The Quest for Mark's Sources Thomas P. Nelligan,2015-07-07 The question of the relationship between the Gospel of Mark and letters of Paul has been ever present in New Testament scholarship but has never been fully explored This monograph seeks to probe further into this question through an examination of the literary relationship between sections of Mark and 1 Corinthians Nelligan explores the context of these texts in Greco Roman and Jewish literature adopting the view that New Testament authors use imitation with a sophisticated use of literary sources as a major technique in their composition He proposes a new set of criteria for judging literary dependence that builds upon and advances those already promoted by biblical scholars Sections of Mark and 1 Corinthians are then compared and analyzed including the Eucharist accounts given in both texts By analyzing and comparing sections of Mark and 1 Corinthians most notably the account of the Eucharist in both texts Nelligan argues Mark used 1 Corinthians as a literary source and that this was done using well established literary techniques used in the wider Greco Roman and Jewish literary world

A Touch of Class Carol Vanderheyden, 2003 We always have time for the things we put first Most people get ahead during the time that others waste Successful people try practice and wander down blind alleys They pay their dues but don t give up These are just a few of the thousands of quotes I have collected and used to inspire and challenge hundreds of students and educators during my thirty year teaching career I have compiled these quotes along with historical quotes and documents into a comprehensive book entitled A Touch of Class This book is meant to be a tool and an asset to any classroom instructor I envision this book as a resource for classroom banners and wall charts In an era of cultural changes and a need or quest for teachers to find tools to enhance character

building in our young people I believe using meaningful quotes to teach life lessons was met with personal success in my classroom It is my desire to inspire other teachers to use quotes as part of their daily routine classroom experience It will help alleviate behavioral problems in the classroom and aid our children s growth toward good citizenship Many interesting spontaneous and enlightening discussions may follow as students share their interpretations The art of deciphering quotes and writing interpretations is a classy way to start your day hence the title A Touch of Class A Touch of Class is divided into three sections designed for educators of all grade levels Section 1 A Wealth of Wisdom for Teachers Includes topics like discipline and motivation Section 2 The Making of a Great Nation Includes historical quotes and documents Section 3 Earth s Wonders and Resources Includes quotes related to scientific topics This treasure of quotes is designed to be a continuous source of strength encouragement joy and enrichment through your teaching career *Apuleius' Platonism* Richard Fletcher,2014-07-17 Apuleius of Madauros writing in the latter half of the second century CE in Roman North Africa is best known to us today for his Latin fiction the Metamorphoses aka The Golden Ass about a man who turned into a donkey and back again However he was also a Platonic philosopher who even though many of his writings are lost wrote a range of rhetorical and philosophical works which survive to this day This book examines these works to reveal how Apuleius Platonism is a result of his impersonation of philosophy that is a rhetorically powerful methodological tool that allows him to speak on behalf of Plato and his philosophy This book is the first exploration of the full scope of his idiosyncratic brand of Platonism across his multifarious literary corpus and is a major contribution to the study of the dynamic between literature and philosophy in antiquity and beyond Students with Both Gifts and Learning Disabilities Tina A. Newman,Robert J. Sternberg,2012-12-06 We were motivated to edit this book when we began to hear stories of exceptional students who were struggling with reading writing or math but who could solve seemingly any problem with computers or build the most intricate structures with Legos or could draw beautiful pictures or could tell the most creative stories but ended up in tears when asked to write it out How is it possible to have so much talent in some areas and yet to appear to have a disability in another What resources are available for these students How can we ensure that these students abilities are nurtured and developed Our goal in this book is to provide ideas and possibly even tentative answers for educators and to stimulate more questions to be answered by researchers We have ourselves been addressing related questions for some time Our group at the PACE Center at Yale has explored the developmentof abilities competencies and expertise that allow people to be successful in life Through this work we have collaborated with school districts and other educators and researchers across the country to expand the notion ofwhat is traditionally thought ofas intelligence We use the conceptofsuccessful intelligence to allow for the possibility that the skills traditionally taught in school are not the only ones and often not even the most important ones that allow people to be successful in the world Learning Challenge Lessons, Primary Jill Nottingham,James Nottingham,2018-07-27 The Learning Challenge Lessons have been created to accompany The Learning

Challenge and provide teachers with everything they need to run thoughtful dialogue driven Challenges The Learning Challenge Lessons Primary book includes 20 developmentally appropriate lesson plans that will help young learners Learn new vocabulary in the context of dialogue Challenge themselves to think through complex concepts Encourage their natural curiosity and seek answers to questions they pose themselves It Takes a Church to Raise a Christian Tod E.
