### **Principles and Techniques of Supervision**

**Supervision** Jeffrey Glanz, Sally J. Zepeda, 2015-10-30 *Supervision: New Perspectives for Theory and Practice* co edited by two prominent scholars in the field. Jeffrey Glanz and Sally Zepeda draw attention to supervision as a function that is often misunderstood, underappreciated, and frequently controversial. Much has changed in the last two decades in the education world. These changes have inevitably influenced the theory and practice of supervision. This text includes some of the top scholars in the field in the USA to offer their insights to important topics and issues in supervision. To strike a balance, the editors also included award-winning practitioners who share their insights about supervision. We hope that this volume raises awareness to several critical issues that affect teachers, administrators, and policy makers. With the range of topics associated with supervision, we believe that the authors offer an informed and lively discussion of supervision in the present and future contexts of schools. Through our efforts, we believe that the multiple contexts in which supervision unfolds are examined alongside trends including high-stakes testing, the uses of data, the work superintendents do to supervise principals, and the type of supervision that builds a just and caring school culture that is culturally relevant and respectful for teachers and leaders.

**Budgetary Supervision In China: An Institutional Perspective Of Provincial People's Congress** Shujian Zhang, 2014-12-16 This book studies the problems of the budgetary supervision system of China's provincial People's Congress and analyzes their causes and provides the solutions. The author explores the topic from the perspective of the provincial People's Congress, which is at the intermediate level in the Chinese political hierarchy, as the corresponding level of provincial government possesses local legislative power. With further normalization of the central government management, local governance will be critical to political development in the future. Improvement of the budgetary supervision system of the provincial People's Congress will promote legal construction of the local government, which will necessarily affect the game of standardization of the powers of the government and civil rights. The book also analyzes the power of amendment of draft budget and legal construction of the disclosure of budget information, especially investigating the provincial power structure during the process of budgetary supervision and uncovering the problems and difficulties in the budgetary supervision system in China.
