Abraham Lincoln , The Rediscovery of America Edward J. Erler, Ken Masugi, 2019-02-08 Harry V Jaffa 1918 2015 one of the profoundest political thinkers of his time is known most prominently for his pathbreaking work on Abraham Lincoln Jaffa who taught for 50 years at the Claremont Colleges and was a Distinguished Fellow of the Claremont Institute sought to produce a revolution in political philosophy by applying Strauss s controversial thinking about natural right Scripture and human greatness to American politics In these 10 essays beginning in the 1980s Jaffa rediscovered the moral and intellectual complexity of statesmanship in particular that of Lincoln and the American founders The essays reveal the profundity of the Declaration of Independence in observations both theoretical e g Aristotle and Aquinas and practical e g campus radicalism Jaffa takes aim at the interpretations of America made by some of Leo Strauss s students chastising their imputation of radically liberal theorizing to the Declaration and their ignorance of the meaning of all men are created equal The

Declaration's radicalism lies rather in its synthesis of ancient political philosophy and Scriptural authority on the good human life. Jaffa is particularly critical of Allan Bloom and in previously unpublished essays Irving Kristol and Harvey Mansfield for their errors about America. Jaffa's essays recover political philosophy in its political and philosophic dimensions so that it can be a continuing guide for our politics today.

Lincoln Revisited Harold Holzer, Dawn Vogel, 2009-08-25 In February 2009 America celebrates the bicentennial of the birth of Abraham Lincoln and the pace of new Lincoln books and articles has already quickened. From his cabinet's politics to his own struggles with depression Lincoln remains the most written about story in our history. And each year historians find something new and important to say about the greatest of our Presidents. Lincoln Revisited is a masterly guide. Pub to what's new and what's noteworthy in this unfolding story, a brilliant gathering of fresh scholarship by the leading Lincoln historians of our time. Brought together by The Lincoln Forum, they tackle uncharted territory and emerging questions; they also take a new look at established debates, including those about their own landmark works. Here these well-known historians revisit key chapters in Lincoln's legacy: from Matthew Pinsker on Lincoln's private life and Jean Baker on religion and the Lincoln marriage to Geoffrey Perret on Lincoln as leader and Frank J. Williams on Lincoln and civil liberties in wartime. The eighteen original essays explore every corner of Lincoln's world: religion and politics, slavery and sovereignty, presidential leadership and the rule of law, the Second Inaugural Address and the assassination. In his 1947 classic *Lincoln Reconsidered*, David Herbert Donald confronted the Lincoln myth. Today the scholars in *Lincoln Revisited* give a new generation of students, scholars, and citizens the perspectives vital for understanding the constantly reinterpreted genius of Abraham Lincoln.

In A Larger Sense Henry G. Sullivan, 2004-04 Having announced the underlying principles of a governing system designed to protect God's endowment of rights to mankind, the American founding fathers reasoned that God would be pleased with their efforts. So pleased the founding fathers theorized that their new nation would be protected by divine Providence. The American founders stated that rationale within the expressions of the Declaration of Independence: The American Experiment is designed to test the founders' theory. *In A Larger Sense* analyzes the overriding theory that explains America's founding. The ramifications of the American Theory are multifaceted. For example, readers of *In A Larger Sense* will come to realize that no tool of American government, including the American courts, wielding the sovereign authority, reasoned to exist on July 4th, 1776, may authoritatively deny the fact of God's existence. That is because God is the source of all American sovereign authority. Without God, that authority does not exist. The Constitution changes none of that. The speeches and writings of Abraham Lincoln indicate his understanding of the designed link of authority that connects the expressions of the Declaration of Independence to the Constitution. Lincoln's Gettysburg Address is a direct acknowledgement of the American Theory. Readers will discover that as Lincoln decided the actions that ultimately saved the last best hope of earth from extinction, our 16th president operated within the mode intended by the founders who designed the American Experiment.

Loathing Lincoln John McKee Barr, 2014-04-07 While most Americans

count Abraham Lincoln among the most beloved and admired former presidents a dedicated minority has long viewed him not only as the worst president in the country's history but also as a criminal who defied the Constitution and advanced federal power and the idea of racial equality In *Loathing Lincoln* historian John McKee Barr surveys the broad array of criticisms about Abraham Lincoln that emerged when he stepped onto the national stage expanded during the Civil War and continued to evolve after his death and into the present The first panoramic study of Lincoln's critics Barr's work offers an analysis of Lincoln in historical memory and an examination of how his critics on both the right and left have frequently reflected the anxiety and discontent Americans felt about their lives From northern abolitionists troubled by the slow pace of emancipation to Confederates who condemned him as a black Republican and despot to Americans who blamed him for the civil rights movement to more recently libertarians who accuse him of trampling the Constitution and creating the modern welfare state Lincoln's detractors have always been a vocal minority but not one without influence By meticulously exploring the most significant arguments against Lincoln Barr traces the rise of the president's most strident critics and links most of them to a distinct right wing or neo Confederate political agenda According to Barr their hostility to a more egalitarian America and opposition to any use of federal power to bring about such goals led them to portray Lincoln as an imperialistic president who grossly overstepped the bounds of his office In contrast liberals criticized him for not doing enough to bring about emancipation or ensure lasting racial equality Lincoln's conservative and libertarian foes however constituted the vast majority of his detractors More recently Lincoln's most vociferous critics have adamantly opposed Barack Obama and his policies many of them referencing Lincoln in their attacks on the current president In examining these individuals and groups Barr's study provides a deeper understanding of American political life and the nation itself

Brown Pryor, 2018-02-06 Winner of the Barondess Lincoln Award from The Civil War Round Table of New York Fascinating reading this book eerily reflects some of today's key issues The New York Times Book Review From an award winning historian an engrossing look at how Abraham Lincoln grappled with the challenges of leadership in an unruly democracy An awkward first meeting with U S Army officers on the eve of the Civil War A conversation on the White House portico with a young cavalry sergeant who was a fiercely dedicated abolitionist A tense exchange on a navy ship with a Confederate editor and businessman In this eye opening book Elizabeth Brown Pryor examines six intriguing mostly unknown encounters that Abraham Lincoln had with his constituents Taken together they reveal his character and opinions in unexpected ways illustrating his difficulties in managing a republic and creating a presidency Pryor probes both the political demons that Lincoln battled in his ambitious exercise of power and the demons that arose from the very nature of democracy itself the clamorous diversity of the populace with its outspoken demands She explores the trouble Lincoln sometimes had in communicating and in juggling the multiple concerns that make up being a political leader how conflicted he was over the problem of emancipation and the misperceptions Lincoln and the South held about each other Pryor also provides a fascinating discussion of Lincoln's fondness for storytelling and how he used his skills as a raconteur to enhance both his personal and political power Based on scrupulous research that draws on hundreds of eyewitness letters diaries and newspaper excerpts Six Encounters with Lincoln offers a fresh portrait of Lincoln as the beleaguered politician who was not especially popular with the people he needed to govern with and who had to deal with the many critics naysayers and dilemmas he faced without always knowing the right answer What it shows most clearly is that greatness was not simply laid on Lincoln's shoulders like a mantle but was won in fits and starts

Blackhawk, 2023-04-25 A sweeping and overdue retelling of U S history that recognizes that Native Americans are essential to understanding the evolution of modern America The most enduring feature of U S history is the presence of Native Americans yet most histories focus on Europeans and their descendants This long practice of ignoring Indigenous history is changing however with a new generation of scholars insists that any full American history address the struggle survival and resurgence of American Indian nations Indigenous history is essential to understanding the evolution of modern America Ned Blackhawk interweaves five centuries of Native and non Native histories from Spanish colonial exploration to the rise of Native American self determination in the late twentieth century In this transformative synthesis he shows that European colonization in the 1600s was never a predetermined success Native nations helped shape England's crisis of empire the first shots of the American Revolution were prompted by Indian affairs in the interior California Indians targeted by federally funded militias were among the first casualties of the Civil War the Union victory forever recalibrated Native communities across the West twentieth century reservation activists refashioned American law and policy Blackhawk's retelling of U S history acknowledges the enduring power agency and survival of Indigenous peoples yielding a truer account of the United

States and revealing anew the varied meanings of America Unfading Light Richard Fritzky,2020-11-02 Rich Fritzky poses five questions to forty five individuals who have devoted much if not all of their lives to Abraham Lincoln The individuals reveal what led them to him in the first place the attribute or fixed mark that sealed their belonging to him the conversations that they would most have liked to have had with him the words of his that they were most moved by and the why and how of his maybe just maybe helping save the soul of the Republic yet again in our own time Among those interviewed were eleven celebrated Lincoln scholars and historians the leaders of the National Lincoln Forum the Abraham Lincoln Association Lincoln Groups and Civil War Roundtables from coast to coast two celebrated Lincoln artists an array of Lincoln impersonators including Gettysburg s own curators animators professors teachers presenters and more They so movingly responded inspiring and driving the author deep into Lincoln s universe and into much material that is not often considered especially as to racism and race his shadow boxing with God his faith and doubt his exquisite humanity and extraordinary ability to lead his nation of suffering and the torture it exacted upon him and his rich reverence for both all that America was and could be Voyage of Rediscovery John Krist,2004 More than two centuries ago President Thomas Jefferson sent a hardy band of explorers on an unparalleled voyage of discovery across uncharted America Members of the Lewis and Clark expedition were the first U S citizens to cross the Continental Divide the first to reach the Pacific by land the first to map the landscape that would someday become central to the nation s identity They also were the last to describe the West before it underwent radical change at the hands of traders trappers soldiers and settlers As the 2003 2006 bicentennial of the expedition approached veteran journalist John Krist set out to retrace the explorers path hoping to answer a few deceptively simple questions What is it like on the trail today What was it like 200 years ago What can we learn about the West and about the nation itself by examining it through the unique lens of the explorers journals and letters Voyage of Rediscovery interweaves tales from the trail with analysis of some of the most compelling environmental issues facing the region Mixing adventure history science and sorrow it paints an evocative portrait of the modern American West and the people who call it home *Lincoln as I Knew Him* Harold Holzer,2009-02-10 Letters diary entries books and speeches by those who knew him suggest Lincoln was a terrible dresser loved bawdy jokes and stories and was a push over around children *A Press Divided* David B. Sachsman,2017-09-08 A Press Divided provides new insights regarding the sharp political divisions that existed among the newspapers of the Civil War era These newspapers were divided between North and South and also divided within the North and South These divisions reflected and exacerbated the conflicts in political thought that caused the Civil War and the political and ideological battles within the Union and the Confederacy about how to pursue the war In the North dissenting voices alarmed the Lincoln administration to such a degree that draconian measures were taken to suppress dissenting newspapers and editors while in the South the Confederate government held to its fundamental belief in freedom of speech and was more tolerant of political attacks in the press This volume consists of eighteen chapters on

subjects including newspaper coverage of the rise of Lincoln press reports on George Armstrong Custer Confederate women war correspondents Civil War photojournalists newspaper coverage of the Emancipation Proclamation and the suppression of the dissident press This book tells the story of a divided press before and during the Civil War discussing the roles played by newspapers in splitting the nation newspaper coverage of the war and the responses by the Union and Confederate administrations to press criticism
