## **Race For The Presidency The Media And The Nominating Process:**

**Presidential Nominating Process** United States. Congress. House. Committee on House Administration. Subcommittee on Elections,1986      **Race for the Presidency** ,1978 Advance reading for an American Assembly on Presidential Nominations and the Media held at Seven Springs Center Mt Kisco New York May 1978      *Presidential Nominations and the Media* ,1978      **Campaigns That Matter** Jay Wendland,2017-06-30 Every four years Americans are inundated with campaign activities from candidates attempting to become the next president of the United States An under researched area of these campaign activities are campaign visits rallies town hall meetings and candidate meet and greets for example Almost all candidates conduct visits yet we do not have a good understanding of how they affect voters Wendland tackles four big questions throughout Campaigns That Matter 1 Do campaigns matter 2 Are campaign visits strategic 3 Do visits help mobilize voters 4 Do visits impact candidate preference Using a unique set of data that includes all visits conducted throughout the 2008 2012 and 2016 presidential nominating contests Wendland explores how these visits affected voters compared to traditional measures of advertisements campaign spending and momentum In doing so Wendland has provided us with a more comprehensive picture of how voters make decisions in the voting booth      **Race for the Presidency** American Assembly Staff,1978      Presidential Polls And The News Media Paul J Lavrakas,Michael Traugott,Peter V Miller,2019-06-26 Most news media are data rich but analysis poor when it comes to election polling Since election polls clearly have the power to influence campaigns and election post mortems it is important that spin not take precedence over significance in the reporting of poll results In this volume experts in the media and in academe challenge the conventional approaches that most news media take in their poll based campaign coverage The book reports new research findings on news coverage of recent presidential elections and provides a myriad of examples of how journalists and news media executives can improve their analysis of poll data thereby better serving our political processes      The Iowa Precinct Caucuses Hugh Winebrenner,Dennis J. Goldford,2010 Although some people refer to Iowa as flyover country presidential candidates and political reporters in the national press corps have no difficulty locating the state every four years at the beginning of presidential primary season When Iowa Democrats pushed forward their precinct caucuses in 1972 the Iowa caucuses became the first presidential nominating event in the nation Politicos soon realized the impact of Iowa s new status and along with the national media promoted the caucuses with a vengeance The Iowa Precinct Caucuses chronicles how the caucuses began how they changed and starting in 1972 how they became fodder for and manipulated by the mass media Hugh Winebrenner and Dennis J Goldford argue that the media have given a value to the Iowa caucuses completely out of proportion to the reality of their purpose and procedural methods In fact the nationally reported results are contrived by the Iowa parties to portray a distorted picture of the process As presidential primaries have grown in the media spotlight and superseded the parties conventions Iowa has become a political proving ground for the confident the hopeful and the

relatively unknown but at what cost to the country The third edition of this classic book has been updated to include the elections of 2000 which saw the first winner of the Iowa caucuses to reach the White House since 1976 of 2004 and the roller coaster fortunes of Howard Dean and John Kerry and of 2008 and the unlikely emergence of Barack Obama as a presidential contender

*Communication Yearbook 22* Michael Roloff, 2012-07-23 *Communication Yearbook 22* contains in depth literature reviews focused on an important topic in specialized areas as well as syntheses that describe scholarship in other domains Each chapter addresses an aspect of one of the most pressing issues currently facing individuals how to communicate with people from different backgrounds or cultures The first two chapters examine the ways sex differences and cross cultural differences affect communication behavior The following three chapters focus on harmful speech the effects of pornography on criminal sexual offenders and personalization of conflict Further chapters focus on argumentation organizational settings and government media relations as well as styles of customer service communication within families with aging parents and intercultural friendship

*Bifurcated Politics* Byron E. Shafer, 1988 Even today when it is often viewed as an institution in decline the national party convention retains a certain raw emotional populist fascination *Bifurcated Politics* is a portrait of the postwar convention as a changing institution a changing institution that still confirms the single most important decision in American politics With the 1988 elections clearly in mind Byron Shafer examines the status of the national party convention which is created and dispersed within a handful of days but nevertheless becomes a self contained world for participants reporters and observers alike He analyzes such dramatic developments as the disappearance of the contest over the presidential nomination and its replacement by struggles over the publicizing of various campaigns the decline of party officials and the rise of the organized interests and the large and growing disjunction between what is happening at the convention hall and what the public sees between the convention on site and the convention on screen He argues that despite its declining status the postwar convention has attracted and mirrored most of the major developments in postwar politics the nationalization of that politics and the spread of procedural reform a changing connection between the general public and political institutions even the coming of a new and different sort of American politics *Bifurcated Politics* tells the story of most of the postwar conventions along with the nominating campaigns that preceded them But it also develops a picture of the changing American politics around those stories It will become the definitive study of the national party convention

*Over the Wire and on TV* Michael J. Robinson, Margaret A. Sheehan, 1983-07-19 First the press became the media and now the media have become the Imperial Media or have they In this timely and comprehensive analysis Michael Robinson and Margaret Sheehan examine how the news media behaved or misbehaved in covering the 1980 presidential campaign Using the media's own traditional standards as a guide Robinson and Sheehan measure the level of objectivity fairness seriousness and criticism displayed by CBS News and United Press International between January and December of 1980 Drawing on statistical analyses of almost 6 000 news stories and

dozens of interviews with writers and reporters the authors reach convincing and sometimes surprising conclusions They demonstrate for example that both CBS and UPI strictly avoided subjective assessments of the candidates and their positions on the issues Both gave the major parties remarkably equal access But the media seem to give more negative coverage to front runners treating serious challengers less harshly Perhaps the most surprising finding is that networks were not more superficial than print CBS attended to the issues at least as often as UPI Robinson and Sheehan find television coverage more subjective more volatile and substantially more negative than traditional print But CBS behaved neither imperially nor irresponsibly in Campaign 80 The networks did however emulate the more highly charged journalism of the eastern elite print press By blending the quantitative techniques of social science and the tools of Washington based journalism Robinson and Sheehan have produced a book that will be essential reading for students and practitioners of politics public opinion research journalism and communications Lively and readable it should also appeal to anyone interested in the role of the news media in contemporary politics

**Presidential Primaries and the Dynamics of Public Choice** Larry M. Bartels, 2020-12-08 An illuminating look at how national political parties nominate presidential candidates This innovative study blends sophisticated statistical analyses campaign anecdotes and penetrating political insight to produce a fascinating exploration of one of America's most controversial political institutions the process by which our major parties nominate candidates for the presidency Larry Bartels focuses on the nature and impact of momentum in the contemporary nominating system He describes the complex interconnections among primary election results expectations and subsequent primary results that have made it possible for candidates like Jimmy Carter George Bush and Gary Hart to emerge from relative obscurity into political prominence in nominating campaigns In the course of his analysis he addresses questions central to any understanding or evaluation of the modern nominating process How do fundamental political predispositions influence the behavior of primary voters How quickly does the public learn about new candidates Under what circumstances will primary success itself generate subsequent primary success And what are the psychological processes underlying this dynamic tendency Bartels examines the likely consequences of some proposed alternatives to the nominating process

including a regional primary system and a one day national primary Thus the work will be of interest to political activists would be reformers and interested observers of the American political scene as well as to students of public opinion voting behavior the news media campaigns and electoral institutions
