Nobodys Perfect:

Nobody's Perfect Cynthia L. Cameron, Lakisha R. Lockhart-Rusch, Emily A. Peck, 2025 Cynthia L. Cameron, Lakisha R. Lockhart-Rusch and Emily A. Peck argue that some adolescents have the privilege to make mistakes in ways that others often do not. In *Nobody's Perfect*, the editors offer a curated volume that affirms adolescents as fundamentally good and presents pathways that help youth distinguish mistakes from sin.

Nobody's Perfect Ellen Flanagan Burns, 2021-12-03 Jill walked over and stood next to Sally. She played right before Sally in the recital. I liked your pieces, Jill said. Sally said, But I messed up on the second one. It sounded really bad. Oh, I didn't notice, Jill said. She shrugged. I made a couple of mistakes too. It's no big deal, Sally thought. Jill was just trying to be nice. She couldn't remember Jill ever making a mistake when she played. In fact, she made it look so easy all the time. After another sip of punch and a chocolate chip cookie, Sally was ready to leave. She wasn't in a very good mood, and most of all, she didn't want to face Mrs. Pratt. Sally felt like she had let her down. Sally Sanders is a perfectionist. If she can't be the best, she feels like a failure. Sally procrastinates, shies away from new things, and constantly compares herself to others, convinced she's not good enough. With the help of her teachers and mother, Sally learns how to relax and try new things without worrying so much about being the best. She can just be herself, and that is all she needs.

Evidence-based Parenting Education James Ponzetti, Jr., 2015-08-14 This is the first book to provide a multidisciplinary critical and global overview of evidence-based parenting education (PEd) programs. Readers are introduced to the best practices for designing, implementing, and evaluating effective PEd programs in order to teach clients how to be effective parents. Noted contributors from various disciplines examine evidence-based programs from the U.S., Canada, Europe, Asia, and Australia, as well as web-based alternatives. The best practices used in a number of venues are explored, often by the developers themselves. Examples and discussion questions encourage application of the material. Critical guidance for those who wish to design, implement, and evaluate PEd programs in various settings is provided. All chapters feature learning goals, an introduction, conclusion, key points, discussion questions, and additional resources. In addition to these elements, chapters in Part III follow a consistent structure so readers can easily compare programs: theoretical foundations and history, needs assessment, and target audience, program goals, objectives, curriculum, issues, cultural implications, evidence-based research and evaluation, and professional preparation and training issues. The editor has taught parenting and family life education courses for years. This book reviews the key information that his students needed to become competent professionals. Highlights of the book's coverage include: Comprehensive summary of evidence-based PEd training programs in one volume. Prepares readers for professional practice as a Certified Family Life Educator (CFLE) by highlighting the fundamentals of developing and evaluating PEd programs. Exposes readers to models of parenting education from around the world. The book opens with a historical overview of PEd development. It is followed by 20 chapters divided in four parts. The initial six chapters focus on fundamentals of parenting education: program design, implementation, evaluation, the role of mediators, and

moderators as well as the U S Cooperative Extension Parent Framework The three chapters in Part II review the latest status of parenting education in Europe Asia and web based alternatives Part III presents ten stellar evidence based parenting programs offered around the world In addition to the learning goals introduction conclusion key points discussion questions and additional resources that are found in all chapters those in Part III also consider theoretical foundations and history needs assessment and target audience program goals objectives curriculum issues cultural Implications evidence based research and evaluation and professional preparation and training issues Part IV reviews future directions Ideal for advanced undergraduate or graduate courses in parent education parent child relations parenting early childhood or family life education family therapy and home school and community services taught in human development and family studies psychology social work sociology education nursing and more the book also serves as a resource for practitioners counselors clergy members and policy makers interested in evidence based PEd programs or those seeking to become CFLEs or Parent Educators

Internet Babylon Greg Holden, 2013-11-09 This book looks at the Internet from a sordid and entertaining perspective The line between truth and fiction is blurred on the net just as it is in Hollywood and so are the scandals involving well known movie and TV personalities politicians and the Internet s own brand of celebrities The battle between illusion and reality is every bit as intense on the Internet as on the celluloid screen Going beyond sites that glorify the seamier side to life Internet Babylon is a guide to the unique sites that appeal to selective sensibilities Internet Babylon gives you the ability to live vicariously through and be a participant in extraordinary even strange goings on that you might never otherwise encounter in your day to day life You ll not only find entertaining and titillating stories that define the rough and wild side of a major force in society that s still developing but you ll also discover the tools you need to be on top of breaking stories and find the news that s not fit to print

Postmodern Shakespeare Stephen Orgel, Sean Keilen, 1999 Shakespeare has never been more ubiquitous not only on the stage and in academic writing but in film video and the popular press On television he advertises everything from cars to fast food His birthplace the tiny Warwickshire village of Stratford Upon Avon has been transformed into a theme park of staggering commercialism and the New Globe in its second season is already a far bigger business than the old Globe could ever have hoped to be If popular culture cannot do without Shakespeare continually reinventing him and reimagining his drama and his life neither can the critical and scholarly world for which Shakespeare has for more than two centuries served as the central text for analysis and explication the foundation of the western literary canon and the measure of literary excellence The Shakespeare the essays collected in these volumes reveal is fully as multifarious as the Shakespeare of theme parks movies and television Indeed it is part of the continuing reinvention of Shakespeare The essays are drawn for the most part from work done in the past three decades though a few essential enabling essays from an earlier period have been included They not only chart the directions taken by Shakespeare studies in the recent past but they serve to indicate the enormous and continuing vitality of the enterprise and the extent to which
