Doing Prison Work Elaine M Crawley, 2013-01-11 This book provides a much needed sociological account of the social world of the English prison officer making an original contribution to our understanding of the inner life of prisons in general and the working lives of prison officers in particular As well as revealing how the job of the prison officer and of the prison itself is accomplished on a day to day basis the book explores not only what prison officers do but also how they feel about their work In focusing on how prison officers feel about their work this book makes a number of interesting revelations about the essentially domestic nature of much of the work they do about the degree of emotional labour invested in it and about the performance nature of many of the day to day interactions between officers and prisoners Finally the book follows the prison officer home after work showing how the prison can spill over into their home lives and family relationships Based on extensive ethnographic fieldwork in different types of prisons including interviews with prison officers wives and children as well as prison officers themselves this book will be essential reading for all those with an

interest in how prisons and organisations more generally operate in practice The English Prisoner Tig Hague,2009-04-02 In July 2003 young Englishman Tig Hague was on a routine business trip to Moscow when he was arrested at the airport Within hours he was accused of a major crime Next he was tried and transported hundreds of miles to the remote forsaken wastes of Mordovia And prison camp Zone 22 Sentenced to spend the next four years there every day was a struggle against disease freezing temperatures malnutrition the unpredictable sometimes terrifying behaviour of the camp guards and his fellow prisoners But most of all it was a fight to ensure his own psychological survival Only the thought of his girlfriend Lucy fighting Russia s corrupt and labyrinthine legal system kept Tig sane and gave him a reason to see each day to its end The English Prisoner is an extraordinary story of endurance as one man plucked from his normal everyday life is forced to reach deep inside himself to survive life in one of the bleakest outposts in the world Russia s vast and unforgiving forgotten zone

,1917 *Prison Worlds* Didier Fassin,2017-05-23 The prison is a recent invention hardly more than two centuries old yet it has become the universal system of punishment How can we understand the place that the correctional system occupies in contemporary societies What are the experiences of those who are incarcerated as well as those who work there To answer these questions Didier Fassin conducted a four year long study in a French short stay prison following inmates from their trial to their release He shows how the widespread use of imprisonment has reinforced social and racial inequalities and how advances in civil rights clash with the rationales and practices used to maintain security and order He also analyzes the concerns and compromises of the correctional staff the hardships and resistance of the inmates and the ways in which life on the inside intersects with life on the outside In the end the carceral condition appears to be irreducible to other forms of penalty both because of the chain of privations it entails and because of the experience of meaninglessness it comprises

Examined through ethnographic lenses prison worlds are thus both a reflection of society and its mirror At a time when many countries have begun to realize the impasse of mass incarceration and question the consequences of the punitive turn this book will provide empirical and theoretical tools to reflect on the meaning of punishment in contemporary societies

The Older Prisoner Diete Humblet, 2021-01-23 This book critically explores the world of older prisoners to provide a more nuanced understanding of imprisonment at old age Through an ethnographical study of male and female older prisoners in two Belgian prison settings one in which older prisoners are integrated and one in which they are segregated it informs debates and seeks to recognise ageist discourse attitudes practices in prison The Older Prisoner seeks to situate the older prisoner from both a penological and gerontological perspective organised around the following broad themes the construction of the older prisoner the physical prison world the social prison world surviving prison and giving meaning The book allows readers to navigate between contrasting perspectives and voices rather than reinforcing traditional narratives and prevailing discourses on the older prisoner In doing so it hopes to open up a broader dialogue on ageing and punishment It also offers insights into the concept of meaning in life as an analytical tool to study prisoners
