Institutions Unbound David Brunsma, Keri Iyall Smith, Brian Gran, 2016-03-02 Institutions like education family medicine culture and law are

powerful social structures shaping how we live together As members of society we daily express our adherence to norms and values of institutions as we consciously and unconsciously reject and challenge them Our everyday experiences with institutions not only shape our connections with one another they can reinforce our binding to the status quo as we struggle to produce social change Institutions can help us do human rights Institutions that bridge nation states can offer resources including norms to advance human rights These institutions can serve as touch stones to changing minds and confronting human rights violations Institutions can also prevent us from doing human rights We create institutions but institutions can be difficult to change Institutions can weaken if not outright prevent human rights establishment and implementation To release human rights from their institutional bindings sociologists must solve riddles of how institutions work and determine social life This book is a step forward in identifying means by which we can loosen human rights from institutional constraints

Movements for Human Rights David L. Brunσμα,Keri Iyall Smith,Brian Gran,2016-09-07 How do people work together to advance human rights Do people form groups to prevent human rights from being enforced Why In what ways do circumstances matter to the work of individuals collectively working to shape human rights practices Human society is made of individuals within contexts tectonic plates not of the earth s crust but of groups and individuals who scrape and shift as we bump along competing for scarce resources and getting along These movements large and small are the products of actions individuals take in communities within families and legal structures These individuals are able to live longer yet continue to remain vulnerable to dangers arising from the environment substances struggles for power and a failure to understand that in most ways we are the same as our neighbors Yet it is because we live together in layers of diverse communities that we want our ability to speak to be unhindered by others use spirituality to help us understand ourselves and others possess a space and objects that are ours alone and join with groups that share our values and interests including circumstances where we do not know who our fellow neighbor is For this reason sociologists have identified the importance of movements and change in human societies When we collaborate in groups individuals can change the contours of their daily lives Within this book you will find the building blocks for human rights in our communities To understand why sometimes we enjoy human rights and other times we experience vulnerability and risk sociologists seek to understand the individual within her context Bringing together prominent sociologists to grapple with these questions *Movements for Human Rights Locally and Globally* offers insights into the ways that people move for and against human rights

The Anthem Companion to Robert Park Peter Kivisto,2017-06-01 The Anthem Companion to Robert Park comes to terms with Robert Park s legacy This companion focuses largely on the work rather than the man a major figure in American sociology during the first half of the past century and encourages readers to consider the virtue of rethinking and rereading the much maligned and frequently misunderstood Park Despite the fact that he wrote with exemplary clarity Park s work has often been ignored by contemporary sociologists The contributions in this companion embrace no singular response to Park but rather present a broad range of responses

generally appreciative but also critical Social Theory Berch Berberoglu, 2017-01-06 Social Theory provides a sophisticated yet highly accessible introduction to classical and contemporary social theories The author's concise presentation allows students and instructors to focus on central themes The text lets theorists speak for themselves presenting key passages from each theorist's corpus bringing theory to life The approach allows instructors the opportunity to help students learn to unpack sometimes complex prose just as it offers inroads to class discussion Chapters on Addams and early feminism on Habermas and the Frankfurt School on Foucault and on globalization and social movements round out contemporary coverage The book presents and explains key theories just as it provides an introduction to central debates about them Pragmatism and Education , 2005-01-01 The papers in this book have emerged from a conference which was organized in Zurich in 2003 by the Pestalozzianum Research Institute for the History of Education and the Educational Institute of the University of Zurich The conference was organized in light of the increasing internationalization of educational discussion within the last ten to twenty years and the topic was the relation between pragmatism and educational theory The contributions appear in a kind of chronological order First James A Good examines the repeatedly asserted Hegelian roots of Dewey's philosophy while Hans Peter Krüger Meike Sophia Baader and Roswitha Lehmann Rommel address specific aspects of pragmatism such as public communication religion and aesthetics with the main emphasis of the analysis on William James and John Dewey Jane Addams and George Herbert Mead's education stands at the center of interest in the contributions by Daniel Tröhler Birgit Althaus Gert Biesta and Jürgen Oelkers while Philipp Gonon and Stefan Bittner turn to the question of why pragmatism had such a hard time of gaining a foothold in Germany The final contribution Philip W Jackson's systematic analysis of Dewey's thought breaks with the chronological perspective of the volume shifting the focus to other central and fruitful issues **Women at the Hague** Jane Addams, Emily G. Balch, Alice Hamilton, 2022-05-04 In 1915 shortly after the outbreak of World War I between twelve hundred and two thousand women representing twelve nations journeyed to The Netherlands to plead for peace at The Hague At this first International Congress of Women they called for continuous mediation until peace was restored and they met with representatives of the warring governments in an idealistic attempt to halt the military clash Although they did not stop the war their proposals are still used as guidelines for most diplomatic negotiations between hostile nations Three highly talented progressive women led the American delegation two Nobel Peace Prize winners Jane Addams cofounder of Hull House in Chicago and Emily G Balch a distinguished sociologist who taught at Wellesley College as well as Alice Hamilton the first industrial physician in the United States and also the first woman to join the faculty of Harvard University This book is the first hand report by these three remarkable women of their mission for peace Balch and Hamilton devote several chapters to a description of their travels their visits with various heads of state and meetings with pacifists in different countries In a controversial chapter Addams sharply criticizes the older male patriarchal leadership that manipulates young men to fight needless wars Addams

Technoprecarious Precarity Lab, 2020-11-24. An analysis that traces the role of digital technology in multiplying precarity, *Technoprecarious* advances a new analytic for tracing how precarity unfolds across disparate geographical sites and cultural practices in the digital age. Digital technologies, whether apps like Uber built on flexible labor or platforms like Airbnb that shift accountability to users, have assisted in consolidating the wealth and influence of a small number of players. These platforms have also furthered increasingly insecure conditions of work and life for racial, ethnic, and sexual minorities, women, indigenous people, migrants, and peoples in the global south. At the same time, precarity has become increasingly generalized, expanding to include even the creative class and digital producers themselves.
