[The Red and the Black](#) Stendhal, 2015-12-31

INTRODUCTION Some slight sketch of the life and character of Stendhal is particularly necessary to an understanding of *Le Rouge et Le Noir* The Red and the Black not so much as being the formal stuffing of which introductions are made but because the book as a book stands in the most intimate relation to the author's life and character The hero Julien is no doubt viewed superficially a cad a scoundrel an assassin albeit a person who will alternate the moist eye of the sentimentalist with the ferocious grin of the beast of prey But Stendhal so far from putting forward any excuses makes a specific point of wallowing defiantly in his own alleged wickedness Even assuming that Julien is a villain and that it is my portrait he wrote shortly after the publication of the book why quarrel with me In the time of the Emperor Julien would have passed for a very honest man I lived in the time of the Emperor So but what does it matter Henri Beyle was born in 1783 in Grenoble in Dauphiny the son of a royalist lawyer situated on the borderland between the gentry and that bourgeoisie which our author was subsequently to chastise with that malice peculiar to those who spring themselves from the class which they despise The boy's character was a compound of sensibility and hard rebelliousness virility and introspection Orphaned of his mother at the age of seven hated by his father and unpopular with his schoolmates he spent the orthodox unhappy childhood of the artistic temperament Winning a scholarship at the Ecole Polytechnique at the age of sixteen he proceeded to Paris where

with characteristic independence he refused to attend the college classes and set himself to study privately in his solitary rooms In 1800 the influence of his relative M Daru procured him a commission in the French Army and the Marengo campaign gave him an opportunity of practising that Napoleonic worship to which throughout his life he remained consistently faithful for the operation of the philosophical materialism of the French sceptics on an essentially logical and mathematical mind soon swept away all competing claimants for his religious adoration Almost from his childhood moreover he had abominated the Jesuits and Papism is the source of all crimes was throughout his life one of his favourite maxims After the army's triumphant entry into Milan Beyle returned to Grenoble on furlough whence he dashed off to Paris in pursuit of a young woman to whom he was paying some attention resigned his commission in the army and set himself to study with the view of becoming a great man It is in this period that we find the most marked development in Beyle's enthusiasm of psychology This tendency sprang primarily no doubt from his own introspection For throughout his life Beyle enjoyed the indisputable and at times dubious luxury of a double consciousness He invariably carried inside his brain a psychological mirror which reflected every phrase of his emotion with scientific accuracy And simultaneously the critical spirit half genie half demon inside his brain would survey in the semi detached mood of a keenly interested spectator the actual emotion itself applaud or condemn it as the case might be and ticket the verdict with ample commentations in the psychological register of its own analysis

Dirt Work Christine Byl, 2013-04-16 A lively and lyrical account of one woman's unlikely apprenticeship on a national park trail crew and what she discovers about nature gender and the value of hard work Christine Byl first encountered the national parks the way most of us do on vacation But after she graduated from college broke and ready for a new challenge she joined a Glacier National Park trail crew as a seasonal traildog maintaining mountain trails for the millions of visitors Glacier draws every year Byl first thought of the job as a paycheck a summer diversion a welcome break from the real world before going on to graduate school She came to find out that work in the woods on a trail crew was more demanding more rewarding more real than she ever imagined During her first season Byl embraces the backbreaking difficulty of the work learning how to clear trees move boulders and build stairs in the backcountry Her first mentors are the colorful characters with whom she works the packers sawyers and traildogs from all walks of life along with the tools in her hands axe shovel chainsaw rock bar As she invests herself deeply in new work the mountains rivers animals and weather become teachers as well While Byl expected that her tenure at the parks would be temporary she ends up turning this summer gig into a decades long job moving from Montana to Alaska breaking expectations including her own that she would follow a professional career path Returning season after season she eventually leads her own crews mentoring other trail dogs along the way In *Dirt Work* Byl probes common assumptions about the division between mental and physical labor women's work and men's work white collars and blue collars The supposedly simple work of digging holes dropping trees and blasting snowdrifts in fact offers her an education of the hands and the head as well as membership in an utterly unique
