Unfit For Marriage Edward J. Behrend-Martinez, 2014-10-21 The Catholic Church of early modern Europe intended the sacrament of matrimony to represent a lifelong commitment and it allowed few grounds for the dissolution of an unhappy marriage One was nonconsummation owing to the sexual impotency of one of the partners Even then an annulment was granted only after a church court had conducted a lengthy investigation of the case soliciting testimony from numerous witnesses as well as from the aggrieved couple and had subjected the allegedly impotent spouse and sometimes both spouses to an intimate physical examination Edward J Behrend Martinez has studied the transcripts of eighty three impotency trials conducted by the ecclesiastical court of Calahorra La Rioja a Spanish diocese with urban and rural parishes both Basque and Castilian From these records he draws a detailed fascinating portrait of private life and public sexuality in early modern Europe These trials were far more than a salacious inquiry into the intimate details of other people s lives The church valued marital sex as a cornerstone of stable society intended not only for procreation but also for maintaining domestic harmony Every couple s sex life however private in practice or intention was a matter of public and ecclesiastical concern Unfit for Marriage offers vivid accounts of marital sex and the role that property gender and personal preference played in marriage in early modern Europe It is essential reading for anyone interested in
