Sanctions Buster:

Busted Sanctions Bryan R. Early, 2015-02-11 Powerful countries like the United States regularly employ economic sanctions as a tool for promoting their foreign policy interests Yet this foreign policy tool has an uninspiring track record of success with economic sanctions achieving their goals less than a third of the time they are imposed The costs of these failed sanctions policies can be significant for the states that impose them their targets and the other countries they affect Explaining economic sanctions high failure rate therefore constitutes a vital endeavor for academics and policy makers alike Busted Sanctions seeks to provide this explanation and reveals that the primary cause of this failure is third party spoilers or sanctions busters who undercut sanctioning efforts by providing their targets with extensive foreign aid or sanctions busting trade In quantitatively and qualitatively analyzing over 60 years of U S economic sanctions Bryan Early reveals that both types of third party sanctions busters have played a major role in undermining U S economic sanctions Surprisingly his analysis also reveals that the United States closest allies are often its sanctions worst enemies The book offers the first comprehensive explanation for why different types of sanctions busting occur and reveals the devastating effects it has on economic sanctions chances of success

Unpopular Sovereignty Luise White, 2015-03-23 In 1965 the white minority government of Rhodesia after 1980 Zimbabwe issued a unilateral declaration of independence from Britain rather than negotiate a transition to majority rule In doing so Rhodesia became the exception if not anathema to the policies and practices of the end of empire In Unpopular Sovereignty Luise White shows that the exception that was Rhodesian independence did not in fact make the state that different from new nations elsewhere in Africa indeed this history of Rhodesian political practices reveals some of the commonalities of mid twentieth century thinking about place and race and how much government should link the two White locates Rhodesia s independence in the era of decolonization in Africa a time of great intellectual ferment in ideas about race citizenship and freedom She shows that racists and reactionaries were just as concerned with questions of sovereignty and legitimacy as African nationalists were and took special care to design voter qualifications that could preserve their version of legal statecraft Examining how the Rhodesian state managed its own governance and electoral politics she casts an oblique and revealing light by which to rethink the narratives of decolonization

War by Other Means Angela Borozna, Lada V. Kochtcheeva, 2024-02-29 This book analyzes the goals of Western sanctions imposed on Russia from 2014 to 2023 It explores the effects of sanctions on the Russian economy and its political course as well as the repercussions of the sanctions to the senders and third parties including spillover effects on neighboring countries and boomerang effects on the senders While sanctions can be considered relatively effective in terms of economic damage the Russian economy is far from being crushed Importantly sanctions proved to be ineffective as an instrument of foreign policy They have failed to alter Moscow's resolve to continue its military operation and are unlikely to change it in the near future The effects of the sanctions extend well beyond their anticipated impact on Russia itself primarily due to the Western nations limited experience and knowledge in implementing sanctions against a major power with extensive global connections such as Russia

China and Iran Readjust Relations Shirzad Azad,2024-01-16 The conclusion of the multilateral agreement about the Iranian nuclear issue in June 2015 was widely predicted to accelerate both the scope and size of commercial interactions between China and Iran As a result the two countries talked about the prospect of increasing their bilateral commerce from less than 50 billion to 600 billion within a short period of time Later Beijing and Tehran moved to sign a 25 year strategic agreement partly to achieve that critical objective The American withdrawal from the nuclear deal under the Trump administration in May 2018 however put a halt to the rosy trade prospect of 600 billion between China and Iran The contentious 25 year pact laid in the limbo in the wake of the crippling regime of international sanctions in which Washington spearheaded against Iran upon quitting the Joint Comprehensive Plan of Action Shirzad Azad argues how China s overall commercial relationship with Iran has turned out to be unusually asymmetrical and lopsided over the past several years In some areas Sino Iranian business partnership surprisingly dwindled to a trickle while in several other fields the presence of Chinese brands and technological expertise in Iran unexpectedly reached an all time high
