Contesting the Last Frontier Pei-te Lien, Nicole Filler, 2022 Women of color including Asian Pacific American APA women have made considerable inroads into elective office in the United States in recent years in fact their numbers have grown more rapidly than those of white women Nonetheless focusing only on success stories gives the false impression that racism sexism and other forms of oppression are not barriers for APA candidates to public office It also detracts attention from the persistent and severe under representation of all women and nonwhite men in elective office in the United States In *Contesting the Last Frontier* Pei te Lien and Nicole Filler examine the scope and significance of the rise of Asian Pacific Americans in US elective office over the past half century To

help interpret the complex experiences of these political women and men situated at the intersection of race gender and other dimensions of marginalization Lien and Filler adopt an intersectionality framework that puts women of color at the center of their analysis They also draw on their own original dataset of APA electoral participation over the past 70 years as well as in depth interviews with elected officials They examine APA candidates trajectories to office their divergent patterns of political socialization the barriers and opportunities they face on the campaign trail and how these elected officials enact their roles as representatives at local state and federal levels of government In turn they counter various tropes including the model minority myth that suggests that Asian Americans have attained a level of success in education work and politics that precludes attention to racial discrimination Importantly the book also provides a look into how APA elected officials of various origins strive to serve the interests of the rapidly expanding and majority immigrant population especially those disadvantaged by the intersections of gender ethnicity and nativity *Ambitious and comprehensive Contesting the Last Frontier* fills an important gap in American electoral history and uncovers the lived experiences of APA women and men on the campaign trail and in elective office Religion, Race, and Barack Obama's New Democratic Pluralism Gastón Espinosa, 2013 Annotation This edited volume demonstrates how Obama charted a new course for Democrats by staking out claims among moderate conservative faith communities and emerged victorious in the presidential contest in part by promoting a new Democratic racial ethnic and religious pluralism *Off the Menu* Rita Nakashima Brock, 2007-01-01 Asian American Christianity is one of the fastest growing forms of American Christianity and it has already proven to be one of the richest and most innovative movements in North American religion With a deep understanding of their roots in classic Christianity as well as the diversity of Asian culture these theological voices have contributed some of the freshest and most provocative work of recent decades This volume brings together women who are searching for authentic Christian dialogue in a world of hybridity and changing context and it represents one of the most significant areas of growth and vitality in contemporary Christianity **Almost All Aliens** Paul Spickard, Francisco Beltrán, Laura Hooton, 2022-09-15 *Almost All Aliens* offers a unique reinterpretation of immigration in the history of the United States Setting aside the European migrant centered melting pot model of immigrant assimilation Paul Spickard Francisco Beltrán and Laura Hooton put forward a fresh and provocative reconceptualization that embraces the multicultural racialized and colonially inflected reality of immigration that has always existed in the United States Their astute study illustrates the complex relationship between ethnic identity and race slavery and colonial expansion Examining the lives of those who crossed the Atlantic as well as those who crossed the Pacific the Caribbean and the North American Borderlands *Almost All Aliens* provides a distinct inclusive and critical analysis of immigration race and identity in the United States from 1600 until the present The second edition updates *Almost All Aliens* through the first two decades of the twenty first century recounting and analyzing the massive changes in immigration policy the reception of immigrants and immigrant experiences that whipsawed back and forth throughout the

era It includes a new final chapter that brings the story up to the present day This book will appeal to students and researchers alike studying the history of immigration race and colonialism in the United States as well as those interested in American identity especially in the context of the early twenty first century **Political Parties Abroad** Tudi
