Landscapes of Social Transformation in the Salinas Province and the Eastern Pueblo World Katherine A. Spielmann,2017-10-31 In the 1100s most Pueblo peoples lived in small dispersed settlements and moved frequently but by the mid 1400s they had aggregated into large villages The majority of these villages were still occupied at Spanish contact and conquest by which time most Pueblo peoples had completely transformed their perception and experience of village life

Other changes were taking place on a broader regional scale and the migrations from the Colorado Plateau and the transformation of Chaco initiated myriad changes in ritual organization and practice Landscapes of Social Transformation in the Salinas Province and the Eastern Pueblo World investigates relationships between diverse regional and local changes in the Rio Grande and Salinas areas from 1100 to 1500 C E The contributing authors draw on the results of sixteen seasons of archaeological survey and excavation in the Salinas Province of central New Mexico The chapters offer cross scale analyses to compare broad perspectives in well researched southwestern culture changes to the finer details of stability and transformation in Salinas This stability which was unusual in the Pueblo Southwest from the 1100s until its abandonment in the 1670s provides an interesting contrast to migration based transformations studied elsewhere in the Rio Grande region

New Mexico Mission Churches Donna Blake Birchell, 2021 Before Spanish rule the land now known as New Mexico was inhabited by many indigenous tribes and pueblos with their own religious beliefs When conquistadors arrived to search for the Seven Cities of Gold they created settlements in the pueblos they conquered and forced Catholicism on the people they enslaved While several of these original missions were destroyed during the Revolt of 1680 the surviving churches are cherished by the communities they now serve Author Donna Blake Birchell guides you through the unique histories of more than twenty mission churches their struggles and triumphs over the centuries and the preservation challenges they now face

From Prehistoric Villages to Cities Jennifer Birch, 2014-04-11 Archaeologists have focused a great deal of attention on explaining the evolution of village societies and the transition to a Neolithic way of life Considerable interest has also concentrated on urbanism and the rise of the earliest cities Between these two landmarks in human cultural development lies a critical stage in social and political evolution Throughout world at various points in time people living in small dispersed village communities have come together into larger and more complex social formations These community aggregates were essentially middle range situated between the earliest villages and emergent chiefdoms and states This volume explores the social processes involved in the creation and maintenance of aggregated communities and how they brought about revolutionary transformations that affected virtually every aspect of a society and its culture While there have been a number of studies that address coalescence from a regional perspective less is understood about how aggregated communities functioned internally The key premise explored in this volume is that large scale long term cultural transformations were ultimately enacted in the context of daily practices interactions and what might be otherwise considered the mundane aspects of everyday life How did these processes play out on the ground in diverse and historically contingent settings What are the strategies and mechanisms that people adopt in order to facilitate living in larger social formations What changes in social relations occur when people come together This

volume employs a broadly cross cultural approach to interrogating these questions employing case studies which span four continents and more than 10 000 years of human history **The Place Names of New Mexico** Robert Julyan, 1996 The indispensable traveler s guide to the history of places throughout the Land of Enchantment
