Monitoring Education Carol Taylor Fitz-Gibbon,1996 In this text the author draws on her experience as creator of the ALIS project A Level Information System a quality monitoring and feedback system in use in many parts of the UK She asks the question how do we get quality into education and uses the positive lessons of ALIS to analyze the requirements of an effective value added monitoring system *Monitoring Education* Carol Taylor Fitz-Gibbon,1996-01-01 In this text the author draws on her experience as creator of the ALIS project A Level Information System a quality monitoring and feedback system in use in many parts of the UK She asks the question how do we get quality into education and uses the positive lessons of ALIS to analyze the requirements of an effective value added monitoring system [Resources in Education](#) ,2000-04 **Monitoring the Quality of Education in Schools** Vanessa Scherman, Roel J. Bosker, Sarah J. Howie,2016-12-27 The monitoring of quality has been part of the educational landscape for many decades Originally the need to monitor arose as part of an economic process whereby policy makers wanted to discern the return on investment in education This bottom line thinking while still prominent has receded into the background in light of global changes and the emergence of a global economy Now in addition to the question what is the return on investment the more important question is are the students in schools ready to participate in the economy of a 21st century society This is underpinned by the inquiry into what knowledge and competencies are required for students to participate meaningfully in nation building This inquiry can only be undertaken by means of monitoring evaluating where the students are and what is required so that students reach their potential In an ever changing technologically oriented world the manner in which competencies and knowledge are identified and how these need to be measured and identified is important In this book the theory and practice of underpinning the monitoring of the quality of education is described This is followed by a number of practical examples in the form of country case studies on how theory plays out in practice The book further provides common themes across developed and developing emerging economies underscoring the need for approaches which are locally relevant but internationally transferable **Shaping Digital Education Enabling Factors for Quality, Equity and Efficiency** OECD,2023-07-11 Investment in education technology has surged worldwide over the past decade and digital education technologies are now a key resource for OECD education and training systems If used effectively they promise to transform teaching and learning practices to reduce learning inequalities and to create more inclusive and efficient education systems

New Paradigm for Re-engineering Education Yin Cheong Cheng,2006-01-17 In response to the challenges of globalization and local development educational reforms are inevitably becoming one of the major trends in the Asia Pacific Region or other parts of the world Based on the most recent research and international observations this book aims to present a new paradigm including various new concepts frameworks and theories for reengineering education This book has 21 chapters in three sections Section I New Paradigm of Educational Reform containing eight chapters illustrates the new

paradigm and frameworks of reengineering education fostering human development and analysing reform policies and also discusses the trends and challenges of educational reforms in the Asia Pacific Region Section II New Paradigm of Educational Leadership with five chapters aims to elaborate how the nature role and practice of school leadership can be transformed towards a new paradigm and respond to the three waves of education reforms Section III Reengineering School Management for Effectiveness with eight chapters aims to provide various practical frameworks for reengineering school management processes and implementing changes in school practices

The International Handbook of Educational Research in the Asia-Pacific Region J.P. Keeves, Ryo Watanabe, 2013-11-11 The aim of the Handbook is to present readily accessible but scholarly sources of information about educational research in the Asia Pacific region The scale and scope of the Handbook is such that the articles included in it provide substantive contributions to knowledge and understanding of education in the Asia region In so doing the articles present the problems and issues facing education in the region and the findings of research conducted within the region that contribute to the resolution of these problems and issues Moreover since new problems and issues are constantly arising the articles in the Handbook also indicate the likely directions of future developments The different articles within the Handbook seek to conceptualize the problems in each specific content area under review provide an integration of the research conducted within that area the theoretical basis of the research the practical implications of the research and the contribution of the research towards the resolution of the problems identified Thus the articles do not involve the reporting of newly conducted research but rather require a synthesis of the research undertaken in a particular area with reference to the research methods employed and the theoretical frameworks on which the research is based In general the articles do not advocate a single point of view but rather present alternative points of view and comment on the debate and disagreements associated with the conduct and findings of the research Furthermore it should be noted that the Handbook is not concerned with research methodology and only considers the methods employed in inquiry in so far as the particular methods of research contribute to the effective investigation of problems and issues that have arisen in the conduct and provision of education at different levels within the region

Researching Educational Governance: Realizing UN 2030 Agenda and Beyond H.C. Pokhriyal, B.S. Nagi, M.C. Sati, Padmakar Mishra, R.P. Juyal and A.S. Khullar, 2023-01-01 Achieving the lofty Goal 4 of the UNSDGs which aims to ensure inclusive and equitable quality education and promote lifelong learning opportunities for all will require the entire education system to be reconfigured a fact as aptly underlined in the National Education Policy 2020 of India This would essentially entail putting in place a very effective educational governance devised and formulated on the basis of cutting edge research outputs Three Volumes of the present book is a modest yet maiden attempt to comprehend and unfold the blending of diverse research methodologies and amply demonstrate through empirical findings that innovative policies and interventions curated on the basis of this approach of research can ensure quality education Governance emerges as one of the core areas for research Therefore

Volume I provides a wide canvas of governance in general and educational governance in particular for research along with a unique opportunity to elaborate both the theory and practice of Quantitative Qualitative and Participatory Methodologies in researching governance that is the frontier challenge looking for suitable answers Volume II uniquely comprehends multiple aspects of quality in dynamic and wider perspectives as perceived by the primary stakeholders including community Refreshing insight into the quality perspectives of educational governance will facilitate the researchers to explore innovative interventions in respective areas of human development Community is the third constituent of governance along with the state and the market Therefore Volume III explores a futuristic vision of community governance leading to quality education Also an attempt has been made to critically appraise the provisioning of community governance including the local self governments as well as free and compulsory elementary education The Book is a live comprehension of the conceptual framework of research and methods along with handling of research problems at the ground It is like explaining how to by giving suitable case studies conducted by the authors on educational governance It is hoped that the three Volumes will be an exciting learning experience that would enable us to address researching challenges over which the public policy makers researchers development administrators planners and students may build their concepts logical structures and planned interventions facilitating the achievement of effective educational governance at micro level ensuring quality education in the coming decades
