Principles Of Home Inspection Chimneys And Wood Heating

Carson Dunlop

Principles Of Home Inspection Chimneys And Wood Heating:

Principles of Home Inspection: Chimneys & wood heating Carson Dunlop, 2003 Virtually every home heating system requires a chimney or vent making this an important topic for both home inspectors and homeowners The text explores the efficiency and life expectancy of various types of chimney and wood heating methods Components and potential problems of wood furnaces are discussed for regions of the country where this heating method is common Wood stoves and wood fireplaces popular throughout North America are also covered

Principles of Home Inspection: Systems & standards Carson Dunlop, 2003 This introductory overview of the major home systems gives students a solid foundation for beginning a career in home inspection This comprehensive text gets students out into the field quickly while serving as a springboard for the 13 advanced electives in the Principles line Systems Standards focuses on system and component problems their practical implications and inspections strategies for finding them No other single volume offers both the breadth and depth of this introduction

Principles of Home Inspection: Air conditioning & heat pumps Carson Dunlop, 2003 This comprehensive book is designed to provide you with knowledge and skills you need to inspect air conditioning systems and heat pumps like an experienced professional home inspector

Principles of Home Inspection: Steam, electric & wall Carson Dunlop, 2003 Steam electric and wall floor heating methods are often neglected in other texts because they are not as widely used as other methods For home inspectors who expect to see them in their practice this book offers a solid introduction to the materials components operating principles and safety controls of these heating methods

Principles of Home Inspection: Electrical systems Carson Dunlop, 2003 Only half of a home inspector's challenge is technical the other half is effective communication with clients This text is designed both for beginners who need an in depth introduction and more advanced practitioners looking for tips sample dialogue and documents and an understanding of the scope and ethical aspects of a home inspection The text includes Inspection Checklists that summarize the important components and problems home inspectors will encounter and can be used for actual inspections

Principles of Home Inspection: Structure Dearborn Home Inspection (Firm), 2003 Structural conditions are often the most serious and expensive area to correct making this an important topic for potential homeowners They are also among the most difficult for home inspectors to identify This comprehensive text carefully walks inspectors through challenging topics such as cracks soil conditions footings and distinguishing solid masonry from masonry veneer walls

Principles of Home Inspection: Hot water boilers Carson Dunlop, 2003 This comprehensive text is designed both for beginners who need an in depth introduction to hot water boiler inspection and more advanced practitioners looking to deepen their understanding Along with boiler components and conditions the book covers advantages and disadvantages of hot water heating differences between boilers and furnaces efficiency sequence of operation and life expectancy

Principles of Home Inspection: Gas & oil furnances Carson Dunlop, 2003 Home inspectors must understand how heat is generated how it is spread around how it is controlled and how it

is made safe This text also discusses how to discard the waste products of heating how much heat is needed and why homes can be uncomfortable even when enough heat is provided This in depth book addresses these issues for two of the most common home heating methods gas and oil furnances *Principles of Home Inspection: Plumbing* ,2003 This text is organized into major sections on supply plumbing water heaters drain waste and vent plumbing and fixtures and faucets The mechanics and practical implications of water flow and pressure are covered first to prepare for discussions of specific problems that can occur Summary tables of piping materials help readers keep track of the variety of components they will see in practice The text also delves into safety and efficiency issues **Principles of Home Inspection: Insulation** ,2003 The inspection of insulation and ventilation systems is particularly challenging because so little of the systems can be seen This text discusses how insulation air vapor barriers and ventilations systems work to keep houses comfortable and structurally sound Basics of heat transfer and vapor movement are covered first to lay the groundwork for discussion of insulation and ventilation materials systems and applications Thorough treatment of venting living spaces is provided including balanced ventilation systmes and heat recovery ventilators HRV s **Principles of Home Inspection: Communication & professional practice** Carson Dunlop,2003 Only half of a home inspector s challenge is technical the other half is effective communication with clients This text is designed both for beginners who need an in depth introduction and more advanced practitioners looking for tips sample dialogue and documents and an understanding of the scope and ethical aspects of a home inspection The text includes Inspection Checklists that summarize the important components and problems home inspectors will encounter and can be used for actual inspections **Principles of Home Inspection: Roofing** Carson Dunlop,2003 The majority of roof leaks are flashing related so this critical topic is covered in depth including valley chimney pipe sidewall hip and ridge skylight drip edge and dormer flashings For inspectors in cool climates the important topic of ice damming is also covered **Principles of Home Inspection: Systems & standards. Review questions & answers** ,2003 Principles of Home Inspection Carson Dunlop,2003 This text is organized into major sections on exterior cladding exterior structures and surface water control and landscaping Wall surfaces are covered in a material by material organization including thorough treatment of synthetic stucco EIFS a challenging issue for home inspectors *Principles of Home Inspection: Interiors* Carson Dunlop,2003 The interior is often the portion of the home inspection of most interest to home buyers From floors to ceilings this comprehensive text provides an in depth introduction to the major components of a home s interior The book discusses strategies for inspecting floors walls ceilings trim counters cabinets stairs windows skylights solariums and doors The text additionally gives special consideration to the pervasive problem of wet basements **Essentials of Home Inspection: Heating II** Carson Dunlop & Associates,2003-03-25 **Principles of Home Inspection** Joseph G. McNeill,1979 *Principles of Home Inspection* ,2020 offers a basement to chimney guide to the modern inspection profession For every major house system this book explains the component problems

their practical implications and the inspection strategies for finding them include s hundreds of detailed technical illustrations ideal text for both aspiring and veteran home inspectors Back cover The Illustrated Home Dearborn Home Inspection (Firm),2003 Featuring over 1 500 technically precise illustrations of a home s major systems The Illustrated Home provides a one of a kind resource to home inspectors new homeowners and real estate professionals alike This must have reference book provides an impressive collection of detailed home illustrations developed by expert home inspectors and
