Race-Ethnicity and Society Benjamin B Ringer, Elinor R. Lawless, 2025-06-30 First published in 1989 Race Ethnicity and Society comes as a usable and comprehensive text on race and ethnicity in the United States Ringer and Lawless set out to fill the gap in the literature by incorporating the positive lessons of the racially turbulent 1960 s and 70s Proposing a challenge to three conventional premises of many texts they argue that the treatment of racial minorities in America was qualitatively different from that experienced by the white immigrants that racism was not a mere aberration in American Society but was built into the very foundations of the society and that America s experience with minorities was not unique but can instead be located within the mainstream of European expansion and conquest Race Ethnicity and Society will be a standard source for students in the fields of sociology history and political science

The End of Black Studies Clovis E. Semmes, 2016-08-12 Following a history of racial oppression and segregation Black Americans were able to move in greater numbers into previously all or predominantly White colleges and universities However they encountered normative structures that excluded or distorted the Black experience and denied Black perspectives As a result Black studies grew up reconstructing the humanity of a historically oppressed devalued and exploited group Knowledge production in Black studies offers distinct insights into the strength and resiliency of the human spirit and poses exemplary models for

enlightened social change This book examines the foundational parameters and historical mission of the field of African American Studies which emerged from a broad based Black intellectual tradition defined by the metaproblem of cultural hegemony Semmes seeks to broaden our thinking about the scope and content of Black studies The End of Black Studies identifies Afrocentric or Black centered approaches to knowledge production that are distinctly different from yet inclusive of a historiographical emphasis on ancient Egypt but alternative to the claim of a singular African worldview This book will appeal to students and scholars interested in the field of Black Studies including African American studies Africana studies Africology and Pan African studies It will be a source of critical discussion for graduate seminars examining theory building and or knowledge production research and writing in Black studies The End of Black Studies has received the 2017 Outstanding Book Award from the National Council for Black Studies Read the Introduction for free online using our eBook widget *Racial Theories* Michael Banton,1998-04-28 3 Race as type **Civilization: Contents, Discontents, and Malcontents and Other Essays (c)** Stanford M. and Ethnicity Rodney D. Coates, 2004-10-01 Race and ethnicity much like water and air are all around us Yet race and ethnicity remain impervious to many of us Hence in this volume authors were challenged to think outside the box As such scholars were encouraged to dare to contemplate to evaluate and analyze issues regarding race and ethnicity from radically different perspectives This critical process required them to evaluate their own assumptions and those of their respective disciplines Therefore much like walking a tight rope without a net the scholars attempt to free themselves from the disciplinarian blinders that often preclude the development of fresh insights Collectively the papers challenge the way we conceive and perceive of race and ethnicity As a consequence they go past the ideological constraints that normally limit such discourse by disciplinarian boundaries or disciplinarian myopia Therefore these papers provide a critical reappraisal of race and ethnicity

E. Franklin Frazier and Black Bourgeoisie James E. Teele, 2002-05-02 When E Franklin Frazier was elected the first black president of the American Sociological Association in 1948 he was established as the leading American scholar on the black family and was also recognized as a leading theorist on the dynamics of social change and race relations By 1948 his lengthy list of publications included over fifty articles and four major books including the acclaimed Negro Family in the United States Frazier was known for his thorough scholarship and his mastery of skills in both history and sociology With the publication of Bourgeoisie Noire in 1955 translated in 1957 as Black Bourgeoisie Frazier apparently set out on a different track one in which he employed his skills in a critical analysis of the black middle class The book met with mixed reviews and harsh criticism from the black middle and professional class Yet Frazier stood solidly by his argument that the black middle class was marked by conspicuous consumption wish fulfillment and a world of make believe While Frazier published four additional books after 1948 Black Bourgeoisie remained by far his most controversial Given his status in American sociology there has been surprisingly little study of Frazier's work In E Franklin Frazier and Black Bourgeoisie a group of distinguished scholars remedies that lack focusing on his often scorned Black Bourgeoisie This in depth look at Frazier's controversial publication is relevant to the growing concerns about racism problems in our cities the limitations of affirmative action and the promise of self help

Lyman, 1992-01-01 1993 Mid South Sociological Association Book Award Robert E Park has long been recognized as one of the most influential thinkers in early American sociology yet virtually all of his works appearing before 1913 were published in popular magazines and were dismissed as nonsociological muckraking In Militarism Imperialism and Racial Accommodation An Analysis and
