Love and Its Place in Nature Jonathan Lear,1998-01-01 Jonathan Lear has shown us both Freud's texts and his subject matter from a new angle of vision one that renders much recent controversy about psychoanalytic theory irrelevant For any student of those texts this book is indispensable Alasdair MacIntyre Lear makes one understand how psychoanalysis works not only on the therapist's couch but also as a condition of being alive Love and Its Place in Nature not only offers a form of spiritual nutriment for the self it also defines that self with a clear profundity that few readers will have encountered before Christopher Lehmann Haupt New York Times A brief and engaging philosophical perspective on Freudian psychoanalysis The book is simply written but important themes are profoundly investigated An important philosophic reading of Freud Don Browning Christian Century In this brilliant book Jonathan Lear argues that Freud posits love as a basic force in nature one that makes individuation the condition for psychological health and development possible Love is active not just in the development of the individual but also in individual analysis and indeed in the development of psychoanalysis itself says Lear Expanding on philosophical conceptions of love nature and mind Lear shows that love can cure because it is the force that makes us human

Love Simon May,2019-06-18 What is love May plunders Western poetry philosophy and psychology to find answers Thought provoking stuff The Sunday Telegraph Love unconditional selfless unchanging sincere and totally accepting is worshipped today as the West's only universal religion To challenge it is one of our few remaining taboos In this path breaking and superbly written book philosopher Simon May does just that dissecting our ideas of love and showing how they are the product of a long and powerful cultural heritage Tracing over twenty five hundred years of human thought and history May shows how our idea of love developed from its Hebraic and Greek origins alongside Christianity until during the last two centuries God is love became love is God so hubristic so escapist so untruthful to the real nature of love that it has booby trapped relationships everywhere with deluded expectations Brilliantly May explores the very different philosophers and writers both skeptics and believers who dared to think differently from Aristotle's perfect friendship and Ovid's celebration of sex and the chase to Rousseau's personal authenticity Nietzsche's affirmation Freud's concepts of loss and mourning and boredom in Proust Against our belief that love is an all powerful solution to finding meaning security and happiness in life May reveals with great clarity what love actually is and what it means The most persuasive account of love's nature I have ever read Financial Times Intellectually engaging Provocative The Wall Street Journal

The Arabic Freud Omnia El Shakry,2017-08-29 The first in depth look at how postwar thinkers in Egypt mapped the intersections between Islamic discourses and psychoanalytic thought In 1945 psychologist Yusuf Murad introduced an Arabic term borrowed from the medieval Sufi philosopher and mystic Ibn Arabi al la shu ur as a translation for Sigmund Freud's concept of the unconscious By the late 1950s Freud's Interpretation of Dreams had been translated into Arabic for an eager Egyptian public

In *The Arabic Freud* Omnia El Shakry challenges the notion of a strict divide between psychoanalysis and Islam by tracing how postwar thinkers in Egypt blended psychoanalytic theories with concepts from classical Islamic thought in a creative encounter of ethical engagement. Drawing on scholarly writings as well as popular literature on self healing El Shakry provides the first in depth examination of psychoanalysis in Egypt and reveals how a new science of psychology or science of the soul as it came to be called was inextricably linked to Islam and mysticism. She explores how Freudian ideas of the unconscious were crucial to the formation of modern discourses of subjectivity in areas as diverse as psychology Islamic philosophy and the law. Founding figures of Egyptian psychoanalysis she shows debated the temporality of the psyche mystical states the sexual drive and the Oedipus complex while offering startling insights into the nature of psychic life ethics and eros. This provocative and insightful book invites us to rethink the relationship between psychoanalysis and religion in the modern era. Mapping the points of intersection between Islamic discourses and psychoanalytic thought it illustrates how the Arabic Freud like psychoanalysis itself was elaborated across the space of human difference.

The Mind and its Place in Nature C.D. Broad, 2014-06-03 This is Volume III of eight in a collection on the Philosophy of the Mind and Language. Originally published in 1925 this text looks at alternative theories of life and mind at the level of enlightened common sense: the Mind's knowledge of Existents and the Unconscious.

Love's Vision Troy Jollimore, 2011-07-05 Love often seems uncontrollable and irrational but we just as frequently appear to have reasons for loving the people we do. In *Love's Vision* Troy Jollimore offers a new way of understanding love that accommodates both of these facts arguing that love is guided by reason even as it resists and sometimes eludes rationality. At the same time he reconsiders love's moral status acknowledging its moral dangers while arguing that it is at heart a moral phenomenon an emotion that demands empathy and calls us away from excessive self concern. Love is revealed as neither wholly moral nor deeply immoral neither purely rational nor profoundly irrational. Rather as Diotima says in Plato's *Symposium* love is something in between. Jollimore makes his case by proposing a vision view of love according to which loving is a way of seeing that involves bestowing charitable attention on a loved one. This view recognizes the truth in the cliché love is blind but holds that love's blindness does not undermine the idea that love is guided by reason. Reasons play an important role in love even if they rest on facts that are not themselves rationally justifiable. Filled with illuminating examples from literature *Love's Vision* is an original examination of a subject of vital philosophical and human concern.

Machiavelli in Love Haig Patapan, 2006-01-01 *Machiavelli in Love* argues that the key to modernity is its understanding of love. This understanding a reformulation of classical eros and Christian agape and caritas accounts for significant aspects of modern political thought and practice ranging from its conception of beauty to its theories of power and constitutionalism to its understanding of philosophy. To explore this modern conception of love Haig Patapan returns to Machiavelli and the origins of modernity where the radical nature of the proposed changes compelled detailed elaboration.

and defence allowing us to discern with greater clarity the choices faced and the claims advanced Machiavelli in *Love* examines Machiavelli's modern understanding of love and its political and philosophical consequences by relying on the distinctions he himself makes between his epistolary poetical and political works Each chapter of the book engages different facets of his thought to yield a comprehensive appreciation of Machiavellian love and fear and its implication for modernity *Machiavelli in Love* is a unique and fascinating book that will appeal to students and scholars in fields as diverse as intellectual history philosophy and political science

The Nature of Love, Volume 2 Irving Singer, 2009-02-20 An examination of ideas and ideals of medieval courtly love and the transition into later Romantic love analyzing the work of Dante Shakespeare and Schopenhauer among many others Review monumental Boston Globe one of the major works of philosophy in our century Nous wise and magisterial Times Literary Supplement and a masterpiece of critical thinking that is a timely eloquent and scrupulous account of what after all still makes the world go round Christian Science Monitor In the second volume Singer studies the ideas and ideals of medieval courtly love and nineteenth century Romantic love as well as the transition between these two perspectives According to the traditions of courtly love in the twelfth century and thereafter not only God but also human beings in themselves are capable of authentic love The pursuit of love between man and woman was seen as a splendid ideal that ennobles both the lover and the beloved It was something more than libidinal sexuality and involved sophisticated and highly refined courtliness that emulated religious love in its ability to create a holy union between the participants Adherents to Romantic love in later centuries affirmed the capacity of love to effect a merging between two people who thus became one Singer analyzes the transition from courtly to Romantic by reference to the writings of many artists beginning with Dante and ending with Richard Wagner as well as Neoplatonist philosophers of the Italian Renaissance Descartes Spinoza Rousseau Hume Kant Hegel and Schopenhauer In relation to romanticism itself he distinguishes between two aspects benign romanticism and Romantic pessimism that took on renewed importance in the twentieth century

Karl Barth on the Christian Life Joseph L. Mangina, 2001 This book examines a little known facet of Karl Barth's theology his account of the practical or self-involving character of faith Joseph L. Mangina helps to dispel the myth of Barth as an enemy of the human subject by guiding the reader through key texts from the Church Dogmatics Examining such themes as religious experience sin emotion and moral agency Mangina shows that Barth is not merely a skilled dogmatic theologian but a thoughtful and sensitive interpreter of the Christian life

K. Bradby,1920 **Love-life in Nature** Wilhelm Bölsche,1926 **The laws of Human nature Unity of Universal love** ,2023-12-22 Introduction A life of Healing a life of Health A life worth living is a life of Wealth I have practiced over 25 years as a chiropractor and I have learned that most people come to me to treat their pain I m sure that most doctors and therapists have the same experience people want to receive a treatment that will cure their illness As I treat my patients I m also analyzing how their problem was created I m looking at various factors like diet lack of exercise injurious repetitive movements or anything else that could provoke the problem I m trying to get the patient to take responsibility for their problem and help me with their treatment It appears that I m treating their physical illness but over the years I have come to a new realization that a person s emotional mental and spiritual side can also affect their health The reality of the situation is that we can t separate an illness into a physical emotional mental or spiritual ailment because everything works together I now understand that attitudes play an essential role in our health and wellbeing Attitudes have characteristics that are physical emotional mental and spiritual In psychology attitudes are labeled as behavioral physical affective emotional and cognitive mental In this book attitudes have a spiritual side as well attitudes will have a positive spiritual value or a negative spiritual value Attitudes that bring people together and

unite them has an energy with a positive spiritual value and attitudes that are divisive and cause separation has a negative value If we have attitudes with a negative spiritual energy then they will cause illness physical illness mental illness and emotional illness We need to adopt attitudes with a positive spiritual energy if we want to stay healthy and grow spiritually Spiritual growth is there for all of us but we have to make the effort no one can make us grow spiritually Looking for someone to cure our ills is a short term proposition the long term cure is when we discover what is causing us harm and create a healthy lifestyle The 7 Laws of Human Nature is a scientific philosophical study into the human consciousness the 7 chakras and the human aura We use theories to make sense about what we are observing in life to explain ideas and interpret facts The 1st chapter is the Theory of the Oneness of Universal Love which will present 7 hypotheses These hypotheses will present facts and suppositions of facts which will be followed up by a theory This is all happening on four energy levels physical emotional mental and spiritual Life on Earth has to have a reason our lives aren't an accident and this book presents a logical theory on the how and why of life This is a book on love and how love works in our lives With Love and Devotion to All
