## **Lotus Elise The Complete Story:**

*Lotus Elise and Exige 1995-2020* Johnny Tipler, 2021-04-26 Named after Elisa the granddaughter of Lotus's owner at the time Romano Artioli of Bugatti fame the Lotus Elise was launched at the Frankfurt Show in 1995. In the subsequent twenty five years it has not only established itself as the embodiment of what Lotus stands for it retains a unique place in the international sports car market. No other manufacturer came up with a car to seriously rival the Elise nor the Exige in terms of handling dexterity on both road and racetrack and it aptly characterizes the definition of a sports car. Written in Johnny Tipler's inimitable style this book includes a detailed evolution of the Elise and Exige including full specification tables interviews with key individuals involved in their design and development including Richard Rackham Gavan Kershaw Neil Thomas Russell Carr Barney Hatt and Andy Pleavin. Elisa Artioli on her namesake its past and future motor sport adaptations and successes and finally driving experiences on road and track. The production of the Elise and Exige was sustained through four corporate upheavals. Now in Geely ownership the future for Lotus looks bright. **Lotus Elise** John Tipler, 1999-08-21 Discover the latest Lotus supercar. A valuable backdrop to the events is provided throughout the book by ex Rootes employees and management. Chronicles the Rootes Group's efforts to survive as a major car and truck manufacturer in Britain's turbulent 1960s and 1970s. From a position as a respected global name in manufacturing the Rootes Group found itself struggling to compete in a new buyers market in which foreign competition was starting to overtake British manufacturers. Despite the challenges that confronted them Rootes designed and built some of the most popular cars of the period the Hillman Minx and Super Minx the Singer Vogue and the Humber Sceptre and the iconic but ill fated Hillman Imp as well as some of the most rugged and well purposed vans and trucks built by Commer Karrier and Dodge. The book highlights the competition pedigree of the Sunbeam Rapier the Alpine the Imp and the Ford V8 engined Tiger. Famous names such as Paddy Hopkirk Rosemary Smith and Peter Procter all give their stories as works drivers for Rootes while engineers at Comps tell the background stories of how races and rallies were won and lost. Andrew Cowan Rootes works rally driver and winner of the 1968 London Sydney Marathon in a Hillman Hunter shares his story in what was a remarkable and unexpected victory for Rootes. This complex story is told through the eyes of ex Rootes and Chrysler personnel giving from the horse's mouth accounts of the company and its exploits. Geoff Carverhill takes you inside

the boardroom into the drawing office and on to the production line to give the reader an insider's view of Rootes Chrysler and Peugeot

**NSU Ro80 - The Complete Story** Martin Buckley, 2023-02-14 Launched in 1967 the NSU Ro80 had modern aerodynamic styling a technologically advanced Wankel rotary engine and was voted Car of the Year in 1968. However after the initial positive reception the car developed a reputation for unreliability with problems arising as early as 15 000 miles and many vehicles required a rebuilt engine before 30 000 miles. Despite the company resolving these reliability issues in both existing and new vehicles and offering a generous warranty the damage to the car's reputation was done. The NSU Ro80 is the most celebrated motoring lost cause of the second half of the twentieth century outranking the likes of the Edsel and the DeLorean because unlike those statements of misplaced optimism and ego it was a good car. Not just good the NSU Ro80 is one of the great saloons. Launched in September 1967 the Ro80 was an all new four door five seater from a West German company that post war had never made anything other than economy runabouts motorcycles and mopeds. That alone should have been enough of a risk but this was also the world's first purpose built Wankel engined family saloon. This compact refined and elegantly simple power unit was the first really new concept in the realm of internal combustion engines to achieve mass production for ninety years. A car like the Ro80 could only really have come from Germany where there was a passion for research and a pride in engineering not found elsewhere in Europe. With front wheel drive superb power steering and four wheel disc brakes the car had top handling and driver appeal. Quite simply it was a masterpiece considered by many to be the finest vehicle of its type in the world. But with one fatal flaw its engine. With over 300 archive photographs drawings and diagrams this book tells the story of the NSU

***Austin Healey Sprite - The Complete Story*** Malcolm Thorne, 2022-09-23 In May 1958 one of the world's largest motor manufacturers unveiled a diminutive two seater that would take the world by storm. Being neither expensive nor exotic for many motorists the Sprite opened the door to sports car ownership and in so doing its commercial success was almost guaranteed. With over 250 photographs this book includes the genesis of the Sprite from the Austin Seven and pre war MG Midget via Donald Healey's Riley and Nash engined models to the Austin A30 A90 Atlantic and Healey Hundred. The development launch and market reception is covered along with details of the evolution from Mk I to Mk IV including the Frogeye and restyled ADO 41. Rallies racing and record breaking details are given as well as information on modifications special bodied variants replicas and finally buying and restoring a Sprite today

***BMW E34 - The Complete Story*** James Taylor, 2024-10-29 The BMW E34 5 Series is considered one of the most impressive car designs to come out of the 1980s. The BMW E34 5 Series became the benchmark executive saloon during its eight year production life and today enthusiasts still look back on it as one of the high points of the BMW story. The E34 range made its debut in 1988 and built on BMW's growing success in the medium sized saloon class. From the start its makers aimed to seize leadership of the market sector from their arch rivals at

Mercedes Benz and to that end they developed a sleek sporty shape and made the car available with a range of 6 cylinder engines These included highly regarded diesel types and later there would be an entry level 4 cylinder as well BMW kept the E34 range fresh to the very end through three major eras of production The first lasted until 1990 and established the range firmly The second period from 1990 to 1992 brought Touring estate models 4 wheel drive variants and advanced new 4 valve engines Between 1992 and 1996 the third phase brought annual updates including VANOS variable valve timing and new V8 engines for the top of the range models In the BMW tradition these cars combined strong performance with excellent handling and these qualities were exploited to the hilt by the M5 variants produced by the legendary M Division Aftermarket tuning specialists made their own contributions too adding to the aura of glamour around the E34 range There were lesser known elements of the story too when BMW used the E34 range for some fascinating experiments with hybrid power systems a convertible and a dual fuel system
