The Medieval Economy of Salvation Adam J. Davis, 2019-12-15 In *The Medieval Economy of Salvation* Adam J Davis shows how the burgeoning commercial economy of western Europe in the twelfth and thirteenth centuries alongside an emerging culture of Christian charity led to the establishment of hundreds of hospitals and leper houses Focusing on the county of Champagne he looks at the ways in which charitable organizations and individuals townspeople merchants aristocrats and ecclesiastics saw in these new institutions a means of infusing charitable giving and service with new social significance and heightened expectations of spiritual rewards In tracing the rise of the medieval hospital during a period of intense urbanization and the transition from a gift economy to a commercial one Davis makes clear how embedded this charitable institution was in the wider social cultural religious and economic fabric of medieval life Open Access edition funded by the National Endowment for the Humanities

The Persecution of the Knights Templar Alain Demurger, 2019-01-01 The trial of the Knights Templar is one of the most infamous in history Accused of heresy by the king of France the Templars were arrested and imprisoned had their goods seized and their monasteries ransacked Under brutal interrogation and torture many made shocking confessions denial of

Christ desecration of the Cross sex acts and more This narrative follows the everyday reality of the trial from the early days of scandal and scheming in 1305 via torture imprisonment and the dissolution of the order to 1314 when leaders Jacques de Molay and Geoffroy de Charnay were burned at the stake Through first hand testimony and written records of the interrogations of 231 French Templars this book illuminates the stories of hundreds of ordinary members some of whom testified at the trial as well as the many others who denied the charges or retracted their confessions This is a deeply researched and immersive account that gives a striking vision of the relentless persecution and the oft underestimated resistance of the once mighty Knights Templar **La Cote des Grands Vins de France 2014** Alain Bradfer,Yves

Jochen Schenk, Mike Carr, Taylor & Francis (Londyn), 2016 *The Templar Order in North-west Italy* Elena Bellomo, 2008
Based on extensive archival searches this book provides the first reconstruction of the Templar presence in North west Italy giving general insights into the development and organization of the Order in this area and providing an outline of the history of each Templar house *The Templars and their Sources* Karl Borchardt, Karoline Döring, Philippe Josserand, Helen Nicholson, 2017-01-20
Even 700 years after the suppression of the Order of the Temple and the execution of the last grandmaster Jacques de Molay there is no shortage of publications on this influential military order Yet unlike other medieval institutions the Templars are subject to speculative fiction and popular myth which threaten to swamp the fruits of scholarly endeavour Fortunately recent years have produced a thriving academic scholarship which is challenging these myths More and more sources are currently being edited particularly those for the trial of the Templars 1307 1312 Others are still awaiting indepth study among them surprisingly the greater part of the charters that cover more than 150 years of the Order s history The papers in this volume step into this gap and critically evaluate new directions in Templar studies on the basis of as yet unedited source material Open issues and desiderata regarding the sources are discussed and from a range of inspiring results a new status quaestionis is proposed that will not only provide a better understanding of the Order s archaeological economical religious administrative and military history but also set new points of departure for the editing of charters and administrative documents The papers here are grouped into six sections focusing on the headquarters of the Order its charters manpower and finance religious life and finally the suppression and the Order s afterlife *Neanderthal Lifeways, Subsistence and Technology* Nicholas J. Conard, Jürgen Richter, 2011-02-11
The 150th anniversary of the discovery of the famous Neanderthal fossils gave reason for an international and interdisciplinary symposium in Bonn Germany The present book arose from this congress and focuses on multiple aspects of archaeological investigation on Neanderthal lifeways In depth studies of top ranking scientists provide a detailed and comprehensive survey of contemporary research on our Pleistocene relatives Examinations and debates are embedded in a variety of regions and time frames Chronology subsistence land use and cultural adaptations among late Neanderthals form the major trajectories of the book The wide range of approaches involved leads to an increasing understanding of the facets of and the variability of Neanderthal behavioural patterns The present volume is complemented by a paleontologically orientated publication of the same congress edited by Gerd Christian Weniger and Silvana Condemi **The Counts of Tripoli and Lebanon in the Twelfth Century** Kevin James Lewis, 2017-04-21
The county of Tripoli in what is now North Lebanon is arguably the most neglected of the so called crusader states established in the Middle East at the beginning of the twelfth century The present work is the first monograph on the county to be published in English and the first in any western language since 1945 What little has been written on the subject previously has focused upon the European ancestry of the counts of Tripoli a specifically Southern French heritage inherited from the famous crusader Raymond IV of Saint Gilles Kevin Lewis argues that past historians have

at once exaggerated the political importance of the counts French descent and ignored the more compelling signs of its cultural impact highlighting poetry composed by troubadours in Occitan at Tripoli's court For Lewis however even this belies a deeper understanding of the processes that shaped the county What emerges is an intriguing portrait of the county in which its rulers struggled to exert their power over Lebanon in the face of this region's insurmountable geographical forces and its sometimes bewildering always beguiling diversity of religions languages and cultures The counts of Tripoli and contemporary Muslim onlookers certainly viewed the dynasty as sons of Saint Gilles but the county's administration relied upon Arabic its stability upon the mixed loyalties of its local inhabitants and its very existence upon the rugged mountains that cradled it This book challenges prevailing knowledge of this little known crusader state and by extension the medieval Middle East as a whole

Journal of Greek Archaeology Volume 3 2018, 2018-10-31 True to its initial aims the latest volume of the Journal of Greek Archaeology runs the whole chronological range of Greek Archaeology while including every kind of material culture

The Military Orders Volume VII Nicholas Morton, 2019-08-05 The Military Orders essay collections arising from the quadrennial conferences held at Clerkenwell in London have come to represent an international point of reference for scholars This present volume brings together twenty nine papers given at the seventh iteration of this event The studies offered here cover regions as disparate as Prussia Iberia and the Eastern Mediterranean and chronologically span topics from the Twelfth to the Twentieth century They draw attention to little used textual and non textual sources advance challenging new methodologies and help to place these military religious institutions in a broader context

Myth and Reality: Studies on the Templars and Hospitallers, Medieval Narratives, and the Trial of the Templars Helen J. Nicholson, 2025-10-28 Spanning thirty five years of scholarly research the articles in this collection represent key research findings from Helen J Nicholson's studies of the military religious orders and the crusades Ranging across subjects as diverse as the Templars religious practices Arthurian romance inspired by the events of the Third Crusade medieval European Christians views of Muslims and a heresy investigation in Ireland these articles reflect Nicholson's research into the Templars and Hospitallers as religious institutions medieval European fictional literature as an historical source and the trial of the Templars Aimed at university students scholars and enthusiasts on the military orders this volume makes this research available again to a new generation of readers

Crusading and Archaeology Vardit R. Shotten-Hallel, Rosie Weetch, 2020-11-03 Between the eleventh and fifteenth centuries the social and cultural worlds of medieval Europe and the Eastern Mediterranean were transformed by the religious impetus of the crusades Today we bear witness to these transformations in the material and environmental record revealed by new archaeological excavations and reappraisals of museum collections This volume highlights new archaeological knowledge being developed by scholars working in the fields of history archaeology numismatics and architecture to demonstrate its potential to change and augment our understanding of the crusades The 16 chapters in this volume deploy a contemporary scientific approach to
