Parliament. House of Commons. Treasury Committee, 2005 About one third of ATMs now make direct charges to consumers and in 2004 it is estimated that UK consumers paid 140 million in

charges made whilst accessing funds through cash machines The Committee's report examines the principle and increasing trend towards charging the clarity of presentation of these charges to the consumer the likely impact on financial exclusion and low income households and key areas for action from government regulators and the industry Findings include that although there has been an increase in free machines as well as charging machines their location and the lack of transparency about which machines make charges hinders genuine competition and consumer choice Recommendations include that there should be a clearer indication of the amount of surcharge on external signage with standardised labelling for all free and charging machines The LINK network agreement needs to improve consumer representation and its enforcement mechanisms The trend towards ATM charges should not be allowed to exacerbate existing financial exclusion and the Government should ensure that the switch to direct payment of benefits does not disadvantage recipients in their access to cash

Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and gripping novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
