Montaillou Promised Land Of Error:

Montaillou, the Promised Land of Error Emmanuel Le Roy Ladurie, 1979 In the early 1300 s the village of Montaillou and the surrounding mountainous region of Southern France was full of heretics When Jacques Fournier Bishop of Pamiers launched an elaborate Inquisition to stamp them out the peasants and shepherds he interrogated revealed along with their position on official Catholicism many details of their everyday life Basing his absorbing study on these vivid carefully recorded statements of peasants who lived more than 600 years ago Pierre Clergue the powerful village priest and shameless womanizer is even heard explaining his techniques of seduction eminent historian Le Roy Ladurie reconstructs the economy and social structure of the community and probes the most intimate aspects of medieval life love and marriage gestures and emotions conversations and gossip clans and factions crime and violence concepts of time and space attitudes to the past animals magic and folklore death and beliefs about the other world *Intercourse* Andrea Dworkin, 2008-08-01 Andrea

Dworkin once called Feminism s Malcolm X has been worshipped reviled criticized and analyzed but never ignored The power of her writing the passion of her ideals and the ferocity of her intellect have spurred the arguments and activism of two generations of feminists Now the book that she s best known for in which she provoked the argument that ultimately split apart the feminist movement is being reissued for the young women and men of the twenty first century *Intercourse* enraged as many readers as it inspired when it was first published in 1987 In it Dworkin argues that in a male supremacist society sex between men and women constitutes a central part of women s subordination to men This argument was quickly and falsely simplified to all sex is rape in the public arena adding fire to Dworkin s already radical persona In her introduction to this twentieth anniversary edition of *Intercourse* Ariel Levy the author of *Female Chauvinist Pigs* discusses the circumstances of Dworkin s untimely death in the spring of 2005 and the enormous impact of her life and work Dworkin s argument she points out is the stickiest question of feminism Can a woman fight the power when he shares her bed **The**

Household and the Making of History Mary S. Hartman, 2004-04-12 This book argues that a unique late marriage pattern discovered in the 1960s but originating in the Middle Ages explains the continuing puzzle of why western Europe was the site of changes that from about 1500 gave rise to the modern world Contrary to views that credit upheavals from the late eighteenth century were responsible for ushering in the contemporary global era it contends that the roots of modern developments themselves are located in an event more than a millennium earlier when the peasants in northwestern Europe began to marry their daughters almost as late as their sons The appearance of this late marriage system with its unstable nuclear household form will also be shown to have exposed for the first time the common ingredients whose presence has perpetuated beliefs in the importance of gender difference and of a sexual hierarchy favoring males **The Devil and the**

Land of the Holy Cross Laura de Mello e Souza, 2010-07-05 Originally published in Brazil as *O Diabo e a Terra de Santa Cruz* this translation from the Portuguese analyzes the nature of popular religion and the ways it was transferred to the New

World in the sixteenth and seventeenth centuries Using richly detailed transcripts from Inquisition trials Mello e Souza reconstructs how Iberian indigenous and African beliefs fused to create a syncretic and magical religious culture in Brazil Focusing on sorcery the author argues that European traditions of witchcraft combined with practices of Indians and African slaves to form a uniquely Brazilian set of beliefs that became central to the lives of the people in the colony Her work shows how the Inquisition reinforced the view held in Europe particularly Portugal that the colony was a purgatory where those who had sinned were exiled a place where the Devil had a wide range of opportunities Her focus on the three centuries of the colonial period the multiple regions in Brazil and the Indian African and Portuguese traditions of magic witchcraft and healing make the book comprehensive in scope Stuart Schwartz of Yale University says It is arguably the best book of this genre about Latin America all in all a wonderful book Alida Metcalf of Trinity University San Antonio says This book is a major contribution to the field of Brazilian history the first serious study of popular religion in colonial Brazil Mello e Souza is a wonderful writer

Our Old Monsters Brenda S. Gardenour Walter, 2015-07-11 The witch the vampire and the werewolf endure in modern horror These old monsters have their origins in Aristotle as studied in the universities of medieval Europe where Christian scholars reconciled works of natural philosophy and medicine with theological precepts They codified divine perfection as warm light male and associated with the ethereal world beyond the moon while evil imperfection was cold dark female and bound to the corrupt world below the moon All who did not conform to divine goodness including un holy women and Jews were considered evil and ascribed a melancholic blood hungry and demonic physiology This construct was the basis for anti woman and anti Jewish discourse that has persisted through modern Western culture Nowhere is this more evident than in horror films where the witch the vampire and the werewolf represent our fear of the inverted other

Graff, 2017-07-05 In his latest writings on the history of literacy and its importance for present understanding and future rethinking historian Harvey J Graff continues his critical revisions of many commonly held ideas about literacy The book speaks to central concerns about the place of literacy in modern and late modern culture and society and its complicated historical foundations Drawing on other aspects of his research Graff places the chapters that follow in the context of current thinking and major concerns about literacy and the development of both historical and interdisciplinary studies Special emphasis falls upon the usefulness of the literacy myth as an important subject for interdisciplinary study and understanding Critical stock taking of the field includes reflections on Graff s own research and writings of the last three decades and the relationships that connect interdisciplinary rethinking and the literacy myth The collection is noteworthy for its attention to Graff s reflections on his identification of the literacy myth and in developing LiteracyStudies OSU Ohio State University as a model for university wide interdisciplinary programs It also deals with ordinary concerns about literacy or illiteracy that are shared by academics and concerned citizens These nontechnical essays will speak to both academic and nonacademic audiences across disciplines and cultural orientations

Contesting

Orthodoxy in Medieval and Early Modern Europe Louise Nyholm Kallestrup, Raisa Maria Toivo, 2017-02-04 This book breaks with three common scholarly barriers of periodization discipline and geography in its exploration of the related themes of heresy magic and witchcraft It sets aside constructed chronological boundaries and in doing so aims to achieve a clearer picture of what went before as well as what came after Thus the volume demonstrates continuity as well as change in the concepts and understandings of magic heresy and witchcraft In addition the geographical pattern of similarities and diversities suggests a comparative approach transcending confessional as well as national borders Throughout the medieval and early modern period the orthodoxy of the Christian Church was continuously contested The challenge of heterodoxy especially as expressed in various kinds of heresy magic and witchcraft was constantly present during the period 1200 1650 Neither contesters nor followers of orthodoxy were homogeneous groups or fractions They themselves and their ideas changed from one century to the next from region to region even from city to city but within a common framework of interpretation This collection of essays focuses on this complex

Understanding Literacy in Its Historical Contexts

Harvey J. Graff, Alison Mackinnon, Bengt Sandin, Ian Winchester, 2009-01-10 In this detailed study of the history of universal literacy in Sweden a group of renowned scholars review and explore the possibilities for the wider circulation and broader application of central dimensions of the early literacy studies expounding upon the work of the Swedish Lutheran pastor and pioneering social historian Egil Johansson Working initially with parish registers especially examination registers from northern Sweden Johansson discovered the extraordinary usefulness of these documents to determine how literacy in Sweden occurred well before any other European nation despite the fact that Sweden was industrialized about 100 years later than the European norm Egil Johansson also developed imaginative data analysis techniques that help historians around the world to better picture the complete human cast of the past With the help of numerous contributors Johansson founded a giant database of church records and other information which now can help the understanding of preindustrial society Johansson's work spans over many aspects of literacy and social history and their respective relation to religion and gender

Similarity in Difference Christer Lundh, Satomi Kurosu, 2014-12-12 A study of marriage in preindustrial Europe and Asia that goes beyond the Malthusian East West dichotomy to find variation within regions and commonality across regions Since Malthus an East West dichotomy has been used to characterize marriage behavior in Asia and Europe Marriages in Asia were said to be early and universal in Europe late and non universal In Europe marriages were supposed to be the result of individual choices but in Asia decided by families and communities This book challenges this binary taxonomy of marriage patterns and family systems Drawing on richer and more nuanced data the authors compare the interpretations based on aggregate demographic patterns with studies of individual actions in local populations Doing so they are able to analyze simultaneously the influence on marriage decisions of individual demographic features socioeconomic status and composition of the household and local conditions and the interactions of these variables They find differences between East and West but

also variation within regions and commonality across regions The book studies local populations in Sweden Belgium Italy Japan and China Rather than a simple comparison of aggregate marriage patterns it examines marriage outcomes and determinants of local populations in different countries using similar data and methods The authors first present the results of comparative analyses of first marriage and remarriage and then offer chapters each of which is devoted to the results from a specific country Similarity in Difference is the third in a prizewinning series on the demographic history of Eurasia following *Life under Pressure* 2004 and *Prudence and Pressure* 2009 both published by the MIT Press
