Smith,2009-02-22 Intended as a text for college and advanced high school students Voyages covers the entirety of the American maritime experience from the discovery of the continent to the present Published in cooperation with the National Maritime Historical Society the selections chosen for this anthology of primary texts and images place equal emphasis on the ages of sail and steam on the Atlantic and Pacific on the Gulf Coasts and the Great Lakes and on the high seas and inland rivers The texts have been chosen to provide students with interesting usable and historically significant documents that will prompt class discussion and critical thinking In each case the material is linked to the larger context of American history including issues of gender race power labor and the environment **The American Clipper Ship,**

1845-1920 Glenn A. Knoblock,2014-01-29 This work offers a new and comprehensive account of the fastest and most beautiful sailing ships ever built It explores the quest for speed on the seas from the early 1800s through the fast paced times of the 1850s spurred on by the California Gold Rush of 1849 Not only are the career details of such noted ships as the Flying Cloud and Challenge discussed in detail but they are also put in context with the times in which they operated Their builders in East Coast states from Maine to Florida are discussed in detail as are the men and a woman in one instance who commanded and manned these ships The book documents the roles that owners and shipping agents played what kinds of cargo the ships carried worldwide and the unusual trades in which they participated *Great Books for Girls* Kathleen Odean,2002 Evaluates fiction and nonfiction books featuring girls and women in positive roles ranking each entry by reading level **Neptune's Car - An American Legend** Paul W Simpson,2017-05-04 Smashing her way through enormous cross

seas and howling winds the Neptune s Car began to run her easting down She passed a battered barque bearing Hamburg markings vainly attempting to make westing against a thundering south westerly gale Those with an interest in American maritime history would know of the story of Mary Patten and the clipper ship Neptune s Car However few would be aware of the cursed nature of the ship The Patten s fateful voyage was just one in the career of a clipper whose travels spanned the globe Built at the yard of Page Allen in Gosport Virginia in the spring of 1853 the Neptune s Car quickly established her reputation for speed However murder mutiny mayhem plague disaster war death and financial ruin haunted any who know her The fickle hand of fate was always at the helm and like the oceans upon which the clipper sailed she spared none who showed weakness Volume One of the Virginia Clippers *Historical Dictionary of the U.S. Maritime Industry* Kenneth J. Blume,2011-12-22 In the Historical Dictionary of the U S Maritime Industry author Kenneth J Blume provides a convenient survey of this important industry from the colonial period to the present day from sail to steam to nuclear power This concise new reference work captures the key features of overseas coastal lake and river shipping and industry An introduction

For centuries the sea has been regarded as a male domain but in this illuminating historical narrative maritime scholar David Cordingly shows that an astonishing number of women went to sea in the great age of sail Some traveled as the wives or mistresses of captains others were smuggled aboard by officers or seamen And Cordingly has unearthed stories of a number of young women who dressed in men s clothes and worked alongside sailors for months sometimes years without ever revealing their gender His tremendous research shows that there was indeed a thriving female population from pirates to the sirens of myth and legend on and around the high seas A landmark work of women s history disguised as a spectacularly entertaining yarn *Women Sailors and Sailor s Women* will surprise and delight **How to Write a Bestseller** Tilar J Mazzeo,2024-08-20

sphere *Clipper Ships and the Golden Age of Sail* Sam Jefferson, 2014-10-09 In the era of commercial sail clipper ships were the ultimate expression of speed and grace Racing out to the gold fields of America and Australia and breaking speed records carrying tea back from China the ships combined beauty with breathtaking performance With over 200 gorgeous paintings and illustrations and thrilling descriptions of the adventures and races on the water this beautiful book brings the era vividly to life Chapters include The origins of the clippers from the gold rush to the tea trade A hell ship voyage with Bully Waterman one of the most successful and notorious captains of the era Marco Polo the fastest ship in the world her rise to prominence and subsequent decline Mary Patten s battle with Cape Horn a lady captain takes charge in a very male world Mutiny aboard the wild boat of the Atlantic The great China tea race of 1866 an amazingly close race across the world only decided in the final few miles The Sir Lancelot defies the odds her eccentric captains and rivalry with the legendary Thermopylae The Cutty Sark s longest voyage First hand accounts newspaper reports and log entries add fascinating eyewitness detail whilst the stunning images show how the designs of these thoroughbreds developed over the years A wonderful read and worthy celebration of these racehorses of the sea [Salt in Their Veins](#) Aditya Basu, 2025-05-12 Salt in Their Veins The Defiant Women Who Ruled the High Seas unveils the extraordinary lives of women mariners who shattered gender biases and claimed their rightful place on the world s oceans From legendary pirates who defied societal norms to trailblazing naval commanders who led with unparalleled courage and tactical brilliance this meticulously researched volume explores the captivating biographies of women who navigated both treacherous waters and deeply ingrained prejudices throughout maritime history The pages of this groundbreaking book illuminate stories long obscured by time and bias tales of remarkable women whose names deserve to stand alongside the most celebrated male seafarers Delve into the remarkable story of Jeanne de Clisson the 14th century Lioness of Brittany who transformed from noblewoman to feared pirate commander after her husband s execution wreaking havoc on French shipping for thirteen years with her distinctive black fleet Follow the journey of Grace O Malley the formidable 16th century Irish pirate queen who commanded a fleet of ships and hundreds of men negotiating directly with Queen Elizabeth I when her son was captured Discover how 18th century pirates Anne Bonny and Mary Read escaped societal constraints through seafaring careers that led them to become two of history s most notorious female buccaneers The narrative extends beyond piracy to celebrate women who achieved incredible feats of endurance and skill including the pioneering circumnavigators who challenged conventional wisdom about women s capabilities at sea Meet Jeanne Baret who in the 1760s became the first woman to circumnavigate the globe though she had to disguise herself as a man to secure a position as assistant to the expedition s naturalist Contemplate the sheer determination of Kay Cottee who in 1988 became the first woman to sail solo non stop and unassisted around the world enduring 189 days of isolation and extreme conditions Salt in Their Veins also honours modern pioneers women like Commander Sarah West appointed in 2012 as the first female commander of a major Royal Navy warship Captain Wendy

Lawrence one of NASA's first female shuttle commanders who began her career as a naval aviator and Dr Sylvia Earle the legendary oceanographer whose deep sea explorations have expanded our understanding of the world's oceans. These women's accomplishments are all the more remarkable when viewed against the backdrop of maritime superstition and opposition they faced. For centuries women were considered bad luck aboard ships believed to anger the sea itself yet these determined individuals found ways to circumvent these prejudices through disguise, exceptional competence or sheer force of will. The book examines how these pioneers navigated not only harsh oceanic conditions but also legal barriers designed specifically to exclude them from maritime professions. Through engaging storytelling and comprehensive historical context, this book celebrates the unwavering spirit of women who broke barriers on every ocean and in every maritime profession, demonstrating conclusively that the call of the sea knows no gender. Their courage to lead, whether commanding powerful warships or undertaking solo global journeys by sail or oar, or pioneering deep ocean exploration, reminds us that determination, skill and passion can overcome even the most entrenched societal limitations. By bringing these remarkable stories to light, *Salt in Their Veins* not only honours forgotten maritime heroines but also inspires future generations of women to pursue their own oceanic adventures and careers confident in the knowledge that they stand on the shoulders of extraordinary female mariners whose saltwater legacy flows through maritime history like a powerful unstoppable current.

The Great Clippers Jane D. Lyon, 2016-08-12 Against great odds a small group of patriots built a fleet that proved one of the decisive factors in the American Revolution and the War of 1812. These wealthy men had founded the first banks in the United States and built its first railroads, factories and steamships. Now they were to cap their achievements by making their young country equally superior in size and in the process producing the greatest, swiftest and most beautiful craft the world had ever seen: the clipper ship. This book not only traces the origins and achievements of the clipper but enlivens the dry bones of historic fact with the flesh and blood of clipper captains and crews. A great era comes to life with their courageous, tenacious stories.

The Great Windships Brian Stafford, 2022-09-13 The great merchant sailing ships were the original apparatus of globalisation. They brought the East and West together, carrying goods back and forth to the benefit of both and turning world's oceans into marine highways. Along them would travel all manner of goods in unheard-of volumes: gold, silver, gems, spices, coffee, tea and other foodstuffs as well as ideas, attitudes, religion and disease. Besides their superior armament, the ships' masters felt they were racially and religiously superior. Their vessels became instruments of colonial conquest, aiding the rise of the West over the much more populous East. They also enabled the opium and slave trades. For better and for worse they made the modern world. *The Great Windships* tells an epic story that stretches from the fragile vessels of the Age of Exploration to the mighty windjammers of the late nineteenth century. It follows how the nations of the West participated in this great adventure, their triumphs and shortcomings and the contributions each made to the development of the sailing ship. Full of drama, deceit, high seas adventure and knowledge, this is a book for anyone who's ever gazed in awe at a mighty tall
