Monks Of Tibhirine Faith Love And Terror In Algeria:

The Monks of Tibhirine John W. Kiser, 2002 *The Monks of Tibhirine* John Kiser, 2003-02-28 Details the true story of seven monks kidnapped from a Trappist monastery in war torn Algeria to be used as negotiation tools to free imprisoned terrorists and whose severed heads were found in a tree two months later **The Monks of Tibhirine** John W. Kiser, 2025-09-23 The inspiration for the major motion picture *Of Gods and Men* A true story of Christian love set against political terrorism in contemporary Algeria In the spring of 1996 militants of the Armed Islamic Group today affiliated with Osama bin Laden's al Qaeda network broke into a Trappist monastery in war torn Algeria Seven monks were taken hostage pawns in a murky negotiation to free imprisoned terrorists Two months later the severed heads of the monks were found in a tree not far from Tibhirine their bodies were never recovered The village of Tibhirine had sprung up around the monastery because it was a holy place protected by the Virgin Mary who is revered by Christians and Muslims alike But after 1993 as the Algerian military government's war against Islamic terrorism widened napalm helicopters and gunfire became regular accompaniments to their monastic routine The harmony between these Christian monks and the Muslim neighbors of Tibhirine contrasts with the fear and distrust among Algerians fighting over power and what it means to be a Muslim Woven into the story of the kidnapping and the political disintegration of Algeria is a classic account of Christian martyrdom But these monks were not martyrs to their faith as preaching Christianity to Muslims is forbidden in Algeria but rather martyrs to their love of their Muslim neighbors whom they refuse to desert in their hour of need The Slavery of Death Richard Beck, 2013-12-23 According to Hebrews the Son of God appeared to break the power of him who holds the power of death that is the devil and free those who all their lives were held in slavery by their fear of death What does it mean to be enslaved all our lives to the fear of death And why is this fear described as the power of the devil And most importantly how are we as individuals and as faith communities to be set free from this slavery to death In another creative interdisciplinary fusion Richard Beck blends Eastern Orthodox perspectives biblical text existential psychology and contemporary theology to describe our slavery to the fear of death a slavery rooted in the basic anxieties of self preservation and the neurotic anxieties at the root of our self esteem Driven by anxiety enslaved to the fear of death we are revealed to be morally and spiritually vulnerable as the sting of death is sin Beck argues that in the face of this predicament resurrection is experienced as liberation from the slavery of death in the martyrological eccentric cruciform and communal capacity to overcome fear in living fully and sacrificially for others Managing Conflicts in Africa's Democratic Transitions Akanmu G. Adebayo, 2012-08-31 The democratization process which bolstered a culture of periodic elections has also fostered election related violent conflicts As democratic transitions gained currency in the new millennium orderly transitions through the ballot boxes began replacing military coups but deaths and destructions came in the wake of elections in many countries Inspired by decades long pro democracy movements across Africa that culminated in the Arab Spring of 2010 2011 and

motivated by the desire to find long term solutions to election related violent conflicts in the continent this book explores the terrain of democratization elections and conflict management It raises and answers many questions such as What are the root causes of election related conflicts How free fair and credible are elections in many African countries What institutional mechanisms are available for ballot and voter security and for mandate protection What has been the role of civil society organizations in conflict prevention and management What are the responsibilities of the international community especially regional organizations like the Economic Community of West African States ECOWAS and the African Union AU in conflict resolution What indigenous mechanisms for conflict management have been identified that may be proactively engaged

Silence Is Death Julija Sukys,2007-01-01 On May 26 1993 the Algerian novelist and poet Tahar Djaout was gunned down in an attack attributed to Islamist extremists An outspoken critic of the extremism roiling his nation Djaout in his death became a powerful symbol for the murder of Algerian culture as scores of journalists writers and scholars were targeted in a swelling wave of violence The author of twelve books of fiction and poetry Djaout was murdered at a critical point in his career just as his literary voice was maturing His death was a great loss not only for Algeria and for Francophone literature but also for world literature Rage at the news of his slaying was explosive but did nothing to quell the increasing bloodshed Silence Is Death considers the life and work of Djaout in light of his murder and his role in the conflict that raged between Islamist terrorist cells and Algeria's military regime in the 1990s The result is an innovative meditation on death authorship and the political role of intellectuals By collapsing the genres of history biography personal memoir fiction and cultural analysis Julija Sukys investigates notions of authorial neutrality as well as the relationship between reader and writer in life and in death Her work offers a view of reading as an encounter across time and place and opens the possibility of a relationship between different cultures under peaceful terms

The Oxford Handbook of Mystical Theology Edward Howells,Mark A. McIntosh,2020-02-25 The Oxford Handbook of Mystical Theology provides a guide to the mystical element of Christianity as a theological phenomenon It differs not only from psychological and anthropological studies of mysticism but from other theological studies such as more practical or pastorally oriented works that examine the patterns of spiritual progress and offer counsel for deeper understanding and spiritual development It also differs from more explicitly historical studies tracing the theological and philosophical contexts and ideas of various key figures and schools as well as from literary studies of the linguistic tropes and expressive forms in mystical texts None of these perspectives is absent but the method here is more deliberately theological working from within the fundamental interests of Christian mystical writers to the articulation of those interests in distinctively theological forms in order finally to permit a critical theological engagement with them for today Divided into four parts the first section introduces the approach to mystical theology and offers a historical overview Part two attends to the concrete context of sources and practices of mystical theology Part three moves to the fundamental conceptualities of mystical thought The final section ends with the central contributions of mystical teaching

to theology and metaphysics Students and scholars with a variety of interests will find different pathways through the Handbook

Mysticism and Witness in Koinonia Maria Clara Bingemer, 2023-11-10 Testimony until the end in a radical donation of life and blood can be communitarian and not only individual That is the case for the two communities of Trappists and Jesuits so different in their form and so close in their radicality One is contemplative the other active one is in Africa the other in Latin America Both are religious Catholic orders Nevertheless the cause of their violent death is secular For one there is love and dialogue with otherness other cultures other religions other beliefs For the other there is justice for those who are the victims of iniquitous economic and political systems the poor Assuming secular causes into their religious consecration and commitment those communities teach today to the plural society we live in how to be open to otherness to difference and to the various vulnerabilities that clamor for justice They also teach to the churches a new radical way to live the gospel not with a unique institutional point of view but with an unlimited openness to all hungers and thirsts of the world Their martyrdom is a liturgy celebrated publicly instigating reflection and action *Algeria since 1989* James D. Le Sueur, 2013-04-04 Algeria's democratic experiment is seminal in post Cold War history The first Muslim nation to attempt the transition from an authoritarian system to democratic pluralism this North African country became a test case for reform in Africa the Arab world and beyond Yet when the country looked certain to become the world's first elected Islamic republic there was a military coup and the democratic process was brought sharply to a halt Islamists declared jihad on the state and hundreds of thousands of civilians were killed in the ensuing decade of state repression Le Sueur shows that Algeria is at the very heart of contemporary debates about Islam and secular democracy arguing that the stability of Algeria is crucial for the security of the wider Middle East Algeria Since 1989 is a lively and essential examination of how the fate of one country is entwined with much greater global issues *Desire and Mental Health in Christianity and the Arts* David Torevell, 2023-08-21 This book considers the connection between the world of mental health in the twenty first century and the traditional concept of desire in Christianity and the Arts It draws parallels between the desire for rest from anxiety among mental health sufferers with the longing for peace and happiness in Religion and the Arts The author presents Biblical philosophical and theological insights alongside artistic ones arguing that desire for rest remains at the heart of spiritual living as well as mental health recovery The chapters draw from historical and contemporary voices including Plato Augustine of Hippo Julian of Norwich Gerard Manley Hopkins Simone Weil Samuel Beckett Tennessee Williams Jean Louis Chr tien Eric Varden and others The study demonstrates why longing continues to fascinate and grip individuals creative endeavour and society at large not least in the development of the understanding of mental health It is valuable for scholars and advanced students of Christian theology and those interested in spirituality and the arts in particular
