Salomon And The Burneys:

Salomon and the Burneys Ian Woodfield, 2017-07-05 Johann Peter Salomon the celebrated violinist and impresario made his debut in England in March 1781 History has credited Salomon with bringing Haydn to London yet as Ian Woodfield reveals in this monograph Salomon's introduction of the composer to the London musical scene owed as much to luck as to skilful planning Haydn's engagement in London proved to be a much needed uplift to Salomon's career which as Woodfield illustrates had been on the wane for a number of years In addition to its reassessment of Salomon's uneven career in London during the 1780s this book throws light on the general relationship between public and private spheres of professional music making at the time and on the relationship between the social and professional attributes required of musicians if they were to be successful Nowhere are these tensions better illustrated than in the letters and journals of the Burney family especially those of Susan Burney which are drawn on in the book to provide a vivid picture of the fiercely competitive musical world of eighteenth century London

Enlightenment Orpheus Vanessa Agnew, 2008-05-01 The Enlightenment saw a critical engagement with the ancient idea that music carries certain powers it heals and pacifies civilizes and educates Yet this interest in musical utility seems to conflict with larger notions of aesthetic autonomy that emerged at the same time In *Enlightenment Orpheus* Vanessa Agnew examines this apparent conflict and provocatively questions the notion of an aesthetic philosophical break between the eighteenth and nineteenth centuries Agnew persuasively connects the English traveler and music scholar Charles Burney with the ancient myth of Orpheus She uses Burney as a guide through wide ranging discussions of eighteenth century musical travel views on music's curative powers interest in non European music and concerns about cultural identity Arguing that what people said about music was central to some of the great Enlightenment debates surrounding such issues as human agency cultural difference and national identity Agnew adds a new dimension to postcolonial studies which has typically emphasized the literary and visual at the expense of the aural She also demonstrates that these discussions must be viewed in context at the era's broad and well entrenched transnational network and emphasizes the importance of travel literature in generating knowledge at the time A new and radically interdisciplinary approach to the question of the power of music its aesthetic and historical interpretations and political uses *Enlightenment Orpheus* will appeal to students and scholars in historical musicology ethnomusicology German studies eighteenth century history and comparative studies

The Journals and Letters of Susan Burney Philip Olleson, 2016-03-09 Susan Burney 1755-1800 was the third daughter of the music historian Charles Burney and the younger sister of the novelist Frances Fanny Burney She grew up in London where she was able to observe at close quarters the musical life of the capital and to meet the many musicians men of letters and artists who visited the family home After her marriage in 1782 to Molesworth Phillips a Royal Marines officer who served with Captain Cook on his last voyage she lived in Surrey and later in rural Ireland Burney was a knowledgeable enthusiast for music and particularly for opera with discriminating tastes and the ability to capture

vividly musical life and the personalities involved in it Her extensive journals and letters a selection from which is presented here provide a striking portrait of social domestic and cultural life in London the Home Counties and in Ireland in the late eighteenth century They are of the greatest importance and interest to music and theatre historians and also contain much that will be of significance and interest for Burney scholars social historians of England and Ireland women s historians and historians of the family

Concert Life in Eighteenth-Century Britain Susan Wollenberg,2017-07-05 In recent years there has been a considerable revival of interest in music in eighteenth century Britain This interest has now expanded beyond the consideration of composers and their music to include the performing institutions of the period and their relationship to the

wider social scene The collection of essays presented here offers a portrayal of concert life in Britain that contributes greatly to the wider understanding of social and cultural life in the eighteenth century Music was not merely a pastime but was irrevocably linked with its social political and literary contexts The perspectives of performers organisers patrons audiences publishers copyists and consumers are considered here in relation to the concert experience All of the essays taken together construct an understanding of musical communities and the origins of the modern concert system This is achieved by focusing on the development of music societies the promotion of musical events the mobility and advancement of musicians systems of patronage the social status of musicians the repertoire performed and published the role of women pianists and the topography of concerts In this way the book will not only appeal to music specialists but also to social and cultural historians
