## **Kierkegaard and His Danish**

**Contemporaries: Philosophy, politics and social theory** Jon Bartley Stewart, 2009 The present volume features articles that employ source work research in order to explore the individual Danish sources of Kierkegaard's thought The volume is divided into three tomes in order to cover the different fields of influence Tome I is dedicated to exploring the sources that fall under the rubrics Philosophy Politics and Social Theory With regard to philosophy Kierkegaard read the works of all the foremost Danish thinkers of the time and their German antecedents in particular Kant Schelling and Hegel While he was sympathetic to individual ideas offered by this tradition he was generally keen to criticise the German model of philosophy and to propose a new paradigm for philosophical thought that was more in tune with lived existence Kierkegaard also experienced the dynamic period in history that saw the great upheavals throughout Europe in connection with the revolutions of 1848 and the First Schleswig War While it has long been claimed that Kierkegaard was not interested in politics recent research supports a quite different picture To be sure he cannot be regarded as a political scientist or social theorist in a traditional sense but he was nonetheless engaged in the issues of his day and in his works one can certainly find

**Tuskegee's Truths** Susan M. Reverby, 2012-12-01 Between 1932 and 1972 approximately six hundred African American men in Alabama served as unwitting guinea pigs in what is now considered one of the worst examples of arrogance racism and duplicity in American medical research the Tuskegee syphilis study Told they were being treated for bad blood the nearly four hundred men with late stage syphilis and two hundred disease free men who served as controls were kept away from appropriate treatment and plied instead with placebos nursing visits and the promise of decent burials Despite the publication of more than a dozen reports in respected medical and public health journals the study continued for forty years until extensive media coverage finally brought the experiment to wider public knowledge and forced its end This edited volume gathers articles contemporary newspaper accounts selections from reports and letters reconsiderations of the study by many of its principal actors and works of fiction drama and poetry to tell the Tuskegee story as never before Together these pieces illuminate the ethical issues at play from a remarkable breadth of perspectives and offer an unparalleled look at how the study has been understood over time

**The Concept of Abuse in EU Competition Law** Pinar Akman, 2012-02-03 The objective s of Article 102 TFEU what exactly makes a practice abusive and the standard of harm under Article 102 TFEU have not yet been settled This lack of clarity creates uncertainty for businesses and coupled with the current state of economics in this area raises an important question of legitimacy Using law and economic approaches this book inquires into the possible objectives of Article 102 TFEU and proposes a modern approach to interpreting abuse In doing so this book establishes an overarching concept of abuse that conforms to the historical roots of the provision to the text of the provision itself and to modern economic thinking on unilateral conduct This book therefore inquires into what Article 102 TFEU is about what it can be about and what it should be about regarding both objectives and scope The book demonstrates that the separation of exploitative abuse from exclusionary abuse is artificial and unsound It examines the roots of Article 102 TFEU and the historical context of the adoption of the Treaty the case law

policy and literature on exploitative abuses and where relevant on exclusionary abuses The book investigates potential objectives such as fairness and welfare as well as the potential conflict between such objectives Finally it critically assesses the European Commission s modernisation of Article 102 TFEU before proposing a reformed approach to abuse which is centred on three necessary and sufficient conditions exploitation exclusion and a lack of an increase in efficiency
