Chaucer's Pardoner's Prologue and Tale Marilyn Sutton, 2000-01-01 The Chaucer Bibliography series aims to provide annotated bibliographies for all of Chaucer's work This book summarizes 20th century commentaries on Chaucer's Pardoner's Prologue and Tale **The Stationers' Company and the Printers of London, 1501-1557** Peter W. M.

Blayney, 2013-11-21 This major revisionist reference work explains for the first time how the Stationers Company acquired both a charter and a nationwide monopoly of printing In the most detailed and comprehensive investigation of the London book trade in any period Peter Blayney systematically documents the story from 1501 when printing first established permanent roots inside the City boundaries until the Stationers Company was incorporated by royal charter in 1557 Having exhaustively re-examined original sources and scoured numerous archives unexplored by others in the field Blayney radically revises accepted beliefs about such matters as the scale of native production versus importation privileges and patents and the regulation of printing by the Church Crown and City His persistent focus on individuals most notably the families rivals and successors of Richard Pynson John Rastell and Robert Redman keeps this study firmly grounded in the vivid lives and careers of early Tudor Londoners **The Pardoner's Tale** Geoffrey Chaucer, 1835 **Print Culture and the Medieval**

Author Alexandra Gillespie, 2006-11-30 *Print Culture and the Medieval Author* is a book about books Examining hundreds of early printed books and their late medieval analogues Alexandra Gillespie writes a bibliographical history of the poet Geoffrey Chaucer and his follower John Lydgate in the century after the arrival of printing in England Her study is an important new contribution to the emerging sociology of the text in English literary and historical studies At the centre of this study is a familiar question what is an author The idea of the vernacular writer was already contested and unstable in medieval England Gillespie demonstrates that in the late Middle Ages it was also a way for book producers and readers to

mediate the risks commercial political religious and imaginative involved in the publication of literary texts Gillespie's discussion focuses on the changes associated with the shift to print scribal precedents for these changes and contemporary understanding of them The treatment of texts associated with Chaucer and Lydgate is an index to the sometimes flexible sometimes resistant responses of book printers copyists decorators distributors patrons censors owners and readers to a gradual but profoundly influential bibliographical transition The research is conducted across somewhat intractable boundaries Gillespie writes about medieval and modern history about manuscript and print about canonical and marginal authors about literary works and books as objects In the process she finds new meanings for some medieval vernacular texts and a new place for some old books in a history of English culture

The Plays of John Heywood John Heywood, Richard Axton, 1991 The series is performing an important service by providing fully annotated editions of Tudor humanists and playwrights in the original Tudor English with glossaries and listing of textual variants and doubtful readings COMPARATIVE DRAMA A first rate edition that substantially advances the cause of scholarship COMPARATIVE DRAMA First complete and fully annotated collection of John Heywood's plays in the original language It makes possible a reevaluation of his remarkable achievement as actor playwright and an appreciation of his lively contribution to the English language In all their experimental variety the comedies are seen to have the stamp of an idiosyncratic theatrical intelligence coupled with a surprising seriousness and Heywood emerges as a resourceful apologist for traditional Catholic doctrine in a time of Reformation In arguing for a new chronology the editors suggest that Henry VIII's servant and entertainer was capable of refreshing irreverence and political daring Contents Witty and Witles Johan Johan The Pardoner and the Frere The Four PP A Play of Love The Play of the Wether Notes Appendices Verses from a lost Play of Reason Translation of RICHARD AXTON is a Fellow of Christ's College Cambridge and University lecturer in English PETER HAPP is the former Principal of Barton Peveril Sixth Form College

Joseph A. Dane, 2016-12-05 In this book Joseph Dane critiques the use of material evidence in studies of manuscript and printed books by delving into accepted notions about the study of print culture He questions the institutional and ideological presuppositions that govern medieval studies descriptive bibliography and library science Dane begins by asking what is the relation between material evidence and the abstract statements made about the evidence ultimately he asks how evidence is to be defined The goal of this book is to show that evidence from texts and written objects often becomes twisted to support pre existing arguments and that generations of bibliographers have created narratives of authorship printing reading and editing that reflect romantic notions of identity growth and development The first part of the book is dedicated to medieval texts and authorship materials include Everyman Chaucer's Legend of Good Women the Anglo Norman Le Seint Resurrection and Adam de la Helle's Le Jeu de Robin et Marion The second half of the book is concerned with abstract notions about books and scholarly definitions about what a book actually is chapters include studies of basic bibliographical concepts Ideal Copy and the application of such a notion in early editions of Chaucer the combination of manuscript and printing in the books of Colard Mansion and finally examples of the organization of books by an early nineteenth century book collector Leander Van Ess This study is an important contribution to debates about the nature of bibliography and the critical institutions that have shaped its current practice *The Malory Debate* Bonnie Wheeler, Robert L. Production and Provenance, 2025-01-15 The aim of this volume is to re evaluate some of the temporal intermedial and geographical boundaries built around a long established discipline the study of incunabula This volume starts by setting out the past and future landscapes of incunabula studies looking particularly at copy specific features Subsequent chapters use research on specific editions or subjects in order to engage with the two key themes of the book production and provenance of early printed books By examining a wide range of copy specific aspects of individual books the volume showcases how printed books were produced in the fifteenth century and subsequently used and transformed by readers and owners during their long journeys till they fell into their current owners hands
