Medical Lexicon Robley Dunglison, 1857 Weekly Medical Review , 1884 **Cyclopaedia of the Diseases of Children, Medical and Surgical** John Marie Keating, 1889 The Ethics of Medical Homicide and Mutilation Austin O'Malley, 1919 A Dictionary of Medical Science Robley Dunglison, 1860 **The American Journal of the Medical Sciences** , 1890 *Cyclopædia of the diseases of children, medical and surgical v. 1, 1892-94* , 1893 **Medical jurisprudence** Alfred Swaine Taylor, 1861 Hermaphroditism, Medical Science and Sexual Identity in Spain, 1850 1960 Richard Cleminson, Francisco Vázquez García, 2009-10-31 This is the first book in English to analyse the medical category of hermaphroditism in Spain over the period 1850 1960 It attempts to show how the relationship between the male and female body biological sex gender and sexuality constantly changed in the light of emerging medical legal and social influences Tracing the evolution of the hermaphrodite from its association with the marvellous to the association with intersexuality and transexuality this book emphasizes how the frameworks employed by scientists and doctors reflected not only changing international paradigms with respect to hermaphrodite science but also social anxieties about shifting gender roles the evolving discourse on sexuality and in particular the increased visibility of the sexual deviancies such as homosexuality and changing legislation on marriage and divorce Finally we hope to open a space whereby the voice of hermaphrodites and intersexuals themselves could be heard in the past as agents in the construction of their own destiny as figures deemed in between by medicine and society **Rethinking Medical Humanities** Rinaldo F. Canalis, Massimo Ciavolella, Valeria Finucci, 2022-12-19 Medical Humanities may be broadly conceptualized as a discipline wherein medicine and its specialties intersect with those of the humanities and social sciences As such it is a hybrid area of study where the impact of disease and healing science on culture is assessed and expressed in the particular language of the disciplines concerned with the human experience However as much as at first sight this definition appears to be clear it does not reflect how the interaction of medicine with the humanities has evolved to become a separate field of study In this publication we have explored through the analysis of a group of selected multidisciplinary essays the dynamics of this process The essays predominantly address the interaction of literature philosophy art art history ethics and education with medicine and its specialties from the classical period to the present Particular attention has been given to the Medieval Early Modern and Enlightenment periods To avoid a rigid compartmentalization of the book based on individual fields of study we opted for a fluid division into multidisciplinary sections reflective of the complex interactions of the included works with medicine **Proceedings of the Philadelphia County Medical Society. ...** Philadelphia County Medical Society, 1897 *The Edinburgh Medical and Surgical Journal* , 1847 **Medical Jurisprudence.
