Improving Teamwork in Organizations Eduardo Salas, Clint A. Bowers, Eleana Edens, 2001-03-01 This edited volume applies the excellent work done in Crew Resource Management CRM in the aviation industry to training teams in other organizations CRM is not only a design for training but it also has been evaluated over time and shown great success This lesson should be transferred to other nonaviation settings and this book was written with that goal in mind This book has two purposes First it provides those interested in designing and delivering resource management training with useful and practical information containing the latest thinking and guidance available Second it launches CRM training as a viable intervention that can be used to enhance teamwork and organizational effectiveness as well as minimize human error in a wide variety of industries and organizations Written from experts in the field of training this volume is organized into four sections that address the foundation of resource management training focus on the tools needed for design and delivery of resource management training apply resource management training to several industries and domains i e medical naval airlines and look at the global issues such as culture of organizations national issues and error in training

A Sociology of Commercial Flight Crew Bennett Simon, 2016-12-05 There are numerous psychological studies of pilots and piloting but little has been done in the way of sociological examination Commercial aviation is one of the world's biggest industries yet there are few studies of pilots as social beings and of their place of work the flight deck Developing a sociological understanding of front line staff and of pilots working environments is an important step to developing a more detailed understanding of this increasingly important sector This book performs such a function and also adds to our understanding of pilots in general from those who work for flag carriers to those who fly for regional or corporate jet operators The readership includes the general public industry legislators regulators managements employees trainers journalists academics and students of sociology psychology organisation theory and business management

Instrument Flying Richard L. Taylor, 1997-08-22 The fourth edition of the perennial best seller Fully updated with everything the private pilot needs to know about flying IFR such as handling emergencies filing flight plans understanding IFR communications navigating and flying more efficiently Polish and improve your instrument flight skills with the proficiency exercises Glossary of aviation terms included

Illegal Charters and Aviation Law Alena Soloveva, 2022-07-28 This book concerns the subject of illegal charters The risks associated with illegal charters are high and the consequences are dire and different for all the parties involved Pilots can lose their hard earned licenses aircraft owners might not get paid by the insurance companies businesses might be prosecuted and fined customers do not get what they paid for The worst consequence of an illegal charter is that someone gets hurt or killed The tragic part in reading about a flight accident is the understanding that an illegal charter could have been avoided The present book aims to fulfil the industry's call for greater awareness education and transparency It will systematically and thoroughly investigate

the application of law in a practical context of illegal charters It engages in a comprehensive comparative study across various jurisdictions such as the USA Europe Russia Asia and the Middle East This text considers whether the elements evidencing state practice in regulation of illegal charters are peculiar to the region and legal system It examines how illegal charters can be prevented and undertakes the analysis of risks and consequences of illegal charters This is an important book that is likely to have a significant impact on existing scholarship regarding international and national aviation law and be of interest of all parties involved in aviation This includes industry professionals legal practitioners academics policy makers and government officials

Aviation Visual Perception Randy Gibb, Rob Gray, Lauren Scharff, 2016-04-15 Vision is the dominant sense used by pilots and visual misperception has been identified as the primary contributing factor in numerous aviation mishaps resulting in hundreds of fatalities and major resource loss Despite physiological limitations for sensing and perceiving their aviation environment pilots can often make the required visual judgments with a high degree of accuracy and precision At the same time however visual illusions and misjudgments have been cited as the probable cause of numerous aviation accidents and in spite of technological and instructional efforts to remedy some of the problems associated with visual perception in aviation mishaps of this type continue to occur Clearly understanding the role of visual perception in aviation is key to improving pilot performance and reducing aviation mishaps This book is the first dedicated to the role of visual perception in aviation and it provides a comprehensive single source document encompassing all aspects of aviation visual perception Thus this book includes the foundations of visual and vestibular sensation and perception how visual perceptual abilities are assessed in pilots the pilot's perspective of visual flying a summary of human factors research on the visual guidance of flying examples of specific visual and vestibular illusions and misperceptions mishap analyses from military commercial and general aviation and finally how this knowledge is being used to better understand visual perception in aviation's next generation Aviation Visual Perception Research Misperception and Mishaps is intended to be used for instruction in academia as a resource for human factors researchers design engineers and for instruction and training in the pilot community
