these apostles of the Russian avant-garde.

Henry Holden Huss Gary A. Greene, 1995. Contains an annotated worklist with suggestions of Huss pieces for further exploration by performers, a list of his writings on musical topics, and numerous illustrations.

Weinzweig Brian Cherney, 2018-03-31. John Weinzweig (1913-2006) was the pre-eminent Canadian composer of his generation. Influenced by European modernists such as Stravinsky, Berg, and Webern, he was the first Canadian composer to employ serialism, thereby bringing a spirit of innovation to mid-twentieth-century Canadian music. A forceful advocate for modern Canadian composition, Weinzweig played a key role in the founding of the Canadian League of Composers and the Canadian Music Centre during a buoyant and expansive period for the arts in Canada. He was an influential force as a teacher of composition, first with the Royal Conservatory of Music and later with the University of Toronto's music faculty. This first comprehensive study of Weinzweig since his death consists of new essays by composers, theorists, and musicologists. It deals with biographical aspects, the social context of early twentieth-century Toronto, his activism, his teaching, his early scores for CBC Radio dramas, analyzes his compositional processes and his output, his approach to serialism, his instrumental practice, the presence of jazz elements, the vocal works, the divertimenti, and examines various evaluations of his music, his own in letters, interviews, talks, and writings, plus those of critics and scholars, of listeners, and of performers. The essays are framed by the co-editors' portrait assessment of Weinzweig and a brief personal memoir. Much of the content draws on new research in the extensive Weinzweig Fonds at Library and Archives Canada in Ottawa. Included at the end of the book are a <http://www.wlupress.wlu.ca> General Beckwith Cherney list of works discography pdf, List of Works by John Weinzweig by Kathleen

**The Oxford Magazine** ,1913 Art Music Matthew Del Nevo,2017-07-28 Listening to music is not merely something one does but something central to a way of living Listening has the power to transport one into another way of being It is a mode of feeling and forms the bedrock of deep emotion Written from the viewpoint of a philosophy of sensibility Matthew Del Nevo notes that this perspective may not be in fashion but it follows a long tradition Del Nevo emphasizes the aesthetic experience of listening to art music as it has developed and disintegrated in Western civilization He recognizes a deep psychological element to what he calls soul or more accurately sensibility He addresses music in a non technical way taking up the powerful art theory of Charles Baudelaire the music philosophy of Schopenhauer and Richard Wagner and takes a strong critical stand against modernist intellectual art music The importance of this book for the musically literate reader is its insight into the metaphysics of nostalgia This comprehension is missing from nearly all musical instruction because we have lost sight of it Del Nevo asserts that this understanding must be brought back into our culture And since this is a book about listening to art music it is no less about sensibility and its cultivation which in its object form we call culture An engaging book Art Music will appeal to those interested in music culture and philosophy Franz Schubert: A Biography Henry Frost,2019-02-01 Clarity of outline conciseness and formal beauty are excellent things in musical works but an exquisite fancy a noble imagination and a lofty poetic spirit are of infinitely greater account and no one ever possessed these inestimable gifts in richer profusion than Franz Schubert This new edition of Henry Frost's 1892 biography of Franz Schubert has been edited and revised The original references to pieces by Opus number have been replaced with the more commonly used D numbers Many illustrations of places and people have been added throughout the text and a complete catalog of Schubert's works has been included With faith man steps forth into the world Faith is far ahead of understanding and knowledge for to understand anything I must first of all believe something Faith is the higher basis on which weak understanding rears its first columns of proof reason is nothing but faith analysed Franz Schubert **Sonic**

**Transformations of Literary Texts** Siglind Bruhn,2008 Among the possible relationships between art forms that express themselves in different sign systems the pairing of words and images is the one that is most thoroughly explored And in fact the most securely established terminology is found in a field that has experienced a significant revival in recent years ekphrasis The literary topos through which a poem or any other text addresses itself to the visual arts has received much attention in recent years and been subjected to intense scrutiny BOOK JACKET Twenty-Six Composers Teach the Violinist William Starr,1995-11-16 An invaluable collection of excerpts from solo chamber and orchestral literature Covers a wide range of technical problems *Haydn, Mozart, and the Viennese School, 1740-1780* Daniel Heartz,1995 Historians have

long tried to place the music of Haydn and Mozart in the lineage of German Lutheran music In this book Daniel Hartz shows that the first Viennese school grew from a Catholic inheritance in Italian music and from local tradition with an admixture of French currents The generation of composers led by Haydn no longer trained in Italy By the time young Mozart joined the ranks of the Viennese school its accomplishments towered above all others of the time The author's approach can be compared to viewing a majestic mountain range in its totality the highest peaks take on even greater majesty when seen in their natural context of foothills and lesser peaks This is how Haydn and Mozart were viewed by their contemporaries whose world of perception Hartz recreates using among other things the visual art of the period His focus is on music as a part of cultural history at a particular time and place Stylistic terms and a priori periods matter less to him than the common denominators of geography culture and political history Book jacket *The Music Bulletin*, 1924
