Rethinking Multicultural Education Carol Korn-Bursztyn, Alberto M. Bursztyn Ph.D., 2002-03-30 Korn and Bursztyn and their contributors examine the cultural transitions that children make as they move between the cultures of home and school To better understand these transitions they explore how educators understand their students shifting experiences and examine how educators also negotiate transitions as they too move from home to school

each day The narratives or case studies reflect this shifting gaze from child to teacher to parents and take up the various relational configurations that these can form amongst and between each other They turn a critical eye toward instances of classroom practice and school life connecting personal knowledge with school change In some cases the authors draw directly on autobiographical material linking these to a reflective approach to teaching Avoiding the celebratory tone that often attends discussions of multiculturalism the authors address how diversity engages us in continual renegotiation of the personal and social The perspectives of educators and of teacher candidates are presented and the construction of cultural identity and its impact on schools explored In illuminating the complicated nature of cultural transitions and the obligation of schools to create places in which children and families of diverse backgrounds can thrive they highlight how multiculturalism can play a transformative role in the lives of children and schools A must reading for educators and graduate students in education school psychology guidance and counseling *History of Multicultural Education Volume 5* Carl A.

*Interculturality in Schools* Robyn Moloney, Maria

Lobytsyna, John De Nobile, 2022-07-26 This book provides a comprehensive study of professional learning courses in intercultural settings exploring how this impacts teachers and brings about change in classrooms culture across schools as a whole and children's lives. The authors argue that teachers and schools must raise the stakes globally in an intercultural practice grounded in educational equity and anti racism. Identifying the attributes that make a difference in teacher intercultural learning and change through analysis of both quantitative and qualitative data, the study throws up marked tensions and contradictions between the desire to explore both an abstract personal concept and achieve practical outcomes in schools. As case studies of two primary schools dig deep into teachers' lives, the book proposes a model of personal teacher interculturality which is constructed from the inside out. The potential of neglected spaces in schools for intercultural identity is also highlighted by images of new practice. This book is a supportive resource for schools or educational institutions in any global context that are seeking a fresh approach to intercultural education and holistic change.
