Quiltworks Across Canada Eleven Contemporary Workshops:

Ouiltworks Across Canada Gail P. Hunt, 1996 Three five star reviews at amazon com I own more than 900 guilt related books but this book surpasses all of them Vivian E Ahern Florida Great Lakes - Great Quilts Marsha MacDowell, 2001 Narrative and Discursive Approaches in Entrepreneurship Chris Steyaert, 2005-01-01 Includes how to information the four books comprising the series would certainly be a valuable addition to any entrepreneurship library However each book also stands alone as an individual purchase Lorraine Warren International Journal of Entrepreneurial Behaviour and Research The book delivers what it promises a map of the uses of narrative methods in entrepreneurship studies It is both an interesting contribution to the field and an important methodological handbook for all entrepreneurship researchers who are thinking of adopting qualitative methods in their inquiries However it may also be read with advantage by other researchers using ethnography as their main methodological approach to social studies. The aim of the book is to show how narratives can enrich entrepreneurship studies a goal that in my opinion is aptly fulfilled Monika Kostera Scandinavian Journal of Management the contributors in this text breathe fresh and imaginative linguistic resources and narrative discursive frames of reference into the inquiry of entrepreneurial activities. The anecdote the narrative the metaphorical the discursive and the dramaturgical are significant therefore not only because they bring to the surface voices emotions processes and the relationality of everyday entrepreneurial activity that have possibly been previously silenced But also to paraphrase Steyaert these approaches highlight the controversial and interactive aspects of the research process The text is welcome because it treats narrative in a serious and scholarly way Denise Fletcher International Small Business Journal In their edited book Narrative and Discursive Approaches in Entrepreneurship Daniel Hjorth and Chris Steyaert provide a fascinating glimpse into a perspective on entrepreneurship that will be enlightening for many readers Entrepreneurship authors typically talk about theory methods and data as if a straight forward linear process united them all and making sense of entrepreneurship was simply a matter of knowing how to interpret one s findings By contrast the authors in this volume propose narrative and discursive approaches in which the contributing authors emphasize rich description reflexive conceptualization and interpretations offered as part of the story itself They draw upon an international set of cases including Russia Sweden Denmark Norway Venezuela and North America The cases themselves make for fascinating reading quite apart from what we learn about the difficulties of imposing a particular interpretation on a given story For example taxi drivers in Caracas management consultants in Denmark and women entrepreneurs in northern Norway all make for fascinating narratives from which to understand the entrepreneurial process Unlike many edited books which have no plot the editors have included opening and closing sections that link the chapters offer alternative readings of them and propose new and expansive ways of thinking about entrepreneurship Howard Aldrich University of North Carolina at Chapel Hill US Daniel Hjorth and Chris Steyaert set out to advance the study of entrepreneurship by refocusing the lens of discovery from economics management

and marketing to other paradigmatic stances in social sciences and humanities like anthropology and literary studies The result is a provocative collection of chapters that inspire the reader to consider and explore new ideas and research practice that incorporate both the context and place of entrepreneurship From the perceptive insights of the editors to the rigorous and provocative discourse of the chapters and thoughtful responses in the conclusion emerges a story in the best of storytelling tradition about how a linguistic turn can rouse new insights The editors ask how do these texts move you they entice provoke challenge stimulate and guide Their implications should be far reaching and required reading for any student To Honor and Comfort Marsha MacDowell, C. Kurt Dewhurst, 1997 Explores the Canadian Books in Print ,1999 of t long history and contemporary expression of the art of guiltmaking in Native Hawaiian and North American Indian A Fine Line Gail Crawford, 1998-10-01 Featuring six decades of outstanding work by Ontarios design communities craftspeople in colour and black and white photographs American art directory ,1995 **Direct Marketing List Source** ,1994-04
