Alexander C.T. Geppert, 2018-04-18 *Limiting Outer Space* propels the historicization of outer space by focusing on the Post Apollo period After the moon landings disillusionment set in Outer space no longer considered the inevitable destination of human expansion lost much of its popular appeal cultural significance and political urgency With the rapid waning of the worldwide Apollo frenzy the optimism of the Space Age gave way to an era of space fatigue and planetized limits Bringing together the history of European astroculture and American Soviet spaceflight with scholarship on the 1970s this cutting edge volume examines the reconfiguration of space imaginaries from a multiplicity of disciplinary perspectives Rather than invoking oft repeated narratives of Cold War rivalry and an escalating Space Race *Limiting Outer Space* breaks new ground by exploring a hitherto underrated and understudied decade the Post Apollo period How to Read a Film James

Freedman, 2002-12-23 A concise lively account of Marxist thought and American culture In Our Image Noreen L. Herzfeld, 2002 *In Our Image* brilliantly illuminates who we are as humans by demonstrating the surprisingly deep parallels between our motivations to replicate ourselves through computer technology and our emerging understanding of ourselves as relational beings created in God's image This book is required reading for anyone Christian or non Christian intrigued by the possibility of artificial intelligence *Focus On: 100 Most Popular United States National Film Registry Films* Wikipedia contributors, Focus On: 100 Most Popular American Science Fiction Films Wikipedia contributors, *Stanley Kubrick* Nathan Abrams, 2018-04-19 Stanley Kubrick is generally acknowledged as one of the world's great directors Yet few critics or scholars have considered how he emerged from a unique and vibrant cultural milieu the New York Jewish intelligentsia Stanley Kubrick reexamines the director's work in context of his ethnic and cultural origins Focusing on several of Kubrick's key themes including masculinity ethical responsibility and the nature of evil it demonstrates how his films were in conversation with contemporary New York Jewish intellectuals who grappled with the same concerns At the same time it

explores Kubrick's fraught relationship with his Jewish identity and his reluctance to be pegged as an ethnic director manifest in his removal of Jewish references and characters from stories he adapted. As he digs deep into rare Kubrick archives to reveal insights about the director's life and times, film scholar Nathan Abrams also provides a nuanced account of Kubrick's cinematic artistry. Each chapter offers a detailed analysis of one of Kubrick's major films, including *Lolita*, *Dr. Strangelove*, *2001: A Space Odyssey*, *A Clockwork Orange*, *Barry Lyndon*, *The Shining*, *Full Metal Jacket*, and *Eyes Wide Shut*. Stanley Kubrick thus presents an illuminating look at one of the twentieth century's most renowned and yet misunderstood directors.

Alien Sex Gerard Loughlin, 2008-04-15 Gerard Loughlin is one of the leading theologians working at the interface between religion and contemporary culture. In this exceptional work, he uses cinema and the films it shows to think about the church and the visions of desire it displays. Discusses various films, including the *Alien* quartet, Christopher Nolan's *Memento*, Stanley Kubrick's *2001: A Space Odyssey*, and *A Clockwork Orange*. Nicolas Roeg's *The Man Who Fell to Earth* and Derek Jarman's *The Garden*. Draws on a wide range of authors, both ancient and modern, religious and secular, from Plato to Levinas, from Karl Barth and Hans Urs von Balthasar to Andr  Bazin and Leo Bersani. Uses cinema to think about the church as an ecclesiasticinema and films to think about sexual desire as erotic dispossession as a way into the life of God. Written from a radically orthodox Christian perspective, at once both Catholic and critical.

The Encarta Book of Quotations Bill Swainson, 2000-09-30 Here are 25,000 quotations drawn from the history, politics, literature, religions, science, and popular culture of the world, ranging from the earliest Chinese sages through Shakespeare to the present day.

A Sense-of-Wonderful Century Gary Westfahl, 2013-07-30 This book gathers together many of the illuminating essays on science fiction and fantasy film penned by a major critic in the SF field. The pieces are roughly organized in the chronological order of when the movies and television programs being discussed first appeared, with essays providing more general overviews clustered near the beginning and end of the volume to provide the overall aura of a historical survey. Although this book does not pretend to provide a comprehensive history of science fiction and fantasy films, it does intermingle analyses of films and TV programs with some discussions of related plays, novels, stories, and comic books, particularly in the essays on *This Island Earth* and *2001: A Space Odyssey* and its sequels. Inciteful, entertaining, and full of intelligent and witty observations about science fiction and its sometimes curious relationship with the visual media, these essays will both delight and entertain critics, fans, and viewers alike.

New Wave, New Hollywood Gregory Frame, Nathan Abrams, 2021-09-23 As a period of film history, The American New Wave, ordinarily understood as beginning in 1967 and ending in 1980, remains a preoccupation for scholars and audiences alike. In traditional accounts, it is considered to be bookended by two periods of conservatism and viewed as a brief period of explosive creativity within the Hollywood system. From *Bonnie and Clyde* to *Heaven's Gate*, it produced films that continue to be watched, discussed, analysed, and poured over. It has, however, also become rigidly defined as a cinema of director auteurs who made a number of aesthetically and politically significant films. This has led to marginalization and exclusion of many important

artists and filmmakers as well as a temporal rigidity about what and who is considered part of the New Wave proper This collection seeks to reinvigorate debate around this area of film history It also looks in part to demonstrate the legacy of aesthetic experimentation and political radicalism after 1980 as part of the legacy of the New Wave Thanks to important new work that questions received scholarly wisdom reveals previously marginalised filmmakers and the films they made considers new genres personnel and films under the banner of New Wave New Hollywood and reevaluates the traditional approaches and perspectives on the films that have enjoyed most critical attention New Wave New Hollywood Reassessment Recovery Legacy looks to begin a new discussion about Hollywood cinema after 1967
