Regan,2000-11-09 While technological threats to personal privacy have proliferated rapidly legislation designed to protect privacy has been slow and incremental In this study of legislative attempts to reconcile privacy and technology Priscilla Regan examines congressional policy making in three key areas computerized databases wiretapping and polygraph testing In each case she argues legislation has represented an unbalanced compromise benefiting those with a vested interest in new technology over those advocating privacy protection Legislating Privacy explores the dynamics of congressional policy formulation and traces the limited response of legislators to the concept of privacy as a fundamental individual right According to Regan we will need an expanded understanding of the social value of privacy if we are to achieve greater protection from emerging technologies such as Caller ID and genetic testing Specifically she argues that a recognition of the social importance of privacy will shift both the terms of the policy
