San Diego's Hybrid Urban Borderlands Albert Rossmeier, 2023-08-29 This study aims for a wider understanding of the redevelopment processes that emerged several decades ago in downtown San Diego and now gradually spread over the downtown edges into the inner ring.

Perspectively situated in the fields of urban landscape and urban border studies, the research project outlines how the eastward redevelopment wave in San Diego contests socialized neighborhood boundary perceptions by transforming the former first tier suburbs from disinvested communities into urban villages and trendy places to be. The study shows how the redevelopment perforates, dissolves and shifts socialized linear neighborhood boundaries into areas that are simultaneously part of the one and the other neighborhood. In the present work, the resulting rather undefined or stretched border areas have been referred to as hybrid urban borderlands. This notion is a novel conceptual approach that can be deemed a promising lens for future studies on neighborhood change, urban redevelopment and socio-spatial re-interpretation beyond the context of San Diego.

Chicano San Diego Richard Griswold del Castillo, 2008-02-07 The Mexican and Chicano residents of San Diego have a long, complicated and rich history that has been largely ignored. This collection of essays shows how the Spanish speaking people of this border city have created their own cultural spaces. Sensitive to issues of gender and paying special attention to political, economic and cultural figures and events, the contributors explore what is unique about San Diego's Mexican American history. In chronologically ordered chapters, scholars discuss how Mexican and Chicano people have resisted and accommodated the increasingly Anglo-oriented culture of the region. The book's early chapters recount the historical origins of San Diego and its development through the mid-nineteenth century; describe the American colonization that followed and include examples of Latino resistance that span the twentieth century from early workers strikes to the United Farm Workers movement of the 1960s. Later chapters trace the Chicano Movement in the community and in the arts; the struggle against the gentrification of the barrio and the growth of community organizing, especially around immigrants' rights from the perspective of a community organizer. To tell this sweeping story, the contributors use a variety of approaches: Testimonios retell individual lives; ethnographies relate the stories of communities; and historical narratives uncover what has previously been ignored or discounted. The result is a unique portrait of a marginalized population that has played an important but neglected role in the development of a major American border city.
