How to care for a pet rabbit Owen Jones, 2022-09-28 Rabbits are the third most popular household pet in the West and are gaining popularity in the rest of the world too This book aims to advise prospective owners on how to choose buy and take care of a pet rabbit It is said and I have found it to be true that rabbits are about as intelligent as your average cat or dog They live approximately the same length of time too but are less demanding and easier to feed In fact they are ideal for people who can t get out much or don t want to keep meat in the fridge or even in the house as they are one hundred percent vegetarian If you don t know much about rabbits you could be forgiven for thinking that a rabbit is a rabbit is a rabbit but in fact there are 370 classes of rabbit according to UK and USA rabbit organisations and they come from 70 different countries So there is plenty of scope in size and colour Not only that but owners will tell you that each rabbit has its

own distinctive personality much like a cat or a dog However in general we could say that rabbits are docile placid and friendly and don't appreciate rough handling or play Rabbits are also the third most popular pet in the UK and the fourth in the USA but third most popular with all age groups of twelve and above So you are in good company Translator Owen Jones PUBLISHER TEKTIME The Wild Side of Pet Rabbits Jo Waters,2005 Compares wild and domesticated rabbits including their living areas and habitats physical characteristics and social behaviors *Rabbit Handbook* David Taylor,1999 A family guide to buying keeping breeding **Getting IT Right - ICT Skills Students' Book 2 (Levels 4-5)** Alison Page,Tristram Shepard,1999 Designed to help pupils develop their IT capability and apply ICT across all subject areas in line with National Curriculum 2000 requirements This work offers pupil focused material which allows independent learning and progress at individual rates *Rabbitlopaedia* Meg Brown, Virginia Richardson,2000 Everything you need to know about rabbit care purchase nutrition breeding behavior and exhibiting **Why Does My Rabbit...?** Anne McBride,2011-02-01 Rabbits are now the third most popular pet in Britain but few owners truly understand their behavioural issues Many of the problems rabbits demonstrate can be avoided if their living conditions are adapted to follow their natural instincts and Dr Anne McBride shows readers how best to do this From clarifying how rabbits live and breed in the wild to detailing the instincts your pet rabbit has inherited Dr McBride explains what makes your rabbit act in certain ways Authoritative and accessible *Why Does My Rabbit* is the essential one stop guide to understanding rabbit behaviour With a range of common problems arranged alphabetically for easy to use accessibility the information in this book applies to all types of rabbits from hutch to house and fully covers the specific problems that can affect them Eulogy For A Brown Angel: A Gloria Damasco Mystery Lucha Corpi,2002-04-01 Eulogy for a Brown Angel began a new chapter in the mystery genre with the creation of the first Chicana detective in American literature Now available for the first time in paperback readers can discover or rediscover Lucha Corpi's dynamic detective Gloria Damasco in the classic novel that started it all A Chicano Civil Rights March has been disrupted by the Los Angeles police resulting in the gruesome death of a prominent reporter The tear gas has barely settled when a small defiled body is left on a street in Los Angeles A feisty political activist finds the murdered child and begins an investigation that will lead her on a trail of international conspiracy and bloody vengeance Before long two other people are dead and Gloria is determined to piece the mystery together no matter how long the search may last Adding to the mystery is Gloria Damasco's dark gift a puzzling extra sensory awareness that forces her to confront situations in which solutions demand more than reason and logic Eulogy for a Brown Angel is a fast paced and suspenseful novel packed with an assortment of interesting characters A member of the international writers circle Sisters in Crime Lucha Corpi brings the intrigue to a hard hitting conclusion in the picturesque Wine Country of Northern California *Princess of Pets: The Runaway Rabbit* Paula Harrison,2021-02-04 Ruby Palace is no place for pets But Princess Bea won't let royal rules stop her from helping animals in need A lost and frightened rabbit needs a safe place to stay Bea is sure the palace will be perfect and

Tracy Waterhouse leads a quiet, ordered life as a retired police detective, a life that takes a surprising turn when she encounters Kelly Cross, a habitual offender dragging a young child through town. Both appear miserable and better off without each other, so she decides Tracy in a snap decision that surprises herself as much as Kelly. Suddenly burdened with a small child, Tracy soon learns her parental inexperience is actually the least of her problems as much larger ones loom for her and her young charge. Pets and Their Problems. Maxwell Knight, 2013-10-22. *Pets and Their Problems: A Guide for Animal Lovers* deals with the ethics and problems of pet keeping. The author discusses the craze for unusual pets and legislation that requires exotic pet owners to have a license before owning or importing animals considered in a special group. The author also examines the sources of supply and the reason why people keep pets. He then discusses housing, temperature, sanitation, feeding, and nutritional needs. The author also describes in more detail the problem of difficult feeders: those normally healthy animals that do not feed readily, such as when changes in cage accommodations occur or when they are bored with the same food over time. High on the list of the author's priority is pet companion and occupation exercise play. Another interesting subject the author discusses is individuality, not within the species but as a pet with its own individual characteristics. The author notes that some experienced naturalists and zoologists are skeptical about marked individual personalities and behavioral characteristics of animals. The author also provides some tips in caring for unusual pets, such as monkeys, mongooses, and bush babies, galagos. This book can be helpful for pet owners, whether pet keeping is a hobby or a professional endeavor. It can be read by both beginning and established pet owners.
