Catholic Cults and Devotions Michael P. Carroll, 1989 Imagine a heart which has been ripped from a man's body wrapped with thorns pierced with a knife and then placed on the man's chest or a group of people who believe that wearing a small rectangle of wool next to their skin ensures that they will go to heaven as long as it is brown wool and worn continuously Although psychoanalysts have long investigated similar ideas and beliefs they have ignored popular Catholicism even though behaviour such as this occurs over and over again in the history of Catholic cults and devotions **Melanie Klein** Deborah P. Britzman, 2015-11-07 This volume introduces the psychoanalyst Melanie Klein to the general field of education and traces her theories of mental life as an emotional situation through to problems of self other relations in our own time The case is made for Klein's relevance and the difficulties her theories pose to the activities of learning and pedagogical relation Klein's vocabulary the paranoid schizoid and depressive positions phantasy object relations projective identification anxiety envy and the urge for reparation and gratitude are discussed in terms of their evolution and the designs of her main questions all stemming from the problem of inhibition Her contribution to an understanding of symbolization and the shift from concrete thinking to greater freedom of mind is analyzed The essay develops the following questions why is learning an emotional situation How did Klein's life and larger history influence her views What are her central theories of mental life Why did Klein focus on anxiety and phantasies as making up the life of the mind What is object relations theory And what does Klein's model of the self proffer to contemporary education in schools and in universities Marxism and Human Nature Sean Sayers, *The Complete Works of W.R. experiencing of the transference and countertransference the setting and the method however much Bion's terminology might suggest otherwise remains rigorously psychoanalytic

Restitution and the Politics of Repair Magdalena Zolkos, 2020-09-21
 Analyses the social imaginary of undoing repair and return underpinning the international norm of restitution making Approaches restitution not just as a legal norm of property return but as a social imaginary and a cultural psychoanalytic scene of undoing repair and return Brings together philosophic political socio legal and cultural psychoanalytic approaches to the study of restitution Outlines a heterogeneous and multifaceted idea of restitution emergent in modernity and looks at the peripheries of the modern restitutive tradition in the search for alternatives and counter traditions This book takes a unique approach grounded in political and cultural discourse to develop a political theory of restitution Challenging assumptions about restitution in the Western legal and political tradition where it has become nearly synonymous with reacquisition and where legal studies focus on material objects and claims to their ownership Zolkos argues that the development of restitutive norms has been auxiliary to the emergence of modern state sovereignty and excavates the restitutive tradition's mythical religious substrate Bringing together texts from within and outwith the Western canon of

political theory and philosophy including the writings of Grotius Durkheim Freud and Klein as well as Mary Shelley's *Frankenstein* the book undertakes a dual task reading literary texts as a political theorising of restitution and reading political or sociological texts as literary narratives with distinctive restitutive tropes of repair undoing and return
