Political Thought and International Relations Duncan Bell,2010-12-02 Political realism dominated the field of International Relations during the Cold War Since then however its fortunes have been mixed pushed onto the backfoot during 1990s it has in recent years retuned to the centre of scholarly debate Despite its prominence in International Relations however realism plays only a marginal role in contemporary international political theory It is often associated with a form of crude realpolitik that ignores the ethical dimensions of political life The contributors to this book explore alternative understandings of realism seeing it as a diverse and complex mode of political and ethical theorising rather than simply a value neutral social scientific theory or the unreflective defence of the national interest A number of the chapters offer critical interpretations of key figures in the canon of twentieth century realism including Hans Morgenthau E H Carr and Reinhold Niebuhr Others seek to widen the lens through which realism is usually viewed exploring the writings of Martin Heidegger Hannah Arendt and Leo Strauss Finally a number of the contributors engage with general issues in international political theory including the meaning and value of pessimism the relationship between power and ethics the purpose of normative political theory and what might constitute political reality Straddling International Relations and political theory this book makes a significant contribution to both fields

Political Thought in Japanese Historical Writing John S. Brownlee,2006-01-01 It was only at the onset of the Tokugawa period 1602 1868 that formal political thought emerged in Japan Prior to that time Japanese scholars had concentrated rather on questions of legitimacy and authority in historical writing producing a stream of works Brownlee s illuminating study describes twenty of these important historical works commencing with Kojiki 712 and Nihon Shoki 720 and ending with

Tokushi Yoron 1712 by Arai Hakuseki Historical writing would cease to be the sole vehicle for political discussion in Japan in the eighteenth century as Chinese Confucian thought became dominant The author illustrates how the first works conceptualized history as imperial history and that subsequent scholars were unable to devise alternative schemes or patterns for history until Arai Hakuseki Following the first histories the central concern became the question of the relation of the Emperors to the new powers that arose Brownlee examines the genre of Historical Tales and how it treated the Fujiwara Regents the War Tales dealing with warriors at large and specific works of historical argument depicting the Bakufu in relation to the Emperors By interposing the works of Gukansh 1219 by Jien Jinn Sh t ki 1339 by Kitabatake Chikafusa and Tokushi Yoron by Arai Hakuseki a clear pattern demonstrating the sequential development of complexity and sophistication in handling the question is revealed Japanese political thought thus developed independently towards rationalism and secularism in early modern times
