Race And Ethnicity In Comparative Perspective:

Race and Ethnicity in Comparative Perspective Georgia Anne Persons, 2017 Contradictory forces are at play at the close of the twentieth century There is a growing closeness of peoples fueled by old and new technologies of modern aviation digital based communications new patterns of trade and commerce and growing affluence of significant portions of the world s population Television permits individuals around the world to learn about the cultures and lifestyles of peoples of physically distant lands These developments give real meaning to the notion of a global village Peoples of the world are growing closer in new and increasingly important ways Nonetheless there are disturbing signs of a growing awareness of ethnic differences in all parts of the world the United States included and a concomitant rise in ethnic based conflicts many of them extraordinarily violent in nature Fear resentment intolerance and mistreatment of the other abound in world news accounts Not only does this phenomenon pose an interesting juxtaposition to the concept of the emergent global village but its emergence in the post cold war era internationally and the post civil rights era in the United States raises significant and compelling questions Why are such conflicts occurring now How do analysts explain these developments The essays in Race and Ethnicity in Comparative Perspective lucidly explore some of the complexities of the persistence and re emergence of race and ethnicity as major lines of divisiveness around the world Contributors analyze manifestations of race based movements for political empowerment in Europe and Latin America as well as racial intolerance in these same settings Attention is also given to the conceptual complexities of multidimensional and shared cultural roots of the overlapping phenomena of ethnicity nationalism identity and ideology The book greatly informs discussions of race and ethnicity in the international context and provides an interesting perspective against which to view America s changing problem of race Race and Ethnicity in Comparative Perspective is a timely thought provoking volume that will be of immense value to ethnic studies specialists African American studies scholars political scientists historians and sociologists Provided by publisher *Race & Ethnicity in Comparative Perspective - National Political Science Review* , Printbegr nsninger Der kan printes kapitelvis **Race and Racism** Pierre L. Van den Berghe,1967 Politicized Ethnicity Anke Weber,Wesley Hiers,Anaïd Flesken,2016-04-29 This book offers a rigorous comparative historical analysis of Kenya Tanzania Bolivia Peru and the United States to demonstrate how colonial administrative rule access to resources nation building and language policies as well as political entrepreneurs contribute to the politicization of ethnicity *Race and Ethnicity* John Stone,Rutledge M. transnationalism and ethnic justice **Ethnic Stratification and Economic Inequality around the World** Max Haller in collaboration, Anja Eder, 2016-03-03 The modern world is characterised by pervasive economic inequalities Strong economic growth in some developing countries has contributed to a degree to a reduction in the levels of inequality between nations yet inequality within nations remains high and in some cases continues to increase Ethnic Stratification and Economic Inequality around the World investigates the reasons for these striking differences exploring the coincidence and interaction between economic stratification and ethnic differentiation Drawing on extensive international survey and statistical data the author develops a new theory and concrete hypotheses concerning the conditions which lead toward extreme inequality and those which tend toward greater equality A systematic examination of the interaction between class structures social stratification and ethnic differentiation this book sheds light on the manner in which the resulting social structures produce different levels of economic inequality offering a fivefold typology of patterns of ethnic stratification which can be applied to present day world regions Drawing on the work of Max Weber to provide a rigorous investigation of inequality around the world it demonstrates what sociology as a science of social reality can significantly contribute to our understanding of global economic stratification The book is relevant for a wide social scientific audience particularly for sociologists economists and political scientists working in a comparative perspective **Racism and Anti-Racism in World Perspective** Benjamin Bowser, 1995-09-18 Bowser is a unique and valuable resource for students and scholars of race relations The book's contributors come from a wide range of backgrounds including anthropology classics sociology political science communications and history They examine racism and anti racism through the historical and cultural lenses of different world settings including Europe South America Africa America and the Caribbean *Encyclopedia of Race, Ethnicity, and Society* Richard T. E. Gracia, 2018-07-05 What is race What is ethnicity Should we think of them as identities Can they be effectively individuated How are they related How do the relations between them influence pressing issues concerned with social identity gender racism assimilation exploitation justice the law and public policy And how are the answers to these questions affected by the Black and Latino experience in the United States From the Preface This collection of new essays explores the relation between race and ethnicity and its social and political implications Although much work has been done on the philosophy of race in the past century in the United States the concept of ethnicity has only recently awoken the interest of American philosophers and the relations between race and ethnicity remain largely unexamined The discussion is divided into two parts dealing on the one hand with the nature and the relation between race and ethnicity and on the other with the social consequences of the complex relations between them Part I explores in particular the debated topic of racial and ethnic

identities Does it make sense to speak of racial and ethnic identities and especially of black and Latino identities And if it does make sense how should these identities be conceptualized and how are they related to gender Part II examines how race and ethnicity have influenced the lot of some social groups in significant ways How do racially defined institutions deal with racial assimilation How do different conceptions of race and ethnicity influence public policy and various forms of racism How can exploited racial and ethnic groups be effectively recognized And what is the role of affect in social justice as dispensed by the courts

The Ethnic Phenomenon Pierre Van Den Berghe, 1987-08-19 Van den Berghe contends that intergroup relations are reducible to individuals competing for scarce resources While social classes are grouped according to common material interests ethnic groups are organized by real or punitive common descent ultimately on the basis of common interests The author argues that ethnic nepotism is at its very foundation biological This new approach is expanded further taking into account how ethnicity is responsive to a wide spectrum of environmental factors He analytically relates his own ideological biases to the substance of his work What results is an intensely personal book of monumental scope and admirable intellectual honesty **Stanford Bulletin**, 2004 [Diasporas, Weddings and the Trajectories of Ethnicity](#)

Terence Heng, 2020-12-29 In an age of increasingly fragmented migration consumption and globalisation how do diasporic individuals navigate their ethnic identities *Diasporas Weddings and the Trajectories of Ethnicity* investigates the ways that Chinese Singaporeans shape their Chineseness through wedding rituals and artefacts Proposing a framework of ethnic identity as a journey this book will Interrogate the processes underlying diasporic ethnicity making through weddings Offer new concepts of transdiasporic space ethnic tastes and aesthetic dissonance Explore the intersections between commercialism ethnicity and socio economic divides Map the micro social ramifications of ethnic and racial policy in Singapore As a former professional wedding photographer Terence Heng brings a sociological lens to the scripted and spontaneous arena of social interactions that is the wedding day By combining ethnographic observation photography and poetry Heng reveals the many decisions and demands that underscore Singaporean Chinese weddings offering novel insights into the roles of the bridal couple their social networks and the wedding industry *De Gruyter Handbook of Humor Studies* Thomas E. Ford, Władysław Chłopicki, Giseline Kuipers, 2024-07-22 The *De Gruyter Handbook of Humor Studies* consolidates the cumulative contributions in theory and research on humor from 57 international scholars representing 21 different countries in the widest possible diversity of disciplines It organizes research in a unique conceptual framework addressing two broad themes the Essence of Humor and the Functions of Humor Furthermore scholars of humor have recognized that humor is not only a universal human experience it is also inherently social shared among people and woven into the fabric of nearly every type of interpersonal relationship Scholars across all academic disciplines have addressed questions about the essence and functions of humor at different levels of analysis relating to how narrowly or broadly they conceptualize the social context of humor Accordingly the editors have organized each broad thematic section into four subsections defined by
