Crimson Letters: Voices from Death Row Tessie Castillo, 2020-03-12 Through thirty compelling essays written in the prisoners own words *Crimson Letters* *Voices from Death Row* offers stories of brutal beatings inside juvenile hall botched suicide attempts the terror of the first night on Death Row the pain of goodbye as a friend is led to execution and the small acts of humanity that keep hope alive for men living in the shadow of death Each carefully crafted personal essay illuminates the complex stew of choice and circumstance that brought four men to Death Row and the cycle of dehumanization and brutality that continues inside prison At times the men write with humor at times with despair at times with deep sensitivity but always with keen insight and understanding of the common human experience that binds us

Monsters & Madmen: A Death Row Experiment Nick Yarris, 2020-02-18 January 1995 The first prison ever condemned by the United Nations for Active Practices of Torture was shut down by a civil lawsuit Huntingdon Prison in Pennsylvania had a dilemma following this ruling against its holding men on Death Row any longer What to do with the worst men among 225 Death Row prisoners ordered out of their cells more than one hour a day The answer Create a special unit where 48 of the most violent and dangerous men would be kept away from the rest of the Death Row inmates From 1995 to 1998 Nick Yarris was one of those 48 men who were described as Monsters Madmen What he endured over the course of this one three year long segment of his 23 years spent on Death Row was so brutal that he has kept it hidden until now Be prepared for a ride like no other as Nick takes you inside a special experiment that left four people dead and left him scarred forever from it all

The Death of the American Death Penalty Larry Wayne Koch, Colin Wark, John F. Galliher, 2012 The death penalty has largely disappeared as a national legislative issue and the Supreme Court has mainly bowed out leaving the states at the cutting edge of abolition politics This essential guide presents and explains the changing political and cultural challenges to capital punishment at the state level As with their previous volume *America Without the Death Penalty* Northeastern 2002 the authors of this completely new volume concentrate on the local and regional relationships between death penalty abolition and numerous empirical factors such as economic conditions public sentiment the roles of social political and economic elites the mass media and population diversity They highlight the recent abolition of the practice in

New York New Jersey New Mexico and Illinois the near misses in New Hampshire Connecticut Maryland and Nebraska the Kansas rollercoaster rides and the surprising recent decline of the death penalty even in the deep South Abolition of the death penalty in the United States is a piecemeal process with one state after another peeling off from the pack until none is left and the tragic institution finally is no more This book tells you how and why that will likely happen **Monsters and Madmen** Nick Yarris,2018-06-30 The most twisted Death Row experiment ever This is one book no one can turn away from reading Mea Culpa Steven W. Bender,2015-01-09 In Mea Culpa Steven W Bender examines how the United States collective shame about its past has shaped the evolution of law and behavior We regret slavery and segregationist Jim Crow laws We eventually apologize while ignoring other oppressions and our legal response to regret often fails to be transformative for the affected groups By examining policies and practices that have affected the lives of groups that have been historically marginalized and oppressed Bender is able to draw persuasive connections between shame and its eventual legal manifestations Analyzing the United States historical response to its own atrocities Bender identifies and develops a definitive moral compass that guides us away from the policies and practices that lead to societal regret Mea Culpa challenges its readers In a different era might we have been slave owners or proprietors of a racially segregated establishment It s easy to judge immorality in the hindsight of history but what current practices and policies will later generations regret More than a historical survey this volume offers a framework for resolving some of the most contentious social problems of our time Drawing on his background as a legal scholar Bender tackles immigration the death penalty the war on terror reproductive rights welfare wage inequity homelessness mass incarceration and same sex marriage Ultimately he argues it is the dehumanization of human beings that allows for practices to occur that will later be marked as regrettable And all of us have a stake in standing on the side of history that resists dehumanization *Kaijuman #6* Zander Cannon,2015-09-30 SEASON FINALE Electrogor injured and traumatized retreats into drug use until a bloody incident spurs him to join an escape attempt His co conspirator is twitchy and unreliable but anything s better than this place Also Stabbings Amour fou Brotherly love And You and me let s take a walk *Condemned to Die* Robert Johnson,2018-12-07 *Condemned to Die* is a book about life under sentence of death in American prisons The great majority of condemned prisoners are confined on death rows before they are executed Death rows typically feature solitary confinement a harsh regimen that is closely examined in this book Death rows that feature solitary confinement are most common in states that execute prisoners with regularity which is to say where there is a realistic threat that condemned prisoners will be put to death Less restrictive confinement conditions for condemned prisoners can be found in states where executions are rare Confinement conditions matter especially to prisoners but a central contention of this book is that no regimen of confinement under sentence of death offers its inmates a round of activity that might in any way prepare them for the ordeal they must face in the execution chamber when they are put to death In a basic and profound sense all condemned prisoners are

warehoused for death in the shadow of the executioner Human warehousing seen most clearly on solitary confinement death rows violates every tenet of just punishment no legal or philosophical justification for capital punishment demands or even permits warehousing of prisoners under sentence of death The punishment is death There is neither a mandate nor a justification for harsh and dehumanizing confinement before the prisoner is put to death Yet warehousing for death of an empty and sometimes brutal nature is the universal fate of condemned prisoners The enormous suffering and injustice caused by this human warehousing rendered in the words of the prisoners themselves is the subject of this book **Last Words from Death Row** Norma Herrera, 2007-02 Norma Herrera lived her brother's personal hell as he waited on Death Row for the courts to decide if the new evidence that proved Leonel Herrera's innocence would save his life Her book fulfills her last promise to Leo to tell his story to tell the truth Federal habeas courts do not sit to correct errors of fact but to ensure the individuals are not imprisoned in violation of the Constitution it said In other words being falsely imprisoned is not a violation of your rights Herrera was executed four months after the ruling In his final statement he said I am innocent innocent innocent I am an innocent man and something very wrong is taking place tonight Norma Herrera's book documents court events and press coverage She recounts the tribulations she and her family suffered as they worked to free Leonel Herrera from his fate If all the court proceedings including the Supreme Court's decision prior to Leo's execution represent the visible tip of the death penalty iceberg LAST WORDS FROM DEATH ROW exposes the enormous human tragedy that resides below the surface Her questions drive a powerful wedge between the legal process in capital cases and the truth Why do the guilty go unpunished When is innocence not enough to free a convicted man Does Truth not prevail in the American Justice system Who pays We all do Who is next
