There are also strict laws in the US that govern the processing of personal data. Over a hundred countries in the world have a comprehensive data protection law, and it is very easy for individuals and companies to breach these laws. Data or privacy breaches are on the rise, and businesses can be prosecuted under data protection laws. Fines for non-compliance can be from \$1 million in Singapore up to three years jail in Malaysia and up to 4% of global revenues for EU countries. The focus of this book is operational compliance. The book is for everyone as all of us, in the course of our daily work process, handle personal data. Organised into sections, each idea provides practical advice and examples of how a breach of the law may happen.
